His left arm was partially paralyzed and quite a gash cut in his right arm, while the car was badly wrecked.

Last Thursday while Ira Rumberger was driving a corn cutter and binder with four horses attached the team frightened and ran away, dragging him quite a distance through the standing corn. His cries for help attracted the attention of J. D. Tanyer and Charles Louck, who caught the runaway and rescued him from his perilous position. He was badly cut and bruised and was rushed to the Bellefonte hospital where it was found that no bones were broken and all his injuries are superficial. He is rapidly improving and will be out before many days.

Last Saturday evening one of W. H. Glenn's neighbors invited him on a motor ride to State College and that gentleman unsuspectingly accepted. Refreshments were served during the evening and included in these was a monster cake with sixty burning candles

which was carried in by four of Mr. Glenn's grandchildren. Speeches, music and social jollity made up the program of the evening, and everybody wished for Mr. Glenn many more birthdays and like repetitions.

Seeding wheat and cutting corn is the daily program at present on the farms in the valley. Most of the potatoes have been raised, and while there was some complaint of rot the condition is not serious. The crop is large and of good quality.

The trustees of St. Mark's cemetery at Snydertown have called a meeting for Thursday, August 7th, to clean up and make repairs at the cemetery, and it is hoped that all those who have friends buried there will respond and do their part. A community is judged in part by the respect shown the departed and one of the ways of doing so is to keep their last resting place in proper condition.

From present indications there will be more changes on farms in Walker township next spring than have occurred at any time within many years. Some farmers are going to quit and others change farms. Among those to retire from the farm are Ross Rumberger, H. P. Zerby, Mrs. Harry Baker and Thomas Hinds. Scarcity of help and high wages are contributory causes for men quitting the farm.

Another automobile accident occurred on the curve below William Beck's, near Snydertown, one day last week when Bert Kauffman and a car load of people from Lock Haven, while running at a high rate of speed, failed to make the curve and ran into a tree at the side of the road. The car was wrecked and while most of the occupants received slight cuts and bruises none of them were seriously hurt and they were able to take the morning bus to Lock Haven. It was little short of a miracle that all were cured at a day; also two grindstones, one set of harness and a hay rake."

—An American farmer advertises for sale "a cow that gives five quarts of milk a day; also two grindstones, one set of harness and a hay rake."

—The hoary headed examiner glanced over the top of his spectacles. "Are you sure," he inquired, "that this is a purely original composition you have handed in?"

A Physical Quality.

There is a certain long-suffering father whose nerves sometimes give way under questions from his talkative eight-year-old son.

"Dad," said the youngster, just as the old man settled down for a perusal of his newspaper, "Dad, am I made of dust?"

"I think not," responded the unhappy parent, "otherwise you would dry up once in a while."—Houston Post.

"Yes, sir," came the answer. "But you may possibly, sir, have come across one or two of the words in the dictionary."—The Liverpool Post.
