**RESULTS OF TRACTOR DEMONSTRATION.**  
Over 500 People Witnessed Tractor Demonstration On Beaver Farm at Bellefonte.

After being postponed twice the tractor demonstration was held Saturday on the Beaver farm at Bellefonte. Although the day was cold and chilly it was estimated that at least five hundred people witnessed the demonstration and automobiles lined both sides of the state road for almost half a mile. The demonstration consisted of seven machines plowing a field with a slope which ran over a limestone ridge and in which a good many stones were struck. It was a demonstration that showed exactly what tractors can do on a field where plenty of stones are present, and also on a grade such as the tractors had to plow in this demonstration. It cleared the minds of a good many people as to the practicability in using tractors on the limestone soils where our fields are not altogether level and where stones have to be dealt with.

At the beginning of the demonstration all the tanks were drained and filled up from one tank so that all would have the same quality of gasoline and kerosene, and then fuel consumption test was run on plowing the plot of ground allotted which consisted of three-fourths acre each. The data given below consists of name of tractor, power, number and size of plows, amount of fuel used to plow the three-fourths acre, and figures on the acre basis, charging gasoline at thirty cents per gallon and kerosene at fifteen cents per gallon.

1. Waterloo Boy—12-25. Three 14-inch plows. Used 12 quarts kerosene, no gas; acre basis, 60 cents.
2. Huber—12-24. Three 14-inch plows. Used 5 quarts kerosene, 11 1/4 quarts gasoline; acre basis, \$1.28.
3. Happy Farmer—12-24. Two 14-inch plows. Used 2 1/4 quarts kerosene, 1/2 quart gas; acre basis, \$1.13.
4. International—8-16. Two 14-inch plows. Used 12 1/2 quarts kerosene, no gas; acre basis, 63 cents.
5. Case—9-18. Two 12-inch plows. Used 8 1/2 quarts kerosene, 2 1/2 quarts gasoline; acre basis, 68 cents.
6. Cleveland—12-20. Two 14-inch plows. Used 11 quarts gasoline; acre basis, \$1.10.
7. Fordson—12-22. Two 14-inch plows. Used 15 quarts kerosene, 1/2 quart gasoline; acre basis, 50 cents.

Mildred Rossman, the young daughter of Harry and Lizzie McClellan Rossman, of Coleville, was so badly burned at a bonfire on Wednesday morning that she died in the Bellefonte hospital about twelve o'clock the same day. While the parents were away from home the Rossman children built a bonfire in the garden and Mildred, who would have been four years old next January, got too close to the fire with her clothing caught fire. Neighbors who saw the child's predicament ran to her rescue but she was terribly burned. She was hurried to the Bellefonte hospital where she lingered in terrible agony until death relieved her sufferings. In addition to the parents three brothers and a sister survive, namely: William, Margaret, Robert and Carl. Burial will be made in the Union cemetery today.

**Kaiser Big Food Hoarder.**

Amsterdam, Nov. 27.—"How Wilhelm Held Out," is the title of an article in the Frankfort Volks Stimme by Wilhelm Carle, a Socialist, who discovered the hoards of provisions which the former Emperor had in his Berlin palace. "The quantity," the writer says, "exceeded all expectations. In large, white-tiled rooms was everything—literally everything—one can imagine in foodstuffs. It is inconceivable that, after four years of war such huge quantities could be hoarded. "There was meat and game in cold storage, salted provisions in large cases, white meal in sacks piled to the roof, thousands of eggs, gigantic boxes filled with tea, coffee, chocolate, lard, jelly and jam; hundreds of sugar loaves and endless stacks of peas, beans, dried fruits and biscuits. Their value amounts to several hundred thousand marks. "These hoarded foodstuffs cannot be better used than to be preserved as a lasting memorial to our posterity which should see how, while millions in Germany starved, those elected by the grace of God held out."
