Italian Airship in Bellefonte Last Saturday.

An Italian aeroplane, the "Ansaldo," attracted considerable attention at the Bellefonte aviation field on Saturday morning during its stay of several hours. The ship arrived in this country just about three weeks ago, having been purchased by a Chicago company for passenger service between that city and Milwaukee as well as other western cities. The ship is equipped with a three hundred horsepower Fiat motor and is designed to carry five passengers in addition to the pilot. It is constructed along beautiful lines and has about the same wing spread as the DeHaviland planes used by the government in the air mail service. The fuselage is about the same length as the DeHaviland though much bulkier. The pilot's seat is in front and the passenger cabin right in the rear of the pilot.

The ship trailed the mail plane from New York to Bellefonte and in the act of taking off for the trip to Cleveland broke the tail skid, which is rigid, so laid over here several hours while the mechanics on the field made temporary repairs. With the ship on its initial flight were the purchaser, pilot, a Fox company motion picture operator and Mr. Dickson, president of an Aero club in Chicago. The latter is sixty-three years old and an enthusiastic aeronautist. During the past year he has not only learned to fly but avers that he can loop the loop, do the tail spin and falling leaf and really enjoys it.

The ship left Bellefonte at ten o'clock and got through to Chicago that afternoon without further mishap, having stopped in Cleveland enroute.

High School Athletics.

Owing to the fine showing of the Bellefonte High school track team in winning the Centre county championship, coach Stock will send a team to State College this Saturday to participate in the interscholastic track meet. There will be athletes there from all the larger schools of Pennsylvania, but the local team is expected to make a fine showing.

William Waite will run in both the 100 and the 220 yard dashes. Otto Smith will participate in either the half mile or the two mile run; Leslie Thomas in the broad jump, while the relay team will be composed of W. Waite, W. Kline, M. Gordon, and L. Bodle.

The local baseball team won its second victory of the season on Saturday by defeating the strong Centre Hall team by the score of 5-4. The game was a pitcher's duel, as neither side could hit the opposing pitcher, while Mensch had sixteen strike outs to his credit. In Bellefonte's half of the ninth inning the score was tie. After two were out in the ninth Williams drove the ball to the fence for three bases, and scored a moment later on Keathley's single.

Bait and Fly Casting Contests.

The contests will be open to all residents of Centre county. A team of three contestants will be allowed in each event from each of the nine conservation districts. The teams shall be selected at a publicly advertised preliminary contest to be held under the direction of the chairman of the district committee on fish in each conservation district. The names of contestants shall be certified by them to Mr. John J. Bower, Bellefonte, Pa., who will have charge of the contests, under T. H. Harter, chairman of the county committee on fish. He will appoint the necessary captains and assistants. Full particulars can be had of the chairman of each conservation district.

All orders and societies are invited to take part, and those doing so will please report to Col. W. F. Reynolds, who has been appointed chief marshal for the day. The Memorial address will be delivered by Mr. Samuel Hare, of Altoona. By command of W. H. TAYLOR, Commander. EMANUEL NOLL, Adjutant.

GLENN.—Miss Sarah Glenn, a member of one of the old-time Ferguson township families, passed away last Friday morning at the home of her niece, Mrs. Frank S. Musser, in Altoona, of diseases incident to her advanced age.

She was a daughter of John and Hannah Bailey Glenn and was born in the Glades on December 17th, 1836, hence was in her eighty-fifth year. She was educated in the common schools and at the Pine Grove Mills Academy. As a young woman she engaged in teaching, a profession she followed for many years, having the reputation of being one of the best educators of her day. She was compelled to give up teaching to care for her mother during her declining years and after her death she made her home with her niece, Mrs. Musser. She was the last member of her father's family. She was a life-long member of the Methodist church, and her entire life was devoted to the welfare and uplift of others.

Funeral services were held at the Musser home in Altoona at two o'clock on Sunday afternoon, after which burial was made in the Oak Ridge cemetery in that city.

MEEK.—Mrs. Eliza G. Meek died at the home of her daughter, Mrs. Grace Sutton, in Altoona, on Tuesday night, following a year's illness with a complication of diseases. Her maiden name was Eliza Glenn Shiffer, and she was born at Pine Grove Mills on October 31st, 1865, hence was in her fifty-sixth year. She was married to Bigler Meek and her survivors include five children, Charles W., Harry G. and Ralph E., of Pittsburgh; Mrs. Ella Lungrun, of Lonita, Cal., and Mrs. Sutton, of Altoona. She also leaves three sisters, Mrs. W. H. Musser, of Bellefonte; Mrs. G. H. Woods, of Pine Grove Mills, and Mrs. William Frigate, of Joliet, Ill. Rev. J. B. Stein will have charge of the funeral which will be held at 2:30 o'clock this afternoon, burial to be made in the Fairview cemetery, Altoona.

