ORVISTON.

Little Robert Breth, of Avis, visited his grandmother, Mrs. Amanda Boyer, at the home of his aunt, Mrs. Amelia Rickard.
Mrs. Amanda Boyer is quite ill. Her mother, Mrs. Rebecca Womer, who has been ill all winter, grows weaker daily, and the end of her useful life seems drawing to a close. Her un-falling sweetness of disposition is an example to all who know her, and her christian patience, in her so long and tedious illness, seems wonderful. Her goodness and nobility of soul will live long after she is gone.
The classmates of Mrs. Amos Narehood, of the Orviston Church of Christ, led by their teacher, Mrs. Geo. Bixel, gave her a very pleasant surprise, the occasion being Mrs. Narehood's 56th birthday. The loyal women are quite a factor in our little church, and Mrs. Narehood is one of the very worthy. The writer was unable to attend but learned a very enjoyable time was had by all.
The revival led by Rev. Avery Long, at the Church of Christ, has been a decided success, and very well attended. Thanks are extended to J. Ellis Harvay, who loaned his car so that those physically unable to walk the big three-fourths of a mile from the

upper works to the church could be taken to hear the "Word of God." Such kindness is well worth remembering. The spirit is of willing when the flesh is weak, and a long walk, even to the house of God, will weary one not too strong. Thank you so much, Mr. Harvey, for your thoughtfulness.

The heavy rain and wind storm of Monday brought considerable change in the atmosphere. It is a matter of conjecture whether the fruit trees have not suffered in consequence.
Mrs. Clark Herman, of State College, came down on Saturday evening and will spend the week here with her brother, "Squire Stover" and family. Mrs. Herman came down at this time to see her niece, Miss Stover, as well as to visit other relatives and friends.

An Inquisitive Son.

A promising youth recently sought information from his father touching family affairs.
"Dad," said he, "do you like mother?"
"Why, what a question! Of course, I do!"
"And she likes you?"
"I am certain she does."
"Did she ever say so?"
"Thousands of times, my son."
"Did she marry you because she loved you?" Whereupon dad became angry, and said:
"See here, young man, you're getting entirely too personal. But I don't mind telling you that she did."
The boy scrutinized his parent closely, and after a pause added:
"Tell me this, dad: Was ma as near-sighted then as she is now?" Philadelphia Ledger.

MISS BEACH DIRECTING RED CROSS IN ITALY.

Inasmuch as the Princeton High school has recently sent over a generous gift of money to the Junior Red Cross, it will be to many a matter of special interest to read the following from the Paris edition of the New York Herald, under date of February 14, 1921. Miss Hollingsworth Beach is the daughter of Dr. and Mrs. Sylvester W. Beach, and she is the director of the Junior Red Cross in Italy.
The idea of developing a real friendship among the children of many nations as one means of preventing future wars is being applied in a very practical way by the American Red Cross in twenty-five Italian schools. Miss Hollingsworth Beach, director of this work in Italy, has recently arrived in Paris with an interesting story to tell, and one impressive detail relates to the steadily increasing correspondence going on between the children of two continents. Translation of letters and postal cards has become a problem to be taken up seriously by the schools.
Twelve thousand American school children have joined the Junior Red Cross, because they want to give something to the children who suffer what they themselves were spared during the war. The money that they contributed averages about six cents a day for each of them, and it is enough to bring many homeless, penniless children into vocational schools, where they are taken care of and taught trades by which they can eventually care for themselves.
"There is the school in the town of Sezza, on a height overlooking the Poine marshes, and rather inaccessible," Miss Beach said. "I had to walk three miles up the railroad there once, because the train broke down. A monastery was taken over by the government to make a farm school for 150 boys, and another building to teach housekeeping to girls, all of them children found wandering on the plains after the influenza epidemic."
Miss Beach travels continually from one school to another, knows the children and has much to tell of their accomplishments, especially those at one school who have written plays and presented them, even making their own costumes.
She tells of their interest in Amer-

ica, the pictures, the basketry, and other things that they make for their new friends overseas.—The Princeton Packet.

Cut Black Knot Out.

Black knot disfigures cherry and plum trees and so interferes with growth that the trees will ultimately become unfruitful. There is only one way to get rid of it, that is to cut out all infestations, cutting back far enough on the limb to have nothing but healthy wood. Burn the prunings so that there will be no possibility of the old knots spreading the disease which they will do if they are not destroyed.

HOOD'S SARSAPARILLA.

Spring Debility

Loss of Appetite, That Tired Feeling and Sometimes Eruptions.

Thousands take Hood's Sarsaparilla as a spring medicine for that tired feeling, nervous weakness, impure blood, and say it makes them feel better, eat and sleep better, and "makes food taste good."

Spring debility is a condition in which it is especially hard to combat disease germs, which invade the system here, there and everywhere. The white blood corpuscles, sometimes called "the little soldiers in the blood," because it is their duty to fight disease germs, are too weak to do good service.

Hood's Sarsaparilla strengthens the "little soldiers" and enables them to repel germs of grip, influenza, fevers and other ailments; relieves catarrh and rheumatism. It has given satisfaction to three generations. Get it today, and for a laxative take Hood's Pills. 66-11
