From the above and foregoing report of sales of War Savings stamps, during the month of May, will be noticed the fact that very few stamps are being bought at a number of the postoffices, while at others, either no sales have been made, or, in some instances your chairman has not even received the courtesy of a report.

"The present movement to develop THRIFT as an enduring American trait, is vitally necessary to the stability and prosperity of our country. Every citizen can do his or her part by saving systematically a part of his or her earnings, and placing it in a safe investment such as War Savings Stamps and Certificates. They pay a high rate of interest and directly aid the government in carrying out its new Peace Time work. Besides, they lay the foundation for the buyer's financial independence and success.

Let us resolve today to achieve our own independence, safety and prosperity by steadily practicing intelligent thrift and systematic saving, and in so doing live up to our allegiance to Old Glory.

Let us resolve right now to begin buying W. S. S. and certificates to the full limit of our ability. On about June 1st, 1918, Centre county had a per capita of \$5.61, and at this time we have a per capita of only \$1.52, which indicates that the WAR-TIME PRESSURE of 1918 was responsible for many savings. This is a THRIFT and SYSTEMATIC saving proposition. It is not only that, but it is also a good, first-class investment, at a large rate of interest and free from taxes.

Centre county retains second place in the list of counties in the Eastern district of Pennsylvania, with Union county still leading with \$3.91 per capita. It is up to every person to re-enlist in the purchase of these government securities. Let us "make good" our per capita in 1919, and in order to do so, you will appreciate the fact that we MUST begin PURCHASING AT ONCE, and MUST PURCHASE to the full limit of our ability.

Very truly yours,
W. HARRISON WALKER,
Chairman W. S. S. Committee,
for Centre County, Pa.

The Motor Bus and Pneumatic Tires.

Making money by establishing motor lines for the transportation of passengers and freight presents today one of the best fields of opportunity for the man with a little capital at his disposal, in the opinion of the United States Tire company. The development of lines of this sort between towns and cities has only just begun, and is certain to grow tremendously in the next few years. The opportunities are especially good in sections where railroad service is not good. But even in parts of the country where the railroad schedules are the best, auto lines are doing a good business hauling freight.

The perfecting of the large pneumatic tires of the United States Tire company has been one of the most important steps in making this development possible. Big vehicles are necessary to carry heavy loads of passengers or freight, and the big pneumatics make it possible for trucks and large busses to travel between towns at a speed and with a comfort unobtainable on solid tires.

Passengers can be carried over long distances with as little jar as in a limousine, while fragile commodities, such as eggs, can be hurried to market with little danger of damage. Incidentally, the cars can be operated at much less expense on pneumatics than on solids. It was in 1910 that the United States Tire Co. developed the large pneumatic truck tire, and it is worthy of note as illustrating the extra life that comes to a truck from riding on pneumatics, that several of the first trucks equipped with the big tires are still doing heavy service every day. All other trucks of that day have long since gone to the scrap heap.

One of the facts about which farmers comment is the lack of damage to roads by heavy vehicles traveling on the big pneumatics. The tax-paying farmers view with dissatisfaction any conveyance which tears up their roads, but their comments on motor cars equipped with large pneumatics are entirely commendatory.

Inexperienced.

"Women will vote the way their husbands tell them to."
"Guess you haven't had much experience with women."—Knoxville Sentinel.

Pigeon to Receive the D. S. C.

At least one of the one thousand pigeons that have returned from France after helping to win the war will be decorated for distinguished service. "Cher Ami," the pigeon that carried the message to Gen. Pershing's headquarters, announcing the victory of the Yankees in the Argonne, will be given such honor. Cher Ami is the feathered hero that flew thirty-seven miles after its left leg had been torn away by an enemy bullet, and delivered intact the dispatch with which it had been entrusted.

Cher Ami was also one of the pigeons that carried dispatches announcing the plight of Lieut. Col. Whittlesey and his lost battalion, to which aid was immediately sent. For these heroic deeds Cher Ami has been recommended by Gen. Pershing for the D. S. C. The pigeon will from now on have the best of quarters in Washington, a plentiful ration, and all proper care.

Next War the Greatest.

Rev. L. L. Pickett, of Wilmore, Ky., composer of 2000 hymns and songs and a noted religious speaker and lecturer, spoke on "The World and Its Future and the Next Great War." He said that the next war would be the greatest ever known; that it would be

HOOD'S SARSAPARILLA.

Get a Good Grip
On Health

Look out for the unnatural weakness that indicates thinning of the blood and lack of power. It means that your bodily organs are starving for want of good nourishment; that the red corpuscles are fewer, unequal to demands of health. Hood's Sarsaparilla increases strength of the delicate and nervous, restores red corpuscles, makes the blood carry health to every part, creates an appetite. If you need a good cathartic medicine, Hood's Pills will satisfy. 64-25

fought in Palestine and that Jerusalem would fall in the hands of the Germans and Russians, who would previously form a counter league of nations with the Turks and other Asiatic nations and commit still greater depredations and atrocities than committed in the present war. He based his beliefs on Scriptural prophecy.

Revising the Revenues.

"The glasses are very small," exclaimed one girl.
"Yes," replied the other. "The luxury tax ought to pay for the ice cream soda and the rest of the money ought to go to the government.—Washington Star.

Farmers—Gardeners—Truckers

The Man Who Is Content

to go along year after year planting the same land and dribbling a little cheap fertilizer in the furrow, merely to get a little more out of the land than he puts in, is not farming at all. The man who is not improving the land is going backward. Land must be improved in cultivation or lose its fertility. Good Fertilizers will produce desired results. We have them for every use.

We aim to carry a full line of FIELD SEEDS!
