0

Bellefonte, Pa., November 22, 1918.

The Capital's Fifth Avenue. Fennsylvania avenue in Washington is usually listed among the world's famous streets, but to the Washingtonian this avenue has not half the importance and attractiveness of F street, the recognized parade ground of the fashionable on sunny afternoons. F street in Washington is an institution like the monument, the government clerk and band concerts in the parks. It dates back far enough to tax the memory of Washington's few oldest inhabitants, but no records of its origin are filed in the city hall.

Singing Requires Strength. Students should remember that singing right requires great physical strength, observes a vocal teacher. The late Madame Nordica remarked that it required the training of a prize fighter. The human race is not physically as strong as it was a hundred years ago. The abdominal muscles seem to have suffered the greatest relapse, hence the scarcity of really great singers. In singing more than in anything else it is the "survival of the fittest."

Size of a City Lot. The question is often asked what part of an acre an ordinary city lot is. One 66x165 feet contains just a quarter-acre and contains 10,890 square feet. Ten acres, if square, would measure 660 feet along each side and a strip of that length and one-tenth the length, or 66 feet, would make an acre, and if but one-fourth as long or 165 feet would make a quarter acre. This is a good-sized city lot.

No Office Cat. A tradition of the office cat around a newspaper survives from earlier times, but it is only a tradition, for there is no such animal, notes an exchange. Probably he, or she, was once endured because of his supposed efficiency as a hunter of rats and mice, but no modern office is infested with rodents, and therefore it is not necessary that it should tolerate a cat.

Favors Early Parenthood. Early parenthood is productive of warriors, but not of good brain workers, for, says Doctor Redfield. "when we look over those intellectually superior men who have done so much for the world's advancement we find them to have been predominantly the sons of elderly parents and only rarely the sons of men less than twenty-five."

America's Natural Bridges. There are probably more natural bridges in America than in any other country. Rainbow, the largest in existence, is 308 feet high. Its span is six times as great as that of the natural bridge of Virginia. Utah has three natural bridges that are higher and of greater span than any other natural bridges in the wo...l.

Watched Him Swell. Leslie had been suffering with a severe toothache so that his face had become badly swollen. Returning from school the following day his mother asked him what the teacher said to him and he replied, "She did not say anything, but the kids all got around me to watch me swell."

Center of Jute Industry. Dundee practically owes its existence to its textile industry. It was the pioneer in the adoption of jute as a fiber for making cloth of a cheap quality, and its hold upon the trade has been so firmly maintained and developed that Dundee is recognized as the principal center of the jute industry in Great Britain.

Tibet History Lost. The history of Tibet is lost in the obscurity of the long ago, for its customs date back to the morning of the world. Its people come from the ancient ages, and it is only known that they belong to the Tibeto-Indo-Chinese branch of Keene's Homo Mongolicus.

Fond of Chicken Hearts. Lucy is fond of the hearts of all fowls. When dining out with friends she was asked what her choice of the chicken was. Forgetting the name for the moment, she said: "I fordet de name. It's de part what makes his live.

Many Seem to Think So. Like everybody else, the paragrapher has his dull days, though, perhaps, the rest of the people feel that the paragrapher has more of them than anybody else.-Wilmington News.

Definition of True Friend. "A friend," said Uncle Eben, "is a man dat laughs at yoh funny stories even if dey ain't so good; an' sympathizes wif yoh misfortunes, even if dey

ain't so bad." Circle of Ulloa. The circle of Ulloa is a white rainbow or luminous ring sometimes seen in Alpine regions opposite the sun in

foggy weather. It's an odd sight.

Exceptions to All Rules. In so complex a thing as human nature, we must consider it hard to find ales without exceptions.

New Electric Furnaces.

The success of electric heat in japan and varnish oven work has led to considerable investigation along the line of what might be termed low temperature heating; that is, heating with temperatures up to 600 degrees Fahrenheit. The results of these investigations have brought out numerous other applications, among which are electric core baking ovens, electric bread baking ovens, ovens for making cereals, drying woolen articles and equipment for sherardizing.

