HILL RICH IN HIGH-GRADE ORE
Mound in Mexico That is Said by Experts to Be Worth in Neighborhood of \$5,000,000,000.

Primitive peoples have an uncanny instinct for naming things accurately. Centuries after the natives had named a hill outside the city of Durango, Mexico, "The Devil's Finger Tip," scientists came along and solemnly announced that it was formed of hematite, and had apparently been jabbed up through the earth's surface from molten masses far below.

This iron hill rises for 700 feet sheer above the surrounding plain, and is said to contain 600,000,000 tons of high-grade ore rated at 70 per cent in iron content. In a report made just before the World War a British expert said that the iron in the hill is worth \$5,000,000,000, or would be if so located as to assure protection in the operation of the property.

Put in another way, Mercado mountain, for the hill is so named after the Spanish explorer who was the first white man to see it, contains iron which, if marketed today, would bring more money than the entire sum represented by all of the gold and silver taken out of Mexico between 1603 and 1803, when the exploitation of Mexican mines was at its peak.

True Trachoma Easily Transmitted.
At a recent meeting of the American Medical Association Dr. John McMullin, surgeon, U. S. Public Health Service, started a lively debate in the section on preventive medicine by reading a paper in which he asserted that much of the so-called trachoma which afflicted the eyes of American children is not trachoma and not contagious.

The original cause of this inflammation of the eyelids is unknown, but it is known with certainty that it is transmitted with ease from one eye to another. There is another type, called folliculitis, which is not contagious and can easily be cured, while the true trachoma necessitates a slight surgical operation and careful treatment; and, even with this, it is by no means certain that it is ever permanently cured.

Desired Money's Worth.
Five-year-old Noel had been taken to the dentist to have three teeth extracted. He was duly exhorted by the dentist on "sitting up like a little man and not having to be held, etc." And Noel proceeded to do so. Not a whimper escaped. Still smiling, he slipped into his coat as father paid the dentist. When he saw the exchange of money Noel asked, "Dad, what did he charge?"
"Three dollars—a dollar a tooth," father replied.
"Oh, shoot!" Noel was plainly disgusted. "If I'd known he was going to charge like that I'd had to be held and yelled like everything."

New Sterilization Process.
The new process of sterilizing milk developed by Prof. J. Martin Beattie of the University of Liverpool is claimed to kill all bacteria without the alteration of taste produced by pasteurization. An electric current is passed quickly by a special apparatus, raising the temperature of the milk not higher than 148 degrees Fahrenheit, and producing no cooking or alteration of the essential properties of the material.

To the Theatre Goers of the City of Bellefonte

Today I make one of the most interesting announcements I have ever made in my career as a theatrical manager.
I believe the information contained in the following statement will be read with intense interest by all who value the best and most artistic in the world of amusement.
I have always faithfully endeavored to bring to my patrons the biggest and best theatrical attractions of all times, for I know that only the biggest and the best appeal.
Now I am happy and proud to announce that I have contracted with F. Ray Comstock and Morris West, producers of the world-famous "Chu Chin Chow," whereby that brilliant and gorgeous spectacle of ancient Bagdad, the world's most beautiful production, will appear at the Mishler Theatre, Altoona, entire week of March 21st, commencing Monday evening at 8 o'clock, with matinee Wednesday and Saturday.
"Chu Chin Chow" is a gigantic and gorgeous musical extravaganza, in fourteen scenes, with eighteen musical numbers, produced on a scale of colossal grandeur, employing the services of 300 people. It was originally presented in London at His Majesty's Theatre, nearly five years ago, by Oscar Asche, in association with the late Sir Herbert Tree, and is still playing there to capacity.
The American production of "Chu Chin Chow" was made by Messrs. Comstock and West, after the payment of the biggest royalty ever known in the theatrical world, in New York more than three years ago, by Oscar Asche, in times being imported from England and being exact duplicates of the original.
"Chu Chin Chow" ran one entire season in New York at the Century Theatre, and then played an entire season in Boston, Philadelphia, Chicago and several other big cities.
This great production, once more presented in New York at the Century Theatre in August for a return engagement, and now embellished with many additional scenes and new costumes, comes here direct from its second engagement on Broadway.
Owing to intense interest in the engagement, MAIL ORDERS for this important theatrical event will now be received. Send remittance with self-addressed, stamped envelope for return of tickets, and, as there will unquestionably be an avalanche of mail orders, please name choice of two performances to insure getting seats.
PRICES—Nights, \$1.10, \$1.65, \$2.20, \$2.75 and \$3.30. Wednesday matinee, \$1.10, \$1.65 and \$2.20. Saturday matinee, \$1.10, \$1.65, \$2.20 and \$2.75. Second balcony, \$1.10, not reserved. Prices include war tax.
I believe the engagement of "Chu Chin Chow" will be the most notable even ever known at my theatre.
