European Relief Campaign to be Held March 13th to 19th.

Paid before expiration of year -

Paid after expiration of year

Once again the great hearted people of Centre county are being called upon to come to the rescue of starving and suffering humanity across the sea. Over three million European children, without food and without sufficient clothing, are holding out their bony hands and pleading with the American people to send the relief until the coming harvests can be

gathered in. The European relief council, of which organization Herbert Hoover is chairman, has assumed the task of collecting the sum of \$33,000,000 to carry through this worthy project of saving human lives. Centre county, ever loyal and always proud of its record in past campaigns, has been allotted the sum of \$10,000, and it is the plan of the local committee to raise this sum in one intensive campaign of seven days, March 13th to 19th. There will be no house to house canvass, and you will not be troubled with solicitors, but you are hereby urged to send your contribution at once. W. Harrison Walker is county chairman and all checks are to be sent to his office, so that proper credit can be given, but the checks are to be made payable to James K. Barnhart,

Ten dollars will pay for one nourishing meal a day for one child until the harvests can be gathered. Will you show your willingness to furnish food for one or more "Invisible Guests" by sending a contribution at once, for "he gives twice who gives quickly." There are absolutely no salaries paid to any one in this campaign and all services are rendered gratuitously, so that one hundred cents of every dollar contributed will go to the relief of

the starving children. For the sake of the starving childhood of other lands, may the patriotic, generous-hearted folks of old Centre county give to this worthy appeal and have the satisfaction of knowing that they have saved little children from suffering, and that they have had a part in revealing the true spirit of America to those unfortunate people in foreign lands.

Year's Work.

The Methodist church of Bellefonte has just closed a most successful year's work and next week the pastor, Rev. Alexander Scott, will go to Newberry to attend the annual Central Pennsylvania conference. All departments of the church are fully organized and have had a busy year. Sixty-seven members were received into the church during the year, and twelve probationers are enrolled and under instruction. The Ladies Aid society, under the direction of Mrs. James K. Barnhart, has grown to 86 members and had receipts during the year of \$302.00. The Woman's Foreign Missionary society gave special attention to missionary instruction and had a profitable year, as shown by 26 members and \$110.00 receipts. Mrs. Grace Keefer is the president.

The Woman's Home Missionary society entertained the conference convention in November, which had the largest attendance in its history. The president, Mrs. E. O. Struble, reports 52 members and \$100 receipts. The Standard Bearers, a young ladies' missionary society, was organized and has been most active. It has 33 members. Pearl Wasson is the president. The Epworth League, led by Mrs. Keefer and her co-workers, is growing in interest and enlists the young people. The Junior League has 48 members and is most active. It contributed \$20 to the children's home and \$5.00 to special work in the Philippines. The Sunday school is well organized and is pushing for increased enrollment. C. C. Shuey is the superintendent. The fourth quarterly conference requested the return of the pastor and his wife for the coming year.

A Tribute to a Great Teacher.

The faculty of Dickinson College adopted a memorial minute on the death of Prof. Henry M. Stephens, who passed away recently at his home at Carlisle, within two weeks after the death of his esteemed father, the late Rev. W. A. Stephens, which pays tribute to the gentleness, purity and force of his character, his mingling of poetry and art with the science which was his life work, and his fidelity to all trusts, notably to his work on the college athletic boards. The minute closes with these words: "Wise and moderate in council, diligent in every assignment, friendly and considerate, his help and support are sadly missed by his fellow workers. His love for his alma mater and his students and his power as a teacher are an inspiration to all his associates, and will be cherished as a precious heritage."

Western Maryland Dairy Wants More Milk.

Mr. J. A. Collins, of New York, the man who deserves most of the credit for establishing the plant of the Western Maryland dairy in Bellefonte, has been in town this week and is making plans for fixing up and beautifying the grounds around the plant on Thomas street. All the ground not in actual use will be smoothed up and sodded, and dotted with flower beds, so as to make it an attractive spot in every way.

In connection with the plant it might be stated that while the supply ey crop. of milk received has shown a steady increase it is not nearly up to what the plant is able to handle nor the management would like to have. When the meeting was held in Bellefonte so widely discussed and so highly over a year ago to ascertain the sentiment of the farmers in this community towards the establishment of a milk station here in the neighborhood of four hundred farmers signed up as willing to furnish milk in the event the plant was built. Up to the present time the supply of milk the station is receiving daily comes from but Theatre, and enjoyed an entire seaone hundred and thirty-five farmers, and there is a strong desire on the part of the management to receive the | with a company of 300 people, comes milk of the other two hundred and sixty-five farmers.

Of course, spring time is coming, when fresh cows will be numerous,! and the probability is that many formers who have been a little short on milk during the winter season will also get into the selling game, and then there should be a very decided increase in the supply furnished the milk station.