A Good Wife. Once upon a time there was a farmer whose wife daily pumped the household supply of water up to a tank on the roof, says The Little Journal. After 20 years he installed an electric motor to do this for her. Careful calculation brought out the fact that the wife had been working that pump handle 3,650 hours at a value of half a cent per hour. She had saved him \$18.75 in 20 years. What was it the preacher said about her worth being

above rubies?

Birds' Nest Soup. The birds' nests from which the farfamed Chinese soup is made are built by a species of swallow that abounds on the coasts of Java, Ceylon and Borneo, and consists of a gelatinous substance obtained from marine plants. The nests are boiled either in chicken broth or in milk of almonds, and the result very much resembles vermicelli soup, except that it is far more costly.

Ball vs. Roller Bearings. Ball bearings are a German invention, and it is only a few years ago that they made their appearance on the market. Roller bearings, both cylindrical and conical, are an American invention. The advantages claimed for the rollers over the balls are that they can sustain both the radial and the axial strain and they are more easily replaced when they become worn.

Responsibility on Heredity. The oldest nations invariably have the most philosophers and learned seers. This has been thought to be due, observes a writer, to their greater accumulation of knowledge, but this new theory places the responsibility in large part upon hereditythe fact that men of civilized nation give their sons the mental equipment of civilization.

Written in Fifteenth Century. Written in the fifteenth century, a manuscript containing letters and minor works of St. Cyprian, bishop of Carthage, father of the Latin church, who suffered martyrdom in 258, was one of the most interesting objects when the dispersal of the libraries of Charles J. Groves of Boston, Mass., and others was begun.

When a Woman May Lie. A Kansas City court has ruled that 'a woman may lie to her husband when the provocation is great enough." From our meager experience, notes the Pennsylvania Grit, it appears as if the dear ones are provoked virtually all the time. And, mercy, how angry they do become when the subject of ages is broached.

The Old Octagon Coin. The most valuable coin authorized in the United States is the double Eagle, worth \$20, of course. But there its shape, and it passed for \$50. It gal tender.

An Indian Dawn. I awoke-and beyond the great trees out-topping one another.—Atlantic.

Well Posted. They were discussing literature and the conversation turned to English authors. "Have you read Carlyle?" inquired the literary connoisseur. "No," answered the literary pavenu, "but I've visited his Indian school."

Late Food Discoveries. Lichens have been proposed as the latest addition to staple articles of diet. One scientist has suggested Iceland moss as suitable for making flour for bread and reindeer moss as good fodder for animals.

Dangerous Symptom. "I hear that Bilcum is going to run for congress." "Really? I'm not surprised. When he was a boy they say his parents were awfully worried about him."-Life.

Uncle Pennywise Says: There wuz a time when a feller could be great for eight hours a day and then mebbe relax a little. But now you got to keep your pose all the time.

CASTORIA Bears the signature of Chas. H. Fletcher. In use for over thirty years, and The Kind You Have Always Bought.

CAN'T ALWAYS SIZE THEM UP

Former Acquaintances One Meets in New York Must Not Be Judged by Their Appearance.

You never can tell who is who wher, you meet them in the White Light section. The other night a Pittsburgher ran into a former Steel Cityite who was wandering along the big lane. He wasn't so glad to see him, as he feared a "touch," because back home the man never seemed prosperous, neither was he down and out. His appearance hadn't changed since his residence

"How long have you been living in New York?" asked the visitor. "Oh, about three years," replied the former resident.

"Then you know the town pretty well?" was the next query. The former Pittsburgher admitted that he did, and gave the visitor some advice and warning about the big city. He listened. Then he asked: "What

are you doing here, Bill?" "Working for a bank down town," replied the other man.

The Pittsburgher didn't press his chance friend for details. He thought that Bill had one of those jobs down town where one starves to death amidst the wealth of the nation-die of thirst upon the fountair.'s brink. "Won't you take lunch with me?" he asked, and Bill said he would be de- \$150. lighted-some time.

The next day the Pittsburgher went to a bank down town to see about a check of a friend of his which had gone astray. "You will have to see the cashier," he was told, and there was the former Steel City man. He was in an office market "private" on the door and his name in gold on the side of the desk. He was cashier of one of the biggest banks in the world. -New York Sun.

