The announcement of the death of the Hon. P. Gray Meek was a great shock to this community as he had numerous ardent and close friends at the Gap. Before his sad bereavement his temperament was always so buoyant, cheerful, and hopeful, and his feelings remained placid and unruffled under the most perplexing and irritating circumstances. He was resolute and courageous, but these qualities were modified by cautiousness and often looked like wariness, and even timidity, for he was ambitious of success, and well knew the uncertainty of events. No man was more patient and circumspect in weighing the considerations on both sides of a question, and then coming to a just conclusion; he adhered to his views with manly tenacity. His word was that of a man of honor and honesty. The sun has set and the shades of night have closed over the career of this truly noble and philanthropic friend.

Moose Dying of Spanish Influenza.

Fort William, Ont.—Moose in the Thunder Bay district are dying of Spanish influenza, according to information brought here by woodsmen and hunters. Their tales vary in detail, but conform in the assertion that the suffering moose seem to have the universal symptoms of the disease. The most common is extreme weakness.

One bushman told of encountering a bull moose which was in a state of collapse, bleeding from the nose, and so weak it was unable to run away. Another man came across the bodies of two moose, lying almost side by side, which showed no signs of wounds or external injuries.

The woodsmen express alarm lest the epidemic seriously deplete the game resources of the region.

Courtship in Omaha.

William Erath called on his sweetheart Friday night, but a minute after father came home he was outside, his hat, coat, and trousers were in bits everywhere and he was suffering from a broken knee. The following story was told to Police Captain Vanous by the father, Louis L. Raber:

"I noticed the dimly lighted parlor when I got home last night and I stuck my head in to see who was there. It was my daughter and a man, who leaped from his chair and went by me like a shot when he saw me. We both made a grab for his hat which hung on the hall tree, and the hat parted in two pieces. I then grabbed him by the coat collar and the coat parted, leaving a half of it in my hands. Mrs. Raber tripped him, and I pounced upon him and tried to hold him by the trousers, but again fate was against me, as the trousers tore and peeled off like a banana skin. He escaped in his B. V. D's and tumbled down the steps. I don't know what was the matter with the boy. Just back fever, I guess. I wouldn't have hurt him. I just wanted to see who he was."—Omaha News.

A change has been made in the government order that returning soldiers must surrender their uniforms three months after they are discharged. According to the new ruling by the War Department, a soldier has the right to wear the uniform as he pleases, or save it as a keepsake. Owing to the large demand for civilian clothing, and the fact that the boys in some cases do not have the necessary money, were given as the reasons for the repeal of the original order.
