Pledge week has met with the approval of many and the people are realizing their duty in the purchase of war savings stamps. The solicitors, under the direction of the chairman, postmaster M. T. Zubler, are making a house-to-house canvass and it is hoped that at the end of the week the Spring Mills district may have more than have done its part. There are but a few days left of Pledge week, and it is the duty of every one to pledge as much as possible. If you are not called upon by a solicitor you may pledge yourself at the postoffice.

Plans for the largest and best Memorial day services ever held in Spring Mills are rapidly going forward. The 30th of the mere Memorial day of former years, which is already sacred and stimulating to the memories of the people; more than the mere decoration of the graves of the veterans of the Civil War. The people of Spring Mills and community are especially urged not only to keep up to the standard in these services but to show a war-time spirit and with a deep sense of the sacredness of these services make them the most successful Spring Mills has ever had. It has not as yet been decided as to the closing of the stores but it is sincerely hoped that the sacredness of the day and its services may be realized and that they will remain closed the entire day.

July 4 to be Silent; Fireworks go to Army.

Washington, May 15.—The Fourth of July will be celebrated without fireworks this year. The output of every fireworks factory in the United States has been purchased by the War Department and will be used in supplying the army with flares and signal lights.

In odd corners of the country where dealers have a few firecrackers left over from last year there may be some popping of explosives on the nation's natal day, but the larger cities and towns will be without noise.

In addition to placing thousands of dollars' worth of contracts with the fireworks factories, the War Department has constructed the largest pyrotechnic factory in the world. This factory is now working special shifts in producing great stores of night flares and colored rockets. The output of a single day from the factory would be sufficient to illuminate the city of New York.

—All the indications point to a great increase in the number of soldiers and sailors in the American and allied ranks this year. If the war is not over by that time, the coming winter will call for a greater supply of woolen sweaters, scarfs, gloves, helmets, and socks than ever. In view of the prospects, the women knitters of America should increase rather than cut their output during the summer. Knitting for the soldiers and sailors and sewing for the war sufferers ought to be promoted rather than interfered with by vacations.

Medical.

No Trouble Since

MR. RINE'S STATEMENT IS MOST CONVINCING EVIDENCE.

When Mr. Rine endorsed Doan's Kidney Pills he told of having received complete relief. Now Mr. Rine tells how years have passed without any return of kidney trouble. Results that last are results that count. Bellefonte people should gain by the experience of James H. Rine, carpenter, of 239 High St., Bellefonte. He says: "My back was so weak I could hardly stoop to put on my shoes. I had severe pains through my limbs and could hardly drag myself around. Doan's Kidney Pills, which I got at Green's Pharmacy Co., cured me." Over three years later Mr. Rine said: "I have had no occasion to use Doan's Kidney Pills since they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rine has twice publicly recommended. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 63-20

An Army of Clowns.

A perfect horde of clowns will come to Bellefonte Thursday, May 23rd, with the Sparks circus, the glad assurance is given, and side-splitting hilarity will prevail during the performances. To the boy and the older boy, his father, there is nothing in all the varied catalogue of the circus that quite compares with the crude and genuine mirth the white-face cut-ups provide.

The clown is an inherent part of man's attitude toward life. There have always been clowns in the past; there will always be clowns in some form. The circus clown as we know him in the days of youth is slowly passing. What is left of him are scattered and impersonal remnants of the old individual jester. He has become a medley, a multitude of abstracts, a whirlwind of unidentified comedy.

The fun of the modern clown lies in their original conceptions, their grotesque costumes and their mechanical effects, and it is quite as effectively and spontaneously uproarious as that in the days of the one-ring tent. Dogs, pigs, goats, roosters, and even a kangaroo are their allies; aeroplanes, fire engines and patrol wagons give aid; they dress like policemen, rubes, dudes, young and old women, suffragettes, Highlanders, and giraffes; giants and midgets walk side by side.

The Sparks circus has ransacked the world for its cleverest and most original clowns. Their comicalities are a ceaseless joy of creation and burlesque.