CAN WIN BATTLES AT HOME

Housewife Finds Joy in Thought That She Is Helping to Defeat the Hated Boche.

"It's a funny thing," said the Man to like cooking, "s" I remember it. Breaking a new maid in was always a time of great trial and tribulation. But every night I come home to dinner you emerge from the kitchen almost as though you hated to leave the masterpieces you have evolved long enough to greet your hard-working husband

properly. What's the reason?"
"Well," said the Wife of her Husband. "it's like this. It's a sort of game. I may not ever see any fighting, but I feel that out there in the kitchen I am helping France, England and, last but not least, our own blessed boys. Every time I make a loaf of rye bread make my allowance stretch a little bit I feel as though I had won a battle. And so I have. I've beaten old General fired a shot at the Boches."

"Good girl," and the Man patted his Wife gently. "Since I can't go and we have no one to give, the best we can do is to play the game over here as though we loved it."

Dog's Death Led to Suicide. Mrs. Margaret Dugdale, wife of Norman Dugdale, J. P., of Dutton Manor, near Blackburn, was found dead with a bullet wound in her forehead in a field near the grave of her favorite dog, which had been destroyed on account of old age. Dewas formerly struck in California what | pression caused by its loss was sugwas called an "octagon" because of gested at the inquest as the cause of her suicide, says Lloyd's News, Lonwas current elsewhere, but never le- don. When found she was grasping a humane cattle killer, at her feet was a mallet with which she had discharged the weapon, and a loaded revolver was in a basket near her. She had fixed a mirror to the fence, and I saw the dawn come up like thunder, a note pinned to her dress gave direcas it does on Mandaley. Exactly like tions for the disposal of her body. thunder it came up, rolling, rising, Mr. Dugdale said he thought the dog's crashing clouds of copper and dull death, which his wife had taken greatgold, reddening, breaking, mounting, ly to heart, was the cause of the tragedy, and the jury's verdict was that Mrs. Dugdale shot herself while of unsound mind.

> Determining Character. We prepare ourselves for sudden deeds by the reiterated choice of good or evil which gradually determines character.-George Eliot.

Reciprocity Is Fair. There must be reciprocity or there can be no union.

Story of Grizzly and Herd of Elk.

"Most people pass on, with both haste and speed, when they encounter a grizzly bear, but there was one time when I saw a grizzly bear, with-"It's a funny thing," said the Man to his Wife the other night. "You used to like cooking, "s" I remember it. certainly bestirred himself while I had the pleasure of standing by as an amused spectator of the scene. If things had been different, and the derful results are obtained in giving Goldine a full and thorough trial. You never will regret it as thousands praise the day they found Goldine. grizzly and I had met alone, I might have done a holus-bolus myself," re-

marked Robert Hilliard. "Two summers ago," continued Hilliard, "I was out in the west and had a camp high up on one of the ranges. There was plenty of snow up there, and a number of elk. These elks were enjoying themselves and were the picture of real contentment, for they had found a summer home that they liked, and, what is most important,

very suitable for them.
"For several days I had been watch-I feel like waving a flag. Every time ing the herd and had been varying my usual practice of shooting by taking some snapshots. One day when I was intently observing the elk, I And so I have. I've beaten old General Highcostaliving. Every time I squeeze a War Savings stamp out of the food allowance I feel that I personally have have their sentinel spot the grizzly, and they must have had some mili-tary genius with the elk, for as soon as he came in view, the herd gathered into one dense mass. There were many hundreds of them, and it was most interesting to see the defensive

Hood's Sarsaparilla.

Rheumatism

The Way to Get Rid of it is to Remove the Cause.

The fact that rheumatism depends on an excess of uric acid in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain, is well established. This excess is due to some defect in the processes of digestion and absorption, and to torpidity or sluggishness of the liver, kidneys and skin.

Hood's Sarsaparilla is very suc-cessful in the treatment of rheuma-tism because it acts directly with

tism because it acts directly, with purifying effect, on the blood, and through the blood on the liver, kidneys and skin, which it stimulates, and builds up the whole system.

Get rid of these rhematic pains and aches by taking this medicine.
