Word was recently received that the death of John Snyder occurred in a base hospital in France on October 16th, from wounds received in action. He was twenty-three years of age and he was twenty-three years of age and prior to entering the service made his home with the A. S. Walker family on the Branch. He was a member of the Pine Grove Mills Lutheran church and Pennsyalley Lodge No. 276 I. O. F. He is survived by his mother, one brother and two sisters, living near Pittsburgh.

### ORVISTON.

Miss Olive Walker, who has been ill with a bad cold, is able to be about again. Helen, baby daughter of Hensyl Young, has been quite ill, but is im-

Mrs. Hannah Mayes returned to her home in Clarence, after a very pleasant visit among Orviston friends. Atwood Wellers is off on a sick spell this week. We miss his cheerful face and jolly voice, and hope he will be better soon.

James Moody Sr., and Daniel Moore, of Clarence, called on Orviston friends recently and also transacted a little "brick" business. It is good to meet old friends occasionally. Mr. and Mrs. Harry Womer, of Romola, spent Sunday with Mrs. Wo-mer's parents, Mr. and Mrs. Harry Herr; Mr. Womer's sister, Mrs. Ed. Confer, and his aunt, Mrs. Amelia

Rickard. Mrs. John Hume Sr. and Billy Jones spent a day with Mrs. James Moody last week. Mrs. Moody is always glad to see her Orviston friends, and makes it very pleasant for them when they visit her.

Mr. and Mrs. William Walker, Milford, and little Dorothy, visited their farm at Port Matilda, Wednesday. They all enjoyed their trip. Incidentally they called on Mr. and Mrs. Lot Thompson, of that place. Mr. and Mrs. Thompson formerly resided in Orviston, and have many friends here. Mrs. William Lucas and children, Mrs. William Lucas and children, Celia and George, have returned from a two week's visit with Mrs. Lucas' parents, Mr. and Mrs. Isaac Williams, of Howard. Mr. Williams has been in poor health for several years and his condition gauges his family much

anxiety, as there seems to be little relief for him. Hensyl Young has purchased the fine young horse formerly owned by Philip Deitz. His brother, Boyd Young, has brought his nice black horse from Romola and the boys are now enjoying the pleasant weather driving around. As they are not selfish, all the little kids are having

their share of fun also. The ladies of the Orviston church have once more held their Children's day service. Some of the youngsters are to be complimented, as they cerare to be complimented, as they certainly deserve credit for the clever rendering of their parts. The writer was unable to obtain a program, so cannot give the list. Special praise should be given Misses Thelma Nelson and Marian Daley, their duet being excellent; Miss Nelson, soprano, and Miss Daley alto. and Miss Daley, alto.

# LEMONT.

We had a fine rain Sunday. Griffith Lytle, of Kansas, came east to pay a visit among his many friends

Jesse Klinger and family have started for Canada, where they will visit at the home of their daughter

P. W. Knapp, who finished his course at State College this week went to Warren, Pa., where he has secured a fine position. The United Evangelical church of Lemont will hold Children's day serv-

ices, Sunday evening, June 15th. Oscar Rishel, of Boalsburg, who returned from France on Memo spent Sunday at the home of his un-cle, William Rishel, near town. He looks fine.

The Children's day services held in the United Brethren church at Houserville, Sunday evening, were quite a success, but the electric light went out before the program was com-pleted.

Last Tuesday evening Mr. and Mrs. Henry Knapp were rather agreeably surprised when the following neighbors and friends quietly came to their home: Mr. and Mrs. John Shuey and home: Mr. and Mrs. John Snuey and daughter Helen, Mr. and Mrs. Cyrus Gearhart and son Russell and daughter Mary, Mr. and Mrs. Nelson Jones, Mr. and Mrs. G. W. Williams and son Guy, Mr. and Mrs. B. F. Hoy and grandson, Mr. and Mrs. W. H. Rishel and son Irvin and daughters Mary and Hogel Somuel Wassen and sons. Hazel, Samuel Wasson and sons, Glenn, Paul, James, and daughter Priscilla, Mrs. Alice Williams and grand-daughter, Margaret, Winford and Elliott Armstrong, Mr. and Mrs. Henry Knepp and sons, Peter, John, Irvin, Albert, and daughters Chris-tine and Martha, Verna Fogleman, Mary Jane Johnston. Everybody had a pleasant time and wish them many returns of the day.

