To Retire as Active Manager of the Bush House.

After being in charge as landlord of the Bush house for thirty-one years Mr. W. L. Daggett will retire from the active management next month and move into his home on east Linn street and his son, Lewis L. Daggett, will move to the hotel from west Linn street and assume the active management of this well known and popular hotel. Mr. Daggett, however, will still keep in touch with the business and bestow his wise counsel wherever needed to keep up the popularity of the hotel with the traveling public.

As stated in a recent issue of the "Watchman" some very decided improvements will be made in the hotel this spring, some of which are already under way. The office and all connecting rooms will be repainted in the same pleasing design which has predominated the past few years The main lavatory in the rear of the office will be almost entirely done over, with new plumbing and everything needed to bring it up to date. The dining room will be done over and when completed will be white throughout.

The second and third floor halls will be repapered and repainted throughout. The various baths and lavatories on these floors will also be equipped with new plumbing. Hot and cold running water will be installed in eight additional rooms, making a total of thirty-one so equipped, while eight will have private baths and toilet. The installation of shower baths in several rooms is also being considered.

The present a la carte service in the dining room will be continued as well as the club breakfasts and business men's luncheon at noon, which have proven so popular, and also the dollar table de hote Sunday dinner for the convenience of home guests. The new cafe which was started as an experiment in the room formerly occupied by the bar will not only be continued in the future but its service greatly improved. In fact nothing will be left undone to make the hotel the most desirable place possible for the traveling man as well as touring automobile

After being closed to the public Brockerhoff house will be reopened on or about May first with M. A. Landsy in charge. During the seven months the hotel has been closed some very decided improvements have been made on the interior. The hallways, dining room, office and a number of other rooms have been repainted and repapered. The kitchen and pantry have been remodeled and bath.

The dining room and the entire secchanges and improvements made that cemetery. old patrons of the hotel will hardly know the place when it is thrown open to the public on May first. Already ular as ever.

Finds Pleasure in Thinking. Thinking after a while becomes the most pleasurable thing in the world. Give me a satchel and a fishing rod, and I could hie myself off and keep busy at thinking forever. I don't need anybody to amuse me. It is the same way with my friend, John Burroughs, the naturalist. We can derive the most satisfying kind of joy from thinking and thinking and thinking.

The man who doesn't make up his mind to cultivate the habit of thinking misses the greatest pleasure in life. He not only misses the greatest pleasure, but he cannot make the most of himself .- Thomas A. Edison.
