Frank Bartlow, of the Centre Brick camp, had the middle finger of his left hand removed, at the Williamsport hospital. He had it injured several years ago, while working at a packing house. ## STATES HELP DISABLED MEN

Louisiana and Texas Are Prominent in the Work of Assisting the Unfortunates.

Much encouragement has come to the district officers of the federal board for vocational education, as local interest has been displayed in the work of re-education for disabled soldiers. The building in which men in "tryout" courses are taught at Tulane university was donated for the purpose. It is a modern, up-to-date building, spacious enough to accommodate the men who will need this type of training in this district. The shops at Tulane university will still be utilized, as will the automobile instruction, and related subjects in English and in simple arithmetic will be given in this building. In addition, it may be used as a social center for the men. An organization has been perfected among the disabled men in training, and other social organizations in the city have shown interest in planning entertainment for them. A splendid spirit has developed among the men and they seem much interested in their work.

A similarly satisfactory arrangement has been made in Texas at the Grubb school. Ten thousand dollars have been appropriated by the state for use in this school in connection with the work done by the board. The school receives pupils at any time, and no tuition is charged. Barracks are being built by the authorities to house the men, and a special mess hall is being prepared for them.

### DEGENERACY DUE TO WEALTH

People of Sybaris Allowed Their Character to Be Sapped by Love of Luxury.

The present meaning of the word sybarite is a person devoted to luxury and pleasure. It is derived from the ancient city of Sybaris, situated in southern Italy near to the shores of the Gulf of Taranto. It was founded by the Greeks 720 B. C. and became very powerful. In the days of its opulence it was ruler over four nations with their 25 towns and could raise an army of 300,000 men and equip them well for the field. The walls surrounding the city were said to extend six miles and the suburbs covered an area of seven miles. It was the old story, however, for as the city grew in wealth its people degenerated and became noted for eccentricity and self-indulgence, and it is told of them that no trade that made a noise was allowed within the city limits. Seneca tells the story that one of the Sybarites complained that he had not rested comfortably during the whole night, and upon being asked why, he stated that he had found a rose leaf doubled up under his pillow, which had hurt him painfully. Thus it is easy to see how the word sybarite has been bestowed upon one who lives for pleasure and self-gratification.

### The Result.

A prohibitionist said at a dinner: "Booze spoils everything. Yes, it even spoils the grand game of baseball."

"Two local teams in a small town once agreed to play a match game, and the proprietor of the Red Dog saloon took the team he favored outside and said:

"Boys, for every run you make today I'll give you a keg of beer."

"By a curious coincidence the proprietor of the Tin Can saloon made an exactly similar speech to the other team. And what was the result?

"The result, gentlemen, was that the two saloonkeepers rushed frantically out on the diamond in the sixth inning and said the game must be stopped at once. The score stood at 59 to 57."

### Wisdom of Betty.

We had a family picnic. When we had eaten our supper we sauntered slowly out of the park toward the car line. Suddenly, Betty turned and ran quickly back toward the spot where we had eaten.

"Betty, come quick," said mother.

Betty ran faster, without any excuse for her conduct.

"What are you going back for? Why don't you come when I call?" cried mother to Betty's retreating back.

"Just a minute, mother," replied Betty. "I want to get my gum. I parked it on one of the benches."—Chicago Tribune.

### Files Imprisoned in Amber.

The proverbial "fly in amber" is strikingly exemplified in a collection of red amber from Burma recently presented to the British museum. The amber is unusually rich in insects, including, according to an English authority, who has examined the material, thirty-one new species, of which five are types of new genera. Most of these are found in a block of amber rather larger than a man's fist. This has been cut into slices about half an inch thick. Nearly every large order of insect is represented with the exception of ants.

### HOOD'S SARSAPARILLA.

### Itch! Itch! Itch!

It Seems Sometimes As If You Would Fly Out Of Your Skin.

Eczema or salt rheum not only itches, but it also burns, oozes, dries and scales over and over again. Sometimes it covers the whole body and causes intense suffering.

You have found that local applications have no lasting effect, and you want permanent relief.

Take Hood's Sarsaparilla, give it a good fair trial, because you must thoroughly purify your blood or the eruption will continue to annoy, perhaps agonize you. This great medicine has been successfully used in thousands of cases.

To make and keep the bowels normally active, take Hood's Pills, they are gentle and thorough.

### Leopards Trained to Hunt.

In India a kind of cat as big as a mastiff dog is commonly domesticated. It is kept as we keep dogs, and is allowed the same freedom.

The big cat is called the "cheetah,"

or "hunting leopard." It is used for hunting purposes, and is said to be of all animals the swiftest in running.
