Owing to his injury and his inability to use his hand in any way no meeting of borough council was held on Monday night. Mr. Kelly is clerk of council.

SILK MILL IN OPERATION. Work Started in the Bellefonte Plant of the J. C. and C. K. Eagle Company.

Bellefonte's new silk mill is now in operation, a fact that should remove all doubts as to its future activities in the ranks of Bellefonte's industries. Of course the plant is not yet in operation to its full capacity because only a portion of the machinery has been set, but as fast as the equipment is put in place additional workers will be taken on. The first learners—two young ladies—were started on Monday, December 27th, and up to yesterday the force had gradually been increased to twenty-five or more. Next week it is the hope of the management to begin taking on young men, as some of the machines are operated entirely by men.

Henry A. Reed, of Shamokin, will be the plant superintendent, has moved here and is located in an apartment in the Kelly flats. He is being assisted in putting the plant in good running order by R. D. Marshall, both highly competent and unusually courteous gentlemen. While, as stated above, only a small part of the machinery has been put in place and is in operation, it is sufficient to demonstrate the fact that the mill will be an ideal one throughout. Every care was taken in the erection of the building to have it as perfectly sanitary as it is possible to make any up-to-date plant. The entire interior is painted white and the frosted glass in the windows diffuses the light so that there will be no glare in hot, sunny days and yet an abundance of light in cloudy weather. The plant is warmed by an indirect heating system which is as near absolutely uniform at all times as it is possible to get. A spray system will also be installed so that in the hot days of summer a certain degree of moisture can be maintained at all times in the air circulated through the plant.

To describe the work of the plant is too intricate for one not thoroughly acquainted with the silk mill operations, so we will not attempt anything of the kind. But anyone interested should visit the plant and see for themselves how the silk thread is made which may some day appear in some of their wearing apparel.

It will naturally take time to get the present plant in full operation. A large number of mechanics are still at work placing machinery and completing other equipment. And the working force must be broken in gradually, as it takes from a month to six weeks for a young woman or a young man to become a proficient dependable operator. Because of this fact only a certain number can be taken on at one time, but every effort will be made on the part of those in charge to give instruction to those willing to learn. And it might here be stated that up to this time they are well satisfied by the progress being made by those who have already gone to work.

In fact they do not apprehend any trouble in getting all the help needed and are already looking forward to the time when a second unit will be erected to the Bellefonte mill, as they claim this to be the best and most up-to-date of any of the plants of the J. C. and C. K. Eagle company, and they have many of them scattered throughout the country.

Automobilists Must Have 1921 License

Many automobile owners in Bellefonte, Centre county and the State at large have been caught without their 1921 license and tags and run the risk of arrest if they go out with the 1920 tags on their car. Early last fall the State Highway Department urged all car owners to secure their licenses early and while many owners heeded the advice a large number of others did not. The result is that they are now without the necessary permit to operate their car.

The nice weather that has prevailed this winter has naturally kept many cars on the road that ordinarily would have been housed up, and the result was that the last week in December the State Highway Department was deluged with applications, which it naturally will take time to fill. But the State officials are not going to accept this as a good excuse for automobilists running their cars with old tags on, and the result is that officers of the law have been instructed to enforce the law, as emphasized in the following order issued by the Highway Department:

State police must commence active campaign on Monday, January 10th, to place under arrest all car owners who continue to use the 1920 licenses. It is easy to detect the difference between the 1920 and the 1921 licenses and car owners should comply with the law and make it unnecessary to have themselves placed under arrest.

Wagner's New Mill Now Receiving Grain.

The fine new mill that C. Y. Wagner and his associates have erected in this place is so nearly completed that wheat is being bought or received for storage, whichever plan the producer prefers. The bins were opened the fore part of the week for wheat and just as soon as the conveyors are completed, oats, corn and other grains will be taken.

Through conversation with Mr. Wagner, a day or so ago, we learned that practically all of the machinery is in place and all that yet remains to be done is to make a few adjustments of the machines and the electrical power before the work of making flour and feeds can be begun.

The Huntingdon and Clearfield Telephone company was placed in the hands of a receiver on December 24th, the Clearfield Trust company being appointed to take charge of the affairs of the company.

M. Lutton, pastor of the Lutheran church. Immediately following the ceremony a delicious wedding dinner was served to the bridal couple and the few intimate friends present for the ceremony. This is the second matrimonial venture for both contracting parties and their many friends extend best wishes for their future happiness. The bride, by the way, is organist in the Lutheran church and in addition to being quite accomplished, is an excellent housekeeper.

Four Wedding Anniversary Celebrations.

On December 23rd Mr. and Mrs. Shadrack Parsons, of Union township, celebrated their forty-seventh wedding anniversary and as an interesting incident of the event their daughter, Miss Olive Parsons, was united in marriage to Robert Lanning, Rev. Zachary Weston performing the ceremony.

On Christmas day Mr. and Mrs. Robert Adams, of near Unionville, celebrated their golden wedding with a family gathering of all their children and grand-children.

On December 27th, Mr. and Mrs. William A. Peters, of Unionville, also celebrated their golden wedding in an elaborate manner. About seventy-five guests were present from surrounding towns and the big feature was the dinner served in the Grange hall. An idea of the sumptuousness of the repast may be gathered from the fact that the tables aggregated forty-five feet in length. Mr. and Mrs. Peters received many presents among them a purse of gold and currency amounting to \$135.00.

But topping all the above are Mr. and Mrs. George Washington Rumberger, also of Unionville, who on December 31st, celebrated their sixty-first wedding anniversary.

An Appeal for the Children's Aid Society.

"Inasmuch as ye have done it unto the least of these ye have done it unto me."

Now that Christmas is over and you have sent and received all the beautiful sentiments on the cards it is now customary to exchange, put some of them into practice in this New Year and, among the first, heed the appeal of The Children's Aid society. All the good-will and cheer of Christmas centers around a little child. Then why not extend that cheer throughout the year to the unfortunate little ones who, through no fault of their own, are homeless, or worse still, inmates of homes where conditions are wholly unfit for their proper development.

To so few, is the work of the Children's Aid society known, that a brief history is here offered for your careful consideration. The annual election of officers will be held next Tuesday afternoon, January 11th, at four o'clock, in the W. C. T. U. rooms. Every organization in the church will co-operate. Cottage prayer meetings will be held. The plain gospel of repentance will be preached.
