Why You Should Make a Will

To protect your loved ones.
To safeguard your estate.
By making a Will you can appoint the Bellefonte Trust Company as your Executor or Trustee.

You can thus assure to your heirs the business management and financial responsibility which this institution affords.

Your wishes can be observed in the distribution of your property, for if you do not leave a Will the law may divide up your possessions in a way that you might not desire.

How Have You Made Your Will?

Do not write your own Will. "Home-made" Wills are dangerous and often cause law-suits, because, when drawing a Will the law must be known, both as to wording and terms. Consult a lawyer today about the making of your Will and have him name the Bellefonte Trust Company to act as your Executor and Trustee.

Now the whole family can go out on a Summer evening

The women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

they're beginning to insist on knowing what they are getting.

And the more they insist, the better it will be for us.

But it has done a great deal more than that.

We want our customers to know what they are getting.

It has brought people closer together, given them new interests, swept away old prejudices.

That's why we represent U. S. Tires—so there will be no doubt about it.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

Whatever the size of your car, you know that the U. S. Tire you put on it is the best kind of tire its makers know how to make

It's had its effect on the tire business.

U. S. Tires are guaranteed for life, without any limitation of mileage.

When automobiles were new people were willing to buy any kind of a tire. Now

That ought to mean something to the man who has thought about tires.