She is survived by five children: Calvin, of Hecla; Otis, of Freeport, Ill.; Roy, of Centre Hall; Mrs. Frank Clevenstine and Mrs. Joel Royer, both of Zion. Burial was made in the Zion cemetery on Monday.

Bellefonte Academy News Notes.

Two track men, Henry Alwine, of Greensburg, and Marsh Johnson, of Jamestown, N. Y., represented the Academy at the interscholastic meet held at Carnegie Institute, Pittsburgh, last Saturday. They won third place in the meet with a total of thirty points. Now several other runners are sorry they did not go, as they feel they could have helped to win the meet. Next Saturday a large delegation will attend the meet at State, hoping to win.

This (Friday) afternoon at four o'clock the crack Wyoming Seminary nine, of Wilkes-Barre, unbeaten to date, will play the Academy nine on Hughes field. It will be a thriller. The visitors recently defeated Cornell Freshmen 8-0.

The Academy minstrel's to be given for the benefit of the firemen, on Thursday and Friday evenings, May 19th and 20th, will produce two delightful programs for the audiences that will surely attend the performances. Mr. Hughes wishes to announce that all gallery seats will be choice seats for such entertainments as the Academy will present, if they are clean and good order is guaranteed. He positively guarantees that the gallery will be thoroughly cleaned and that the best of order will be preserved. The opera house should be packed on these occasions.

Regarding his students and circus parades, Mr. Hughes announces that hereafter on such occasions they will either be kept at their school work or required to witness the parades from the Academy limits on promise of perfect order.

American Legion to Head S. A. Drive.

The Salvation Army appeal for Centre county is well under way. The budget for the next year's work, including relief work for the county, is \$6000.00, and Bellefonte has been asked to raise \$800.00 of this sum. Mr. Nolan, the commander of the American Legion, has consented to act as the local chairman for the appeal in Bellefonte and the American Legion boys under the leadership of the commander will make a canvass this week for the funds. The money that is being raised this year is for the extension of the Army's work in the county and your giving will help and bless some one else.

Philipsburg Hotels Raided.

Rev. R. E. Johnson, the "raiding parson," of Philadelphia, with his wrecking crew slipped quietly into Philipsburg last Saturday morning and raided three hotels, securing twelve cases of whiskey. The hotels raided were the Continental, Joseph Dugan, proprietor; the Farmer's hotel, W. R. Bower proprietor, and the Ramsdale, Conrad Juschik proprietor. Rev. Johnson took samples of the whiskey for use against the landlords when action is brought in the U. S. court, the confiscated wet goods being stored in the basement of the Philipsburg postoffice.

Obviously the Republican leaders of Pennsylvania are banking on the poor memories of the voters.

Big Crowd at Main's Show.

The Walter L. Main show drew a large crowd to Bellefonte on Monday, in fact so large that at the afternoon performance the tent was crowded beyond the stage of comfortable capacity, while some had to be turned away. The show came to Bellefonte from Tyrone Sunday morning and by nine o'clock was unloaded and down on the old fair grounds. Sunday afternoon hundreds of people motored to the fair grounds to look the show over, and they must have been favorably impressed, as the estimated crowd in attendance on Monday afternoon was placed at three thousand people. The show gave a street parade at noon, and though it was not very long, everything was clean and fresh looking and presented a good appearance. While the prices for admission and reserved seats combined were a little stiff the performance was clean and good throughout, though of course not as varied as the big shows. Some of the acts were new to Centre county circus goers, hence all the more interesting.

So far as could be learned the show throughout was clean and devoid of the usual troupe of circus followers of the gambling type. Not a single complaint was made of any attempt to flimflam the gullible public in any way and had it not been for the unfortunate accident in the afternoon in which a young girl lost her life the day would have passed by without an unpleasant incident.

