All members and friends of the family are invited to join in this outing which will be in the shape of a basket picnic. Yearick, at Jacksonville, on Tuesday evening, in one of the Emerick busses, where they held their regular meeting and spent a most enjoyable time; returning home shortly after eleven o'clock. Troop L of Bellefonte, which has been an integral part of the First Pennsylvania cavalry, will shortly be changed into a machine gun unit as part of the 52nd machine gun squadron, according to orders issued by Adjutant General Beary recently. The name of the troop will not be changed, however. Dr. Stull will be at the Glenn sanatorium at State College June 18th, at 1 p. m. Go to the scenic and see the motion pictures and forget your troubles. The programs shown night after night are interesting and instructive and you cannot help but enjoy them. Try it once and see, if you are not already a regular attendant. State policemen last Thursday evening arrested two men who gave their names as Victor and Max Solomon, on the charge of selling spurious automobile insurance in Centre county. The men were given a hearing before Squire Woodring on Monday and in default of \$1000 bail were committed to jail to await trial at the next term of court. During the severe thunder storm last Friday evening lightning struck the barn on the Jared Kremer farm in Brush valley, about two miles east of Rebersburg, causing a fire which burned it to the ground. The farm was tenanted by Ambrose Weber who lost four horses, a bull, two heifers and most of his farming implements. The barn was insured. The Fourth of July is only a little over three weeks away and so far neither Bellefonte nor any surrounding towns have announced any celebration of the event. So far as Bellefonte is concerned every indication is for a perfectly safe and sane Fourth, and as the day falls on Monday it will doubtless be as quiet as it should be safe and sane. Now that High and preparatory schools have closed for the school year a large number of boys and young men have been released whose help will be available for farm and other work, if needed. While there is no employment office in Bellefonte Walter S. Greivy, superintendent of the office in Altoona, whose address is the Commerce building, will be glad to supply farmers or others needing help with good, reliable young men. Mr. and Mrs. Robert Garman, of Tyrone, entertained at the Garman summer home at Edgemoor yesterday, with a house picnic, each of the eighty guests being asked to bring with them their eating tools. The party was invited for either rain or sunshine and the drive over made early in the afternoon, allowing plenty of time for the merry making, which continued far into the night. Mr. and Mrs. Garman's parties at Edgemoor are always one of the season's events in the social life of Tyrone.

PUMPERS WILL BE PURCHASED.

Borough Council so Voted at Its Regular Meeting Monday Evening.

The persistent demand of property owners of Bellefonte for better fire protection and the claim of Bellefonte's volunteer firemen for more modern fire fighting apparatus was answered by borough council on Monday evening when that body voted to authorize the purchase of two motor pumps of a type to be approved by council upon recommendation of the Fire and Police committee. The seven members present at the meeting were president Walker and Messrs. Brouse, Cunningham, Fauble, Flack, Knisely and Richard, the absentees being Beizer and Harris. The motion to authorize the purchase of two pumps was voted for by Brouse, Fauble, Flack, Knisely and Richard. Mr. Cunningham went on record as being opposed to the purchase of two pumps, while president Walker exercised his right as presiding officer by not voting either way. Clement Dale Esq., appeared in person before council and requested that something be done to prevent the surface water from Linn and north Allegheny streets during hard rain storms overflowing the pavement and flooding his cellar. This has occurred several times this spring and is very much of a nuisance as well as a detriment to the health of himself and family. The matter was referred to the Street committee and borough manager to do something to correct the trouble. A communication was received from the chief fire marshal to the effect that the fire hydrant on the corner of Lamb and Thomas streets had been fenced in by Arthur Thomas, who inferentially claims it is on his property. The matter was referred to the Street committee. A communication was received from the recording secretary of the Woman's club asking for the removal of the watering trough from the pavement in front of the court house, and suggesting as the proper location for same the upper end of Bishop street. No action was taken. A communication was received from the Eureka Fire Hose company stating that all their hose was guaranteed for three years and if any of the hose purchased from them in June, 1919, has gone bad it is to be returned and will be replaced. The borough manager was instructed to make a thorough inspection of the hose and if any bad sections are found to return them. Secretary W. T. Kelly stated that when Mrs. J. Thomas Mitchell was here recently and sold her property she paid water tax for two years, or \$30.00, but as the house had been occupied only about three months of that time she felt that she was entitled to a rebate. Referred to the Water committee. The Street committee reported various repairs around town and the collection of \$40.00 for sewer permits and \$4.72 for old iron sold. The Water committee reported making connection for the water pipe to the Academy swimming pool; that the electric pump was put in commission again on May 23rd, and the collection of \$77.00 on the 1919 water duplicate. The Fire and Police committee reported the Bellefonte Academy fire and that a new concrete floor had been put down in the Undine building. The Finance committee presented the report of the borough treasurer which showed a balance on hand June 1st of \$3,381.86. It was at this juncture of the proceedings that Mr. Fauble presented the opinion of the borough solicitor regarding council's legal rights in the matter of purchasing modern fire fighting apparatus. The opinion was quite lengthy and quoted decisions showing that borough councils have the power to purchase fire fighting equipment from the general fund, and under a law passed by the last Legislature council also has power to lay a tax for general borough purposes as high as fifteen mills. Referring to the present financial condition of the borough the solicitor stated that it was below the limit allowed by law, and further suggested that if the taxes remaining unpaid were all collected the financial condition would be materially relieved. Mr. Fauble also presented the report of the board of underwriters which stated that a town of the size of Bellefonte, and taking into consideration every prevailing contingency, should have as its fire fighting equipment three triple pumps with a combined capacity of two thousand gallons a minute. But if the two present fire engines were kept in reserve two pumps with a capacity of six hundred gallons per minute each should be ample protection, and in the next rating should materially reduce the deficiency charge on all insurance, which is now 22 cents per thousand. Mr. Fauble further stated that he believed the purchase of the two pumps could be made without adding even one mill to the present tax rate, and the Finance committee at the proper time would endeavor to arrange for the finances. Mr. Richard then made a motion that council authorize the purchase of two pumps. Mr. Cunningham stated that he was opposed to the purchase of two pumps, but would acquiesce in one, as he believed that would give the town ample protection. Mr. Flack stated that there have been times when a half dozen could have been used. The matter was pretty well discussed from every angle, Mr. Cunningham finally suggesting that if the motion passed the Fire and Police committee should not be hasty in making a selection but should invite firemen, property owners and