### HINTS ON HOW TO BE YOUR OWN WEATHER PROPHET.

Adam may or may not have tried his hand at weather prediction, but it is written that as far back as the time of Noah that gentleman prophesied a long, wet spell, and, unlike a lot of later weather-prophets, he had such faith in his own prognostications that he took measures to meet the situation. Further than that, subsequent events proved that Noah was a 100 per cent. prophet. Many of his successors, however, showing a lower batting average, it became increasingly apparent as time went on that in view of the frequency with which the prognostications failed, the subject should be placed on a scientific basis in order to obtain accuracy in the results, or at least to spread a sort of halo of learning and philosophy about it, and thus minimize the curse, as it were, of possible errors. So weather bureaus were instituted, which same have been in more or less successful operation now for many years, with attendants on the government pay-roll, and everything. Entirely apart from scientific weather observations, however, home-made weather-fore-casting has persisted as a pleasing pastime all these years, and on this

Sun has obligingly made a compila-tion of them and they are set forth as follows: When standing on high ground and the horizon is unobstructed from all quarters, if the sky is absolutely cloudless, look for a storm within for-

very day there is a set of rules gov-

erning it, more or less recognized by

all amateur weather-prophets. For the benefit of those who may be unfa-

miliar with these rules the New York

ty-eight hours. If it starts to rain after seven his condition causes his family much o'clock in the morning it will continue to do so all day, and very often it is the indication of a three days' rain. When it is raining and it brightens and darkens alternately you can count on an all-day rain, with a chance of clearing at sundown.

When the rain ceases and the clouds are still massed in heavy blan-kets one sure sign of clear weather is the patch of blue sky that shows through the rift large enough to make a pair of "sailor's breeches." Another sign of continued rain is

when the smoke from the chimney hovers low around the housetops. When it ascends straight into the air this indicates clearing weather.

A foggy morning is usually the

forerunner of a clear afternoon.

A thunder storm in winter (usualin January or February) is always followed by clear, cold weather. It is not, as many think, the breaking up of winter. People living near the seashore say

a storm is "brewing" when the air is salty, caused by the wind blowing from the east. A red or copper-colored sun or

moon indicates great heat. A silvery moon denotes clear, cool weather. The old Indian sign of a dry month was when the ends of the new moon were nearly horizontal and one of them resembled a hook on which the Indian could hang his powder-horn.

Many people troubled with rheumatism and neuralgia usually are excellent barometers and can predict changeable weather by "feeling it in

their bones." And the advice of the old weather sage is "never go out during the April month being unaccompanied by your umbrella."

And then, for the special benefit o those who never can remember anything they read in prose, but do have a faculty for retaining jingles, the following important formulas are set out in verse: Red in the morning the sailor's warning;

Red at night the sailor's delight. When you see a mackerel sky. Twill not be many hours dry. When the seagulls inland fly Know ye that a storm is nigh.

Means a storm is coming soon. When it rains before seven Twill clear before eleven.

# Economy of the Ant.

Man keeps cows and chickens and considers himself pretty highly civilized, but in this respect the human race is not more advanced than the ordinary ant. There is a tiny insect known as the aphis, which when properly nourished, gives off honeydew just as a Jersey cow gives good, rich milk.

The ant dearly loves his honeydew, and so he imprisons the aphis in his burrows and partakes of honeydew as a sort of digester after his ordinary diet. The aphis, which bears, with re-lation to the ant, the same ration of intelligence as the cow does to man, doesn't seem to mind being imprisoned at all, just so long as the ant burrows holes along succulent roots for the aphis to feed upon.

The corn root aphis is one of the worst enemies the farmer has, for he feeds on roots of the new corn. course the farmer must not blame the aphis for this, but lay the blame on the ant, who cares for the aphis and sees that he gets to the corn roots to feed upon. The farmer's only course is to get rid of the ants, in his new cornfield.—St. Joseph Gazette.
