

Cuttings to be Planted.

To provide a future supply of pulp wood for the newspapers of this State the Pennsylvania Department of Forestry has begun an experiment to determine the possibility of growing Carolina poplar trees on a large scale in the State forests.

This announcement was made by Gifford Pinchot, the chief forester.

Under the direction of John W. Keller, chief of the Bureau of Silviculture, the forestry department has collected 1,000 cuttings, or slips, from a poplar tree in the Logan State forest. The cuttings will be stored over winter by district forester T. Roy Morton, and they will be planted next spring.

It has already been decided by the Department of Forestry officials that Carolina poplar trees can be grown successfully from cuttings, as willow trees are grown. If the planting to be made next spring is a success, the forestry department plans the establishment of several other similar plantations on suitable locations in various parts of the State.

1,600 Tulips to Form Two Gold Stars for Pittsburgh War Dead.

Sixteen hundred yellow tulips will be planted for next spring near Neptune fountain in Schenley Park in Pittsburgh, Pa., in the form of two large gold stars, in memory of the Pittsburgh soldiers who made the supreme sacrifice in the world war.

The Service Star Legion, Mothers of Democracy of Allegheny county, will have charge of the planting of the flowers. The plot upon which the flower-star will appear, next summer, has been dedicated to the Legion and will be known as the Gold Star beds.—Exchange.

Cardinal's Hat Symbol of Office.

The peculiarity of the cardinal's hat is that it is not to be worn. On one occasion only is it to be seen on the head of the cardinal, and that is when the pope himself places it there as a symbol of its owner's elevation to the Sacred college. When the cardinal dies it is placed in his coffin. The hat is of a deeper red than that of the robe worn by the cardinal. It has long heavy silken cords, each with 15 tassels at the end, hanging on either side. The crimson robes which, like the hat, denote the cardinal's office, are made of cloth which for several generations past has been supplied by a firm of cloth merchants at Burtsheld, near Aix-la-Chapelle. The process by which the dye is distilled is a jealously guarded secret.

Trade With Australia Grows.

Trading between this country and Australia is showing a healthy growth, according to figures supplied to the department of commerce by A. W. Ferrin, trade commissioner, who is at Melbourne. They cover imports and exports for the first quarter of the current year, and show the imports during that period to have been about \$27,775,000, against exports to this country of approximately \$16,350,000. February exports nearly equaled in value the totals for January and March, and in that month the outgoing shipments exceeded the imports. In the same month, however, the value of the imports was less than half of the goods brought in during March.

Making It Homelike.

On Dolly's birthday she was presented with a baby bulldog, and her delight was delicious to behold.

It was very young, and she insisted upon taking it to bed with her, but the next morning she was looking very tired.

"Haven't you slept well, darling?" asked her mother.

"No, mummy," said Dolly. "Nelson was crying in the night for his mummy, so I kept awake with him for company, and I made awful faces all night to make him think I was his bulldog mummy to comfy him!"—Answers, London.

Aerial Taxicabs in Canada.

Seventeen aerial taxicab companies are being formed in western Canada, and a number of these already have been licensed by the air board. Four commercial flying companies have been formed at Winnipeg, and there are companies at Regina, Moose Jaw, Saskatoon, Edmonton, Hanna (Alberta), Calgary, Lethbridge, Banff and in Vancouver. Aerodromes are to be built at Virden and Vancouver. Passenger flying is the first object of these companies, and mail carrying and distribution for large shops are expected to follow.
