WE MUST CUT OUT SUNDAY AUTOMOBILING.

Fuel Head Hints Mandate, if Voluntary Saving of Gasoline Fails.

Washington, D. C., Aug. 27.— The Fuel Administration today called upon the public in States east of the Mississippi river to cease the using of all classes of automobiles, with a few named exceptions, motorcycles and motor boats on Sundays until further notice as a gasoline conservation measure. Only voluntary compliance with the letter and spirit of the request will prevent the issuance of a mandatory order prohibiting the use of gasoline on Sundays, it was declared at the Fuel Administration. Automobiles for hire are included in the curtailment program.

Motor vehicles to which the restrictions do not apply, were announced as follows: Tractors and motor trucks employ

ed in actual transportation of freight.
Vehicles of physicians, used in performance of professional duties.
Ambulances, fire apparatus, police patrol wagons, undertakers' wagons and conveyences used for funerals and conveyances used for funerals.
Railway equipment using gasoline.
Repair outfits employed by telephone and public service companies.
Motor vehicles on errands of necessity in rural communities where

cessity in rural communities where transportation by steam or electricity is not available.

NEED GASOLINE OVERSEAS. The action was taken by the Fuel Administration, it was stated, to meet a threatened shortage of gasoline for shipment overseas, created by in-creased domestic demands and exten-

sive military operations in France.

An appeal is made, therefore, to the people of the United States east of the Mississippi river to exercise rigid economy in the consumption of gasoline during the next few weeks gasoline during the next few weeks as a necessary and practical act of

"War necessities are being and will continue to be promptly and fully met, but this is the period of the year when consumption of gasoline is at its highest, and the increased domestic demands, together with the extensive military operations in France, have rendered necessary, for a limited period, the adoption of safeguards against possible shortage.

DIFFICULT TO DIFFERENTIATE. "In view of the difficulty, if not the impossibility, of differentiating between the various uses to which automobiles are applied, the United States Fuel Administration believes that the greatest measure of economy can be effected with the least interference with the business of the country through the discontinuance of the use of all classes of motor vehicles, motor

boats and motorcycles on Sundays.

"The United States Fuel Administration therefore requests that in the section of the United States east of the Mississippi river there shall be a discontinuance of use of the vehicles above specified, including all such as are operated for hire, on each Sunday hereafter until notification that the need for such discontinuance has ceased."

Sixty Young Men Registered Last Saturday.

Since June 5th, 1918, just sixty \$1000. young men of Centre county ha tained their majority, at least that is the number that registered under the selective service law last Saturday,
August 24th. The list is as follows:
