

THINGS ABOUT TOWN AND COUNTY

D. Paul Fortney has been appointed sub-carrier and special delivery letter carrier in the Bellefonte postoffice.

Read the first installment of "Outwitting the Hun," the true story of Lieut. Pat O'Brien, on the second page of next week's issue of the "Watchman."

The Patriotic League will take a "hike" next Friday evening. Members are requested to meet at 6:30 p. m., at the home of Miss Sally Fitzgerald, on Spring street.

The Misses Catharine Musser, May Taylor and Helen Harper are spending two weeks up at the Kern and Bartlett bungalow on Spring creek. The young ladies are naturally all enjoying their outing but the cold weather the fore part of the week was not as enjoyable as a little more sunshine would have been.

Capt. Robert B. Reed, associate chief of the bureau for the war zone of the American Red Cross in Paris, France, will speak in the court house this (Friday) evening at 8:30 o'clock. Capt. Reed is no stranger in Bellefonte and the public is cordially invited to hear him. He will speak on the work of the Red Cross.

Contractor R. B. Taylor is making good headway in the grading on south Water and Willowbank streets, but even at that, it will be weeks before the new roadway is completed. The streets are now closed to through traffic and all travel to and from the Buffalo Run valley and Spring creek must detour over the back road by way of the slaughter houses.

It is requested that all finished socks and sweaters be turned in to the Red Cross at once as they are needed; also any women desirous of doing knitting, can secure wool from Miss Morris. The Bellefonte Chapter has been asked to make, before October 1st, two hundred sleeveless sweaters and two hundred pairs of socks, so all knitters are requested to please help.

Shortly before noon on Sunday, June 30th, a freight wreck occurred about a mile west of Curtin when fifteen loaded cars were either piled up or rolled over the embankment. The wreck was caused by the pulling out of a drawhead. The morning trains got through before the wreck while the Lehigh-Pennsylvania was run west over the Lewisburg and Tyrone division, passing through Bellefonte two hours late. Passengers on the evening valley trains were transferred at the wreck.

The Fourth of July in Bellefonte was exceptionally quiet. With nothing doing in the way of a patriotic demonstration everybody could get out of town conveniently. Some went to State College to see the demonstration there. Others went to Port Matilda, where there was a big gathering. Quite a number went to Fishing creek to spend the day while a few families went to the woods for a picnic dinner. Those who remained at home had a hard time figuring out whether the day was the glorious Fourth or the sacred Sabbath.

Clarence C. Rhoads has resigned his job as bartender at the Brockhoff house and on Monday will go to Hollidaysburg as machinist's helper in the round house on the Middle division of the Pennsylvania railroad. He will also fill in as drummer in the Middle division band. Born and raised in Bellefonte Mr. Rhoads has made many friends here who will be sorry to see him leave the town, but feel confident he will make good in any position in which he is placed. In manipulating the drums he will also be an excellent acquisition to the Middle division band of Altoona.

In the last issue of the "Watchman" a story was printed about the arrest of J. C. and J. E. Mark and Fred Nixon, of Phillipsburg, for fishing for trout in the closed portion of Spring creek within the borough limits. Mr. Albert, a representative of the State Fish Commission, came to Bellefonte for the hearing before Squire S. Kline Woodring on the afternoon of June 28th, but the case was settled by the Mark brothers pleading guilty under the act of the Legislature by which the stream was closed and paying fines of \$20 each and costs, while young Nixon was discharged because he had enlisted for service and upon his promise to report the next day to the Punxsutawney recruiting station.

Walter Gherrity entertained a crowd of Bellefonte gentlemen at his hospitable home in the Seven mountains, above the old Foust place, on Sunday, giving them a chicken dinner with all the side dishes of vegetables right from his home garden. During the afternoon one of his guests killed a large blacksnake which was said to be six feet five inches in length and as thick as a boy's wrist. When Walter was told of the killing of the snake he informed the men that they had killed one of his pets. He told them that that blacksnake had been there the past eight or ten years and made itself at home on all occasions. In fact, he said, he had prized it very highly, because if he of an evening forgot to milk his cows the blacksnake would make it a point to relieve them of the milk and thus prevent the udders from caking. Of course his guests were sorry they had killed the snake when it was such a pet and so useful, and they had no reason to disbelieve Walter's word.

