Coal Sense

Our idea of the Coal Market is that while it may not go higher it will surely not be any lower for a long time to come. Therefore it would be wise for you to lay in your winter coal supply now and forestall the danger of a rise in price when the regular fall demand sets in. Besides, you can get it free from ice and snow and now we will have time to screen it and deliver to you in the best condition.

Considering the uncertainties of the coal market the coal in your cellar is worth more than the money that would pay for it is in your bank.

If you want coal let us know your needs and we will do our best for you.
