

PLEASANT GAP.

F. V. Jodon Jr. has sold his farm near Nigh Bank. Clyde Jodon was the purchaser.

Our detour road between Pleasant Gap and Axe Mann is now in first-class condition. Our road supervisors have the thanks of all for the commendable change in transforming our inferior road into a superior one.

Contractor Harry Bilger, with a force of men, completed on Tuesday last the setting of the huge sewer pipes leading from the state road across the premises of T. E. Jodon into the large sink; thus side-tracking the much dreaded large volume of water emanating from the mountain tributaries. Dry instead of wet cellars will be the result along the state road.

Decoration day was fittingly observed at the Gap on Monday evening last. The orators for the occasion were Rev. Brown, of the Lutheran church, and Rev. Piper, of the Methodist congregation. Their addresses were forcible, appropriate and duly appreciated by all participating. Decoration day is sanctified to the memory of the soldiers who fell in defense of the flag that represents the unity, peace and prosperity of the nation. In its undisputed supremacy alone, they saw the greatness which had been predicted by our fathers. Its bright folds and glittering stars represented to them the great principle of our government. Freedom and independence; and whosoever, no matter what his rank or station, who offended or denied that flag was, to them, a traitor and, as such, an enemy.

State Forests May be Mapped by Aeroplane.

Pennsylvania's forests may be mapped from an aeroplane. Gifford Pinchot, the chief State forester, announces that he has asked for estimates by a commercial aerial concern, and if the cost is not prohibitive the project will be undertaken.

Commissioner Pinchot explained that no map showing the distribution of timberland in this State, private

and State-owned exists. He declared there was need for such a map in order to show the citizens the vast extent of the potential timberlands, and also to impress upon the public the enormous territory of 5,000,000 acres occupied by the "Pennsylvania Desert." This is the territory that has been lumbered and burned over so often that it is producing virtually nothing of value.
