

**What the Borough Dads Did on Monday Evening.**

Eight members were present at Monday evening's meeting of borough council, the absentee being Mr. Kniseley, of the West ward.

Secretary W. T. Kelly presented a petition from the Civic committee of the Woman's club protesting against any change in the curb line or shade trees along that portion of Allegheny street from Pike alley to Howard street. The petition was referred to the Street committee.

Secretary Kelley also presented the auditor's statement for the year 1919 and the Finance committee authorized the printing of same for general distribution.

The secretary also read the correspondence with the State Highway Department relative to the financial condition of the borough, and especially as to how the borough has arranged to finance the building of the state highway on route 27, or from Allegheny street on Bishop to Spring and Pine streets to the borough line. The secretary furnished the Department with a detailed statement of the borough's assets and liabilities and is now awaiting a reply from the Department.

Louis Grauer, in behalf of Lyon & Co., protested against the charge for water tax on the studio on the second floor of the Lyon & Co. building, which has been vacant since 1915, and also that for the garage, which has been vacant since 1916, a total tax of \$8.25. The matter was referred to the Water committee.

Chairman Harris, of the Street committee, reported that the borough manager had made the discovery that the spider on the road roller was broken and it was very essential to have it repaired before there will be a call to use the machine. Inasmuch as it is an intricate piece of work the borough manager was authorized to send it back to the factory at Buffalo, N. Y.

The Finance committee reported a balance due the treasurer on March 1st of \$935.76. Authorization was requested for the renewal of three notes for \$1,000, and one for \$700, and a new note for \$3,000 to pay overdrafts, current bills and interest on bonded debt, all of which were authorized.

Mr. Richard, of the Special committee, reported that the committee had met officials of the State-Centre Electric company on February 14th in an effort to adjust the water pumping question and that said company at that meeting submitted two propositions. One was that they would pump water for \$18 per million gallons, less five per cent. for the prompt payment of bills as rendered per month, up to 140,000,000 gallons maximum; and for any amount over and above that quantity that the company would be required to pump the regular kilowatt charge would be made. Or they would run the electric pump all night, from six o'clock in the evening until six o'clock in the morning and pump at a price of \$17 net per million gallons, the minimum charge for the year being \$260.00. The matter was referred to the Water committee for further investigation and report at next meeting and the secretary was notified to so instruct the company.

President Walker appointed A. M. Barr as an auditor for the Pruner orphanage account and the appointment was confirmed by council.

The president also named Tuesday evening, March 9th, at 7 o'clock as the date for hearing the water appeals for the duplicate of 1919, and the place the borough council chamber.

The abnormal use of water in the borough was then taken up for discussion and some of the members expressed the belief that it would be a paying proposition to install water meters on every user in town, then the family or firm that used the water would have to pay accordingly and those who were saving of it would benefit by a reduction in their tax. While no definite action was taken the borough manager was instructed to get prices on the number of meters that would be required. Inasmuch as there are at present 1100 water users in Bellefonte according to the recent assessment it will require at least that many meters to go around.

Mr. Harris, of the Street committee, presented a copy of the Lancaster

daylight savings ordinance which was read for the first time. In connection therewith secretary Kelly read a communication from the Pennsylvania railroad company stating that up to this time they had not even considered changing their time as per the daylight saving schedule. The ordinance was therefore held over until the next meeting night.

Mr. Cunningham asked if it would not be a wise move to have the borough manager undertake to clean up the 1918 water tax duplicate so that the 1919 duplicate can be turned over for collection, and was informed that the matter was practically in the hands of the committee. There is still due on the 1918 duplicate in the neighborhood of \$3,600 and if the State-Centre Electric company has used every means to collect the same and been unable to do so they have the right, under their agreement, to

turn the duplicate back to the committee. If this is done delinquents will be called upon to settle promptly or the water will be turned off at once. Bills to the amount of \$789.42 were approved and council adjourned.

**February and Its Five Sundays.**

The "Watchman" last week published a little local furnished by a minister of the town exhorting people to go to church on Sunday as they will not have such another opportunity in "forty years, to go to church on the fifth Sunday in February." Everybody now knows that there were five Sundays in February this year, and the fact has been commented upon in newspapers generally as something very unusual. But it is not so exceptionally rare as the public have been led to think. Rev. Isaac Krider, a native of Centre county, and now the beloved pastor of the Lutheran church

at Duncansville, Blair county, writes the "Watchman" that February had five Sundays in 1824, 1852, 1880 and 1920, and will have five Sundays in 1948 and 1976. He states that the month has had and will have five Sundays every twenty-eight years except the period including the century year when it is forty years, with the single exception of the year 2000.

—The only kind of job work we do is good job work.

**CASTORIA**

Bears the signature of Chas. H. Fletcher. In use for over thirty years, and The Kind You Have Always Bought.

**What about our Service?**

SOME say "good;" a few say "poor" and a large percentage say "well, we'd like to see it better, but probably you're doing the best you can under the circumstances."

What are the circumstances? Just these!

To furnish good service we must have the right equipment and an effective operating force. Both cost money—much more than they used to! That money we get from telephone rates.

And what are these rates?