MANY MORE MEN CALLED FOR NATIONAL ARMY.

Four Will Leave Next Monday and 117 the Monday Following. Big Parade Sunday, July 21st.

Within the ensuing ten days Centre county will send away 121 more men for the national army. The first of these will be sent away next Monday in the persons of the following four young men:

- SCHOLL, JOHN, Bellefonte.
BEEZER, BENEDICT, Bellefonte.

They will go to the Bowman Technical school, Lancaster, and will leave Bellefonte on the 1:30 p. m. train. Three of the four young men named above are P. R. employees while the fourth is a clerk in the First National bank.

On Monday, July 22nd, 117 men will be sent to Camp Lee, Va. They have been summoned to appear in Bellefonte and report at the sheriff's office Sunday morning, July 21st, at 10 o'clock. A big reception and parade for their benefit will be given at 3:30 o'clock on Sunday afternoon. The Bellefonte Chapter of the Red Cross is making arrangements to take even a more prominent part at that time than they have taken on similar occasions in the past, and another prominent feature will be a large delegation of Italians and other foreign-born citizens. In fact the Italians are now planning to bring here the Italian band from Renovo to lead their delegation, and everything points to the fact that this will be the biggest demonstration of any yet held. In addition to the parade a public meeting will be held in the Diamond and prominent men will be present as speakers.

Remember the time, 3:30 o'clock Sunday afternoon, July 21st. The men will leave Bellefonte the next day, on the 1:35 p. m. train over the Lewisburg and Tyrone railroad. Following is the list of young men summoned to go at that time:

ARMY TRAINING CAMP AT STATE COLLEGE.

A national military training camp will be established at State College on July 22nd under the auspices of the U. S. government and the Pennsylvania Council of National Defense. It will continue for a period of four weeks, or until August 16th, and is especially designed for men subject to draft who realize the advantage to be gained through acquiring some military proficiency before entering national army camps. Seven U. S. army officers detailed to the college by the War Department and one foreign officer especially engaged for trench work will furnish the military instruction. Two members of the army medical corps and a bandmaster will also be in attendance. Only 300 applicants will be admitted.

Farm Bureau Agents Hold Conference at State College.

County farm bureau agents from all over Pennsylvania held a four day conference at State College this week which closed yesterday afternoon. At the present time there are upwards of fifty farm bureau agents in the State and practically all of them were present at the conference. On Tuesday the agents, accompanied by a number of professors at State College, drove out to Snow Shoe to see how the experiment of reclaiming the Dekalb soil is coming along. This spring the twenty plots of ground on which the experiments are being conducted were planted in corn. On the plots where no fertilizer was used the corn is only about six to eight inches high while that on the ground fertilized stands two feet tall. Just how the crop will show up at maturity remains to be seen, but it is quite evident that with proper fertilization the Dekalb soil can be made to yield profitable returns.

While using a vacuum sweeper last Saturday at her home at Curtin, Mrs. Harry Curtin in some way tripped and fell over the sweeper, breaking a rib and bruising her side. Fortunately she is getting along very nicely and her permanent recovery is only a question of time.

James G. Bent Badly Hurt in Auto Accident.

James G. Bent, of the western penitentiary, had his left arm and shoulder badly broken and sustained a serious cut on the head in an automobile accident at the Griffith curve, near Axe Mann on Tuesday afternoon. Mr. Bent, with Edward Furey and Albert Knisely were on their way home with M. F. Broderick in his Ford car shortly before five o'clock and in coming around the curve at Griffiths they collided with G. W. Potter, of Centre Hall, in his Ford car.

