During his absence Charles Gates will be his substitute in handling out Uncle Sam's mail matter.

Just as the J. C. Homan family were about to leave home for church last Sunday morning they discovered smoke issuing out through the brick wall of their house. An alarm was sounded and neighbors rushed to their aid. A smoldering fire was found between the joist and plastering and the flames were quickly extinguished with the help of a bucket brigade. Had the incipient fire not been discovered at the time it was the chances are the comfortable Homan home would have gone up in smoke.

Last week J. H. McCracken and sister Mary visited friends in the Mountain city. While there they learned of the death of a woman who left a family of nine children. Their sympathies were aroused and they

promptly sought out the family, which is named Lebe, and brought two of the boys, Richard and Mahlon, along home with them. Mr. and Mrs. John Quinn, of Pennsylvania Furnace, took one of the twins of the family, George Lebe, and the three boys, all of whom are seemingly very bright, can be thankful that they have secured such good homes.

Last Friday afternoon as Frank Swabb and daughter Ruth were rounding the curve in the state road east of town they collided with another car containing Mr. Kauffman, of Zion, and Clement Dale Esq., of Bellefonte. Strange as it may seem, although there is a clear view of the road at that place none of the occupants of either car saw the other until the collision occurred. Miss Ruth Swabb was thrown through the windshield but fortunately was not badly hurt. The Swabb car, however, was badly damaged and had to be towed in for repairs. The venerable Mrs. Jonathan Bilger, better known as "Grandmother" Bilger, passed her 88th milestone on Tuesday last, and it is a pleasure to announce that she is as lively and cheerful as many a young girl in her teens. Mother Bilger reared a large and honored family of boys and girls, who make it a practice to call upon her frequently, which calls are apparently highly appreciated by the dear old lady and no doubt have a tendency of prolonging her life. How all-powerful is the influence of a dear, old mother, for whom domestic life has a charm, the attachment of the idols of her heart omnipotent though imperceptible. May the life of the good, cheerful old soul be extended for many more years.

Pleasant Gap has a good, old-fashioned Methodist revival in progress. It has been going on nightly for the past three weeks and the end is not yet in sight. Something like seventy-five men and women have gone forward with a view of leading a better life. Much of the credit of this unprecedented success must be attributed to the Methodist minister. The veteran, enthusiastic, grand old man, Rev. M. C. Piper, who conducted the services for the first two weeks, recently met with an accident and has since been confined to his home at Miesburg. However, the good work continues. Rev. C. C. Shuey, Dr. Yocum, Chaplain Young and others are carrying on the meetings. Rev. Piper has the sincere sympathy of our entire community for his unfortunate accident. He surely has numerous friends in this community. He is a teacher of taste and judgment, whose well-balanced mind is controlled by

They are all good enough, but the "Watchman" is always the best.

A circular explains that the reduction is on garments made of the cheaper grades of fabric. On better grades the tendency is upward.

Thomas Jodon, our hustling wholesale butcher, is doing a thriving business. Besides supplying the penitentiary with all its meat, he ships extensively to Lock Haven and other points. He is now killing on an average of four to five cattle daily.

Our High school, now presided over by Prof. C. L. Gramley, of Lehighburg, is progressing onward and upward with gigantic strides. At a recent debate on the topic of "Female Suffrage" four speakers on each side participated. Each side acquitted itself admirably. The topic was thoroughly contested inch by inch, and the final verdict of the judges was that the advocates of Suffrage won. Patrons and friends are invited to be present on these entertaining occasions, making it a rare treat for those who believe that intelligence is the life of liberty.

common sense and conscience. His success as a faithful minister is due in the main to his skill as an organizer, his power as a disciplinarian, his fairness and integrity in dealing with his subordinates, and his unbending courage and force of will; manly, noble and generous; and gifted with a sound, clear intellect and a magnanimous heart. In his pulpit and platform lessons he endeavors to persuade men and women to be charitable and loyal to humanity and to honor the common people and common employments; to let the church doors swing on hospitable hinges.

While Pleasant Gap is still holding its own in a progressive sense things are apparently slowing up. Our knitting mill, which has been such a blessing to our town, is now running only three days a week. The slump, it is said, is caused on account of the shortage of raw material. It is to be hoped that this barrier will soon be overcome and full time be again restored. Our lime quarries, the main industry of our community, which, through the efficiency of first-class management has made it possible to give employment to all who needed work and wanted work, are now obliged to run on half time, but it is thought this is only temporary. Several large furnaces have closed down for necessary repairs which get lime stone from our plant, and as soon as repairs are made orders will be renewed and conditions will again be normal.