Just what they were before the war!

They are not sufficient to operate and maintain the plant effectively and provide for depreciation and replacements.

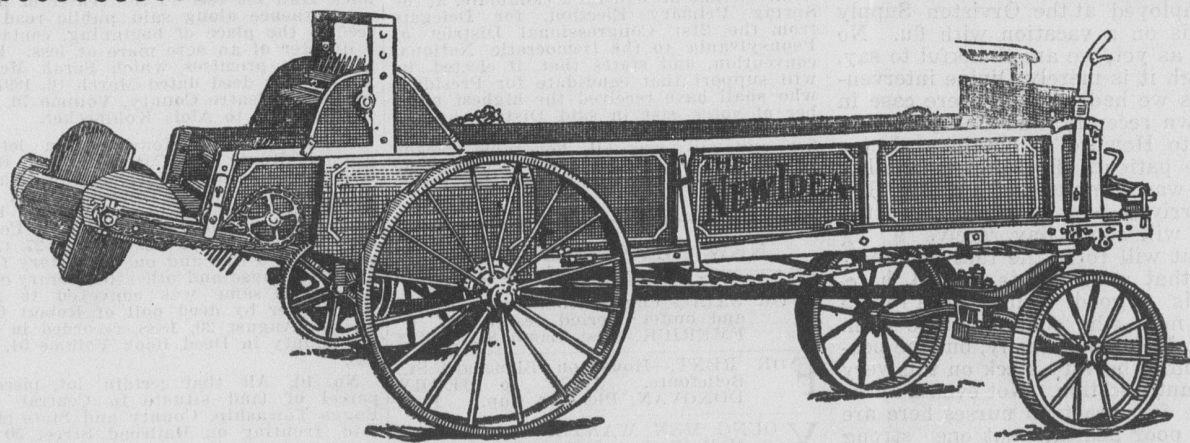

They afford no margin for future strengthening of the operating force. Our young women at the switchboards are intelligent and hardworking. We, at least, know that they're doing their very best.

To permit continued recognition of the good job they're doing, we must have adequate rates.

The service-user cannot ignore the obligations of the rate-payer!

**The Bell Telephone Company of Pennsylvania**

BUILT like a wagon. Solid bottom bed with heavy cross pieces, and supported by full width of sides. Front and rear wheels track. Axles coupled together with angle steel reach; coupled short, dividing load between front and rear axle. Wide-tired wheels. No moving parts on rear axle. Axle not used as a bearing for gears to run on. Chain-Driven Exclusively. Positively not a worm or cog gear on the machine. No clutch. Operated by only two levers. The lightest, easiest running and most practical Spreader.

Just received a carload of Conklin Wagons. All sizes and for all purposes. 62-47 Dubbs' Implement and Seed Store.

**Bellefonte Trust Company**

Bellefonte, Pa.

**Why You Should Make a Will**

To protect your loved ones.

To safeguard your estate.

By making a Will you can appoint the Bellefonte Trust Company as your Executor or Trustee.

You can thus assure to your heirs the business management and financial responsibility which this institution affords.

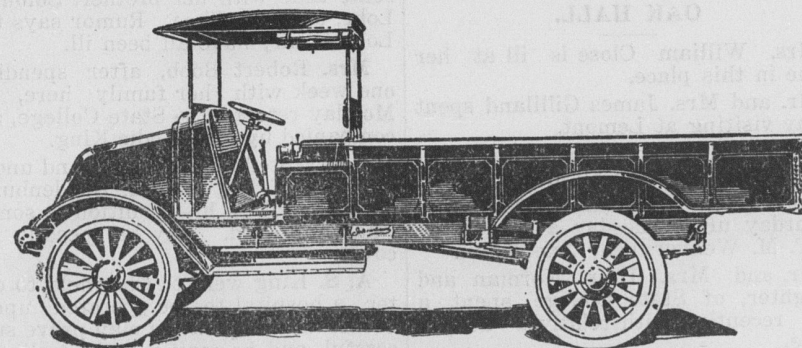

Your wishes can be observed in the distribution of your property, for if you do not leave a Will the law may divide up your possessions in a way that you might not desire.

**How Have You Made Your Will?**

Do not write your own Will. "Home-made" Wills are dangerous and often cause law-suits, because, when drawing a Will the law must be known, both as to wording and terms. Consult a lawyer today about the making of your Will and have him name the Bellefonte Trust Company to act as your Executor and Trustee.

**Makes Food Taste**

Good—Hood's Sarsaparilla Creates an Appetite.

Aids digestion and promotes assimilation so that the body secures full nutritive value, thus naturally making the weak strong and giving the vitality of health. This great medicine enables the digestive organs to perform their functions easily, keeps the stomach sweet and relieves or prevents indigestion and other digestive troubles.

When your food does taste good it is a sign of good or returning health; shows that the blood is becoming richer, routing scrofula, eczema, rheumatism and other diseases, and that the system is being built up to overcome that tired feeling, and the prostration after influenza and fevers. The one medicine that can legitimately claim to do all this—is Hood's Sarsaparilla. If a mild laxative is needed, take Hood's Pills; an active cathartic, take Hood's Pills.