Mr. Bent was the only man seriously injured. He was occupying the rear seat of the Broderick car and when the collision occurred he was thrown through the windshields of both cars, landing inside the Potter car. The bones of his left arm were broken in three places between the elbow and shoulder and the shoulder blade was broken in such a way that splinters of bone protruded through the flesh. As quickly as possible help was secured and the injured man was brought to the Bellefonte hospital where everything possible is being done for him. None of the other men in the mixup were badly hurt.

Mr. Broderick's car was badly damaged and was towed into Bellefonte for repairs. Mr. Potter's car was also damaged to some extent. Just who was to blame for the accident is, of course, a debatable question. The Griffith curve is one of the most dangerous on any road in this section and as long as automobilists fail to observe the utmost care and caution in rounding that curve there are going to be accidents, because two automobiles going in opposite directions cannot pass on the same side of the highway.

W. C. Cassidy to Leave Bellefonte.

William C. Cassidy last week sold his job printing office in the Crider stone building to a company of buyers preparatory to leaving Bellefonte for his old home in Canton, Ohio, where he will assist his father in the management of his job printing office in that city.

Mr. Cassidy came to Bellefonte thirty-three years ago with his father, Major Robert A. Cassidy, when the latter, in connection with James A. Fiedler started the Keystone Gazette. He was the efficient foreman in that office until the newspaper changed hands when he opened up a job office in a room in the Crider building which he has conducted ever since. His only reason for selling out and leaving Bellefonte now is the failing health of his father and a natural desire to be near him.

Just when Mr. Cassidy will leave Bellefonte will depend upon the urgency of his need in Canton. He has some business matters to close up here and may remain here a week or two, and again may leave in a few days. He will not move his household effects to Canton, however, until in September. The flat he now occupies in Petrikin hall will likely be taken by Mrs. C. D. Tanner, who is planning to give up the house she now occupies on High street and just take table boarders and not roomers.

Thief Caught With Goods On Him.

For some time past various articles have been missed from the Adams express office in this place. Boxes were broken open and some of the contents removed but no one seemed able to detect the guilty party. Finally a detective came to Bellefonte from Sunbury and after doing a little quiet sleuthing decided that the stealing was being done by one of the drivers for the company. Accordingly a search warrant was secured and going to the young man's home the officer found three pairs of shoes and a quantity of cigarettes. The young man was immediately arrested and put in jail, notwithstanding the fact that he strongly denied all knowledge of the crime. After several days in jail, however, he weakened and confessed, and finally settled the case by paying for the articles taken and costs, a matter of almost thirty-five dollars.

Notice to Mothers.

The Patriotic League is considering opening a playground on the school commons immediately following the Bellefonte Chautauqua and to continue through August. It will be for the benefit of mothers who wish to attend the Red Cross Monday, Tuesday and Wednesday afternoons. All children over three years old are welcome to attend.

New Food Rulings.

Public eating places may now, until further notice, serve beef as a noon day meal each day, and by-products of beef at any time, but every one is cautioned against waste, and urged to be most economical in the use of sugar, flour and meat.

Mr. and Mrs. W. T. Griffiths, of Lock Haven, with several friends, motored to Bellefonte yesterday on a brief pleasure trip. Mr. Griffiths, by the way, is food administrator for Clinton county and his record shows that when it comes to administering he does it according to rules and regulations, without regard to folk or affiliations. He came into this office during his stay in town like an enraged bull in a china shop because of what he characterized as a piece of "bum copy" published in the last issue of the "Watchman," but when convinced that the item referred to was not published in this paper but another Bellefonte publication he was just as generous in apologizing as he was quick to wrath before. While the "Watchman" editor knows nothing personally of Mr. Griffiths' ability or impartiality as food administrator of Clinton county yet taking for granted that all is correct we hear of him, we'll wager a nice mess of Spring creek trout that no one will pull the wool over his eyes while he is looking at them.
