FARMING IN FRANCE.

A Ferguson Township Boy Tells of Old Time Methods in Vogue.

Somewhere in France, July 2. Dear Cousin:

Received your letter several days ago and will now try to answer it, but it is a pretty hard proposition, as the censorship is so strict that one cannot say very much or it will be cut

We had a very pleasant voyage over the "big pond." We were on the water twelve days and I was not at all seasick. In fact, I think the salt water breeze did me good, as I never felt better in my life. We arrived at Liverpool, England, then journeyed by rail to the English channel where we again boarded a boat and sailed to France. After arriving in this country we again entrained and rode for twenty-four hours which landed us in Vannes, which is about eight miles from our camp. There we transferred to another train which carried us the remainder of the dis-

In England we traveled in third (men) or "eight chevaux" (horses). have to wait and tell them personally when I get back home.

is funny how they do some things farmers have mowing machines last week in the month. about the same as ours, only they are pulled by one horse and cut a swath but 2½ feet wide. The hay is all raked by hand with wooden rakes houses and barns are all one building, in many cases one must go through the cow stable to get into the living room. They cook, eat, sleep and live all in one room. For beds they have arrangements which look like berths in a sleeping car. They cook in an open fire place.

Their shoes are made of wood, or leather uppers and wooden soles. They have nothing but brown bread, which is made from rve flour. The flour is made by grinding the whole grain on old stone burrs. The above conditions do not prevail all over France, but only among the poorer peasant farmers. The French people tell us that we are in the poorest section of the country.

Believe me, I miss my Fatima cigarettes. It is almost impossible to buy American cigarettes and chocolates here. Occasionally we can get a few packs of good old U. S. cigarettes and chocolates. American magazines cannot be had at all, and I can only read the pictures in the French magazines

I had a box from mother the other day containing cigarettes, tobacco, chocolate bars and fudge, and believe me I was glad to get it. As it is drill time now will have to close.

WILLIAM H. ROYER, 109th Field Artillery, A. E. F.

Troubles of Their Own.

Harry C. Valentine and his family were in a mess of trouble Tuesday morning. They had not been occupying their home on Curtin street regularly and on Monday evening were chagrined at the discovery that their rugs, carpets, wall paper, etc., had all become moulded for want of sufficient ventilation. The excessive humidity had added to the dampness in the house so in order to dry it out they decided to fire up their steam heating

Next morning the fire was lighted and no sooner had a good pressure been attained than a number of the steam pipes bursted literally flooding the house with hot water and steam.

-J. E. LeBarre returned home bacco and cigarettes, which was al- Tyrone which traversed the Bald Ea- ed church and was always a most ac- last Saturday from a business trip through the eastern part of the State and was not feeling very good as the result of being the victim of an unusual theft. Mr. LeBarre went away several weeks ago in his own car, a Ford, equipped with every convenience he could find place for. About ten days ago he went into the Harrisburg club with several of his business associates and when they came out of the club they found his car among the missing. He hunted for it high and low but was unable to get any trace of it. The matter was reported to the police and several days later the car was found down near Lebably located in life. During her long non. But about all that remained of it was the chassis and body. It had literally been stripped clean of every equipment, Mr. LeBarre's rain coat also having been taken.

-In last week's paper we mentioned the fact that Mrs. Joseph Undercoffer had been the victim of an accident at Olean, N. Y., while transferring from one railroad to another. A letter received by her husband this week conveyed the cheerful intelligence that she was getting along all right and would make her visit before er. returning home. Mr. Undercoffer also received information from the furled in the Presbyterian church on transfer company that they would pay all doctors and hospital bills. It and Ralph Dunlap. seems that in New York State all taxi drivers are under bond and liable for any damages incurred in an accident. Such a law ought to be a good one for Pennsylvania, too. It would be an inducement to drivers to be a little more careful of the rights and persons of others.