Kreider—Baisor.—Herbert D. Kreider, a son of Rev. and Mrs. Isaac Kreider, of Duncansville, and Miss Beatrice Baisor, a daughter of J. W. Baisor, of Philipsburg, were married in the Lutheran church at Duncansville, on Tuesday by the bridegroom's father, Rev. Isaac Kreider. The young couple will make their home at Elyria, Ohio, where Mr. Kreider is foreman in the pattern shop of the Garford foundries.

Deitrich—Smith.—Leslie J. Deitrich and Miss Mary K. Smith, both of Hubersburg, were united in the holy bonds of matrimony at the Reformed parsonage in Bellefonte, at noon on Tuesday, by the pastor, Rev. Dr. Ambrose M. Schmidt. Immediately after the ceremony they left by automobile on a motor trip to Altoona and other places, expecting to return home in a few days.

Thursday, May 26th, has been announced as the date for the formal dedication of the home for aged women of the Central Pennsylvania Methodist conference in Tyrone. A week's program is being arranged by superintendent W. E. Karns. The home was formerly the residence of the late S. S. Blair, for years superintendent of the Tyrone division of the Pennsylvania railroad, and while many changes and additions have already been made to the property many others have been planned which will necessitate an expenditure of about \$60,000, and the directors have mapped out a campaign to raise this amount during the dedicatory week.

The date for the Bellefonte Chautauqua this year will be August 3rd to 9th inclusive. The Chautauqua management claims to have some exceptionally fine talent this year, but so far no program has been announced.

The annual commencement exercises of the Bellefonte parochial schools will begin on Friday evening, June 3rd, and continue over the following Sunday.

Farmers' Week at State College in June.

State College, Pa., May 12.—The annual Farmers' week at the agricultural school of the Pennsylvania State College will be held this year on Wednesday, Thursday and Friday, June 22, 23 and 24, according to an announcement made by Dr. R. L. Watts, dean of the school and director of the experiment station.

This will be the third consecutive year that this event will be held in June, the two previous occasions each resulting in the attendance of upwards of 5000 farm people to view the college farm and learn of the latest scientific investigations completed by the school and experiment station. Attendance has been growing each year, and as the occasion falls in the early summer slack season for farmers, a record breaking crowd is looked for this June.

In connection with the usual program, the Young Farmers' week, which was inaugurated last year with great success, will be continued this year, opening on Monday, June 20. Contests of all kinds will be arranged for the entertainment of Pennsylvania's farmers of the future, and their program will continue into that of the regular Farmers' week.

As usual, there will be no indoor lectures put on as in the winter farm weeks of previous years, and the visitors will be taken right into the barns and fields where actual demonstrations and results can be shown concerning the latest findings beneficial to better farming. Preparation has already started to make the occasion this year the best ever held at the college.

BEATING THE POTATO BUG.

The Potato Magazine calls attention to the fact that certain regions of the upper peninsula of Michigan have been virtually freed of that notorious pest, the potato bug, by the operations of a tiny parasitic fly which lays its eggs upon the striped beetle. Grubs hatched from these eggs bore into the potato bug's body and eat out his inside works.

If it were not for parasites that prey upon the potato bug, it would scarce be possible to grow any potatoes in this country, despite all the farmer could do to poison the insect with paris green.

That destructive beetle was originally native to mountain districts of Colorado, where it fed on a wild variety of potato plant called the "sand bur." It is supposed to have been carried into Missouri by the cattle traffic, and in 1864 it crossed the Mississippi river. In the early seventies it had crossed the Detroit river and Lake Erie was literally alive with potato bugs, passengers on ships or whatever else would keep them afloat. They reached the Atlantic coast in 1873, and the beaches were soon swarming with them. Vessels were boarded by them in such numbers that hatches had to be battened down.

At that period and for some time afterward much alarm was felt lest the potato would become an extinct vegetable in the United States. But nature has a way of dealing with such mischiefs, and before long parasitic enemies of the beetle multiplied in such numbers as to make possible its control.

The above-mentioned fly, which has done such good work in Michigan, will be colonized in other parts of the country, and may solve the potato bug problem for good and all.

New Use for Potatoes.

The large stock of potatoes in the bins of many rural farm houses are becoming burdensome on the hands of the growers, and many and varied are the uses to which the tubers are applied. Large quantities are fed to the cattle and dairymen claim that the increase in the milk production is remarkable after giving the cows a potato diet for several days. As the vegetable contains a large percentage of starch, it acts as a fattener for hogs, and the same can be said of steers.

Chickens thrive on potatoes. Even horses soon learn to relish them. Unless utilized in this way thousands of bushels around here will go to waste.
