### Coal Scarce in Bellefonte.

The fact may not be generally known, but it is true, nevertheless, that there is really a scarcity of coal in Bellefonte at present, notwithstanding the surfeit of free advice given to the public to lay in their supply of coal early and thus give the operators a chance to keep their mines running. A visit to the yard of the Bellefonte Fuel & Supply company a few days ago revealed the fact that at that time the company did not have a car load of coal on hand, including everything in the yard, and the writer was informed that the only supply running at the time that they had any knowledge of was one car of bituminous coal. And yet the cry goes forth, "buy your coal now." But the dealers have so little to sell and the future price so uncertain that they will not accept orders now for any quantity of Lutheran Sabbath school of Boalscoal. Under such conditions it looks burg, Pa. very much as if the public will be bamboozled again into putting up for another raise in price. Just whose beloved members, we would herewith tenfault it is that the coal supply is now so short has not been explained. Bellefonte dealers aver that they are unable to get their orders filled, or anywhere near filled, and taking it for granted that this is correct, then the fault lies with the inability of the railroad comkeep the operators busy.

#### News of Interchurch Movements.

You will want to attend the Interchurch Federation meetings that will be held in the Presbyterian church, Bellefonte, all day Friday, April 9th. Knew Something About Mothers. Ralph went to visit a neighbor's little boy. While there another boy came to play also; but he was something of a bully and Ralph did not like him. When he reached home he told his mother some of the mean things the boy had said and done. "He was so disagreeable I am sure nobody could like him," he said. Then after a moment's meditation he looked up into her face and added: "I suppose, though, his mother loves him, no matter how bad he is."
