## A Good Friend

A good friend stands by you when in need. Bellefonte people tell how Doan's Kidney Pills have stood the test. Mrs. J. C. Johnson, of 3563 Bishop street, endorsed Doan's eleven years ago and again confirms the story. Could you ask for more convincing testimony?

"I can't say too much for Doan's Kidney Pills," says Mrs. Johnson. "They are the best remedy I have ever used for backache and weak kidneys. I was a great sufferer, I could hardly straighten up or get around the house. I had dizzy spells and would nearly fall over. My kidneys acted very irregularly. A member of my family had used Doan's Kidney Pills and on his advice, I got a box from the Green Pharmacy Co. They did me more good than anything I had ever used. The backaches and pains soon left, my kidneys became normal and now I am enjoying good health. Doan's certainly cured me and I highly recommend them to anyone having backache or kidney trouble."

Mrs. Johnson gave the above statement October 21, 1907, and on October 19, 1918, she added: "I am very glad to confirm my former endorsement of Doan's Kidney Pills. No one knows better than I what a wonderful benefit they have been to me, for they cured me of a serious kidney trouble."

### PESTILENCE CAUSED BY WAR

Generally Understood That the Influenza Epidemic Was a Direct Result of Great Conflict.

Sufficient time has not yet elapsed to determine the indirect effects of the recent eruption of Mount Kloet in Java which wiped out over a score of villages and killed thousands of natives, but recollections of Krakatoa's volcanic outburst in 1883 which within six weeks sprinkled its fine lava dust over the whole world, has given an interesting suggestion to certain members of the medical profession. During the closing year of the war an influenza epidemic raged in many parts of the world. The manner of its outbreak in different countries indicated that the germs of the disease had been conveyed by the currents in the air. The theory, therefore, has been broached that the poison gases with which many sectors of the fighting area were drenched were carried by the wind in every direction, causing the influenza outbreak in Spain, Germany, England, France, South America, Australia, Africa, Asia, as well as in the United States and some of the Central American countries. That the influenza is a corollary of the war is undoubtedly true. Any similar gigantic conflict, it is argued, would be attended with similar widespread pestilence—an other reason why every effort should be made to avert wars in the future.—Leslie's.

Persian Envoy at Mount Vernon.

Shortly after Sir Julian Pauncefote's coming to Washington a complimentary trip to Mount Vernon was arranged for him on the Mayflower, which was the president's yacht. Among the invited guests was the Persian minister. It was quite a social and impressive event. The spectacle of the minister of Great Britain paying respect to the tomb and memory of Washington did not pass without comment, upon its historical significance. During the visit the Persian envoy was observed to be standing in profound reverie in front of the iron gate of the tomb. He remained in silence for some minutes, and then, doubtless full of obvious contrasts that might occur to an oriental mind from the land of shahs and of ivory palaces and gorgeous tombs, he turned to a friend and said: "How great a man and how little a cemetery!"—Lieutenant Colonel E. W. Halford in Leslie's Weekly.

German Cripples Employed.

According to the American Journal for Cripples, published in this city, Germany issued a peremptory order in January requiring the employment of her disabled soldiers. All public and private industries, offices and administrations are directed to employ at least one disabled soldier for every 100 persons on the working staff, making no distinction of sex, it is stated.

In agricultural work the proportion must be one disabled soldier to every 50 employees, and in all cases the disabled cannot be discharged except with the consent of the workers' committee and after receiving 14 days' notice. Private employers who disregard the order are liable to a fine of not more than 10,000 marks.

Whether it is of the Nose, Throat, or Other Organs. Get Rid of It.

Catarrh of the nose or throat if it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alterative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills—they are a thorough cathartic, a gentle laxative. 64-44
