

TWO MILES OF AIRPLANES

Impressive Welcome That Was Given to General Nivelle on Kelly Field in Texas.

When the first sentry at Kelly field saluted Gen. Robert Georges Nivelle the word was passed to the waiting airmen and as General Nivelle's car rounded hangar No. 1 he saw a line of ships that stood wing to wing, from hangar No. 1 to No. 24. A line of SE-5s, De Havillands, Fokkers, Spads, Curtiss, JN-3 Hg., Capronis and Handley Pages, every plane in working order, with its crew and pilot lined up in front.

The general rode down the entire line. When he returned to the reviewing stand the word of command was given and the big line of pilots and mechanics simultaneously broke, and from hangar No. 1 the bark of a single S-E. was the signal for the entire line of ships to "come to life," and they did. Three minutes later there was not a single dead motor on the line and the first-pursuit formation was already out on the field ready to take off. They were followed by three other S-E. formations; then the De Havillands rounded off. The formation circled the field and passed over the reviewing stand. The highest formation was 2,000 feet, the lowest 500.

There was a typical Texas norther in action, with a thirty-five-mile wind on the ground, and naturally it was a little bumpy. You who have flown in Texas know what that means, but the formations were all close and some excellent stunting was carried on despite conditions.

The A. S. M. S. contributed pilots to a pursuit and bombing formation. Both formations were low and close and the mechanics' school men showed that, though they were supposed to be more familiar with the monkey wrench than the joy stick, when occasion demanded they could handle both in a more than passing manner. — American Service Bulletin.

NO QUARREL ON THAT POINT

Father and Small Daughter in Complete Agreement Concerning Classification of Relatives.

There lived with an eminent divine his two sisters, Mary and Jane. One morning he was deeply engrossed in a new treatise he was preparing, when his young daughter was brought to him by her governess.

"I have to report Miss Ellen for a terrible thing. She called her Aunt Mary a—a—a d—d fool!" said the governess.

"How terrible!" responded the divine. "Did you call your Aunt Mary this awful thing?"

"No, father. I didn't," faltered the youngster. "I called her a fool—but not a—a—a d—d fool."

"Well, even that is very wicked of you," he replied, "but as you did not use that awful adjective I will forgive you. You may go." And he returned to his writing.

The youngster, however, did not go. "Please, father," she said, presently, "I didn't call Aunt Mary a d—d fool. I called her a fool. But—I—I—I did call Aunt Jane a d—d fool!"

"Yes, yes!" he mumbled, without looking up from his work; "I quite agree. That is the precise distinction between them that I usually make myself!"—London Tit-Bits.

The Cooties.

Colonel Roosevelt told a war story at an Albany reception.

"A doughboy," he said, "had just got back home from the war, and he was lurching in a cafeteria when a dear old lady in the next chair to his own leaned over across her pie and said:

"I, too, have a soldier son, young man, and a lucky one at that. Would you believe it? My boy went through the war without a scratch."

"Gee, lady," said the doughboy, "spill us the name of his insect powder, will ye?"
