Following the raids made in Bellefonte the party went to Hecla and made failed to find anything.

One of the party told the "Watchman" reporter that they also had evidence of more or less bootlegging being done in Bellefonte and that they intended to personally warn the suspected parties to cut it out in the future, which was probably done.

State Police Nab Big Cargo of Whiskey.

On Wednesday afternoon the squad of state police now stationed in Bellefonte received a tip that a cargo of whiskey would pass through Centre county during the day and to be on the lookout for it. Between four and five o'clock they learned that a suspicious looking truck was on its way up Bald Eagle valley and requisitioning a car the five members of the state officers started on a chase for the truck. They overtook it at Bald Eagle, just as it was turning off the valley highway to go over the mountain, and captured the outfit, which was in charge of three men. The truck was turned around and headed for Bellefonte but at Julian it broke down and it was necessary to leave it there under guard until a member of the police came to Bellefonte for another truck, so that it was quite late Wednesday night when the cargo of whiskey was landed in Bellefonte. According to the best information obtainable there were thirty cases and a barrel of whiskey, although some people who saw the truck aver that there were two barrels inside of it. The three men were taken to the Centre county jail where they will be held

The truck and its liquid cargo was will likely be the old wine cellar in the basement of the postoffice, where there already is a good supply of intoxicants. Just who the whiskey was for is not known but it is understood it came from Wilkes-Barre and was

Foresters Empowered to Issue Camping Permits.

For the convenience of sportsmen who want to camp on State forest lands while hunting deer this fall, Gifford Pinchot, Pennsylvania's chief forester, has arranged for the local foresters and forest rangers to issue the necessary camp permits. Heretofore the permits have been issued only through the office of the Department of Forestry, at Harrisburg. Under the former plan there was

much delay and sometimes confusion in handling the rush for camp sites just before the deer hanting season opened. Now the gunners can go with their camping outfits to the region they wish to hunt over, and there procure the required permit. Mr. Pinchot's arrangement empow-

ers the foresters and forest rangers to give permits for temporary camps, good for three weeks and subject to renewal. They may also allow hunters to remain over night on State forests by verbal permission. But sites for permanent camps, lodges and cabins are leased only through the Harrisburg office of the forestry department. Those leases are now good for ten years, with renewal privileges.

-From all indications quite a number of Bellefonters will go to Pittsburgh next week for the big football game between State and Pitt on Thanksgiving. The State team received its first blow of the season at Bethlehem last Saturday when it was held to a tie score by the Lehigh aggregation. Over-confidence was undoubtedly the reason for State's poor showing, but it will probably have the effect of demonstrating the fact to the players that they are not an invincible aggregation and spur them on to their very best efforts on Thanksgiving. The result should be a wonderful exhibition of football at Pittsburgh next Thursday and naturally there is a desire on the part of many Bellefonters to be in at the finish.