everybody interested to meet with them and consult in regard to the very best kind of a machine for the town.

Council concurred in this suggestion. A vote was then taken on the motion which resulted as stated at the beginning of this article. Mr. Fauble then presented a resolution that the secretary be instructed to notify tax collector J. Kennedy Johnston that all taxes remaining unpaid on all duplicates must be collected and paid on or before September 1st, 1921, or the borough solicitor would be instructed to proceed against him and his bondsmen to recover same. The motion passed. Mr. Cunningham stated that inasmuch as there had been considerable talk at the time of the Titan Metal company fire of the low water pressure at that place he and the borough manager had gone out and taken the pressure and found it to be 64 lbs. to the square inch, while 65 is normal for most every place in Bellefonte. Attention was called to the fact that the recent order of fire hose was not of the same size or thread of coupling used in Bellefonte and the fire marshal was directed to return the hose and secure the right kind. President Walker stated that at the time of the building of the state road on south Water and Willowbank streets the borough had accepted orders of contractor R. B. Taylor on the Bellefonte Trust Co. to the amount of \$6,000, only \$5,108.38 of which has been paid. Inasmuch as the bank wants the balance and the borough is still indebted to Mr. Taylor in a sum sufficient to cover the amount he suggested that a motion be passed to pay the Trust company the balance, or \$891.62, which was done. Bills to the amount of \$1748.94 were approved and council adjourned. Public Meetings to Select Pumps. In accordance with the suggestion of the borough council the Fire and Police committee of that organization will hold a public meeting in the council chamber on Monday evening of next week to hear any offers or suggestions to be made by the Undine firemen regarding the type or make of machine to be purchased. A similar meeting will be held at the same place on Tuesday evening to hear what the Logan firemen have to say, and a citizens meeting will be held in the same room on Wednesday evening to give every taxpayer of Bellefonte an opportunity to have a voice in the purchase of this up-to-date fire fighting equipment. Inasmuch as every resident of Bellefonte is interested there should be a large attendance at the citizens meeting. Look for the circus. It is coming soon. Presbyterian Congregation Express Regret and Good Wishes. At a congregational meeting of the Bellefonte Presbyterian church held on Wednesday evening, June 1st, the following minute was adopted: The congregation of the Bellefonte Presbyterian church desires to record the deep regret with which the resignation of the Rev. Wm. K. McKinley, as pastor of the church, has been received. During the five years of his pastorate there has been a growing appreciation of his character, of his intellectual power, and of his many engaging qualities. He has steadfastly upheld and taught the need of high standards of christian life in business and civic affairs, while his attractive and forceful preaching, and his own example, have combined to give him a high place in public regard. Holding fast the vital tenets of the church his sermons have taught the great truth that salvation here and in the future, can only be had through the practice of the principles of Jesus. As a pastor he has been devoted, sympathetic, and helpful. As a citizen he has not failed in the performance of public duty, and as a minister he has upheld and exemplified the high traditions of his church. Our best and kindest wishes follow him to his new field and it is our sincere wish that he may find there full opportunity for doing the work to which he has devoted his life. Commemorated Church Anniversary. The feast of the dedication of St. John's Episcopal church was kept on Tuesday of this week, commemorating the consecration of the church building, forty-nine years ago, or on June 7th, 1872. From very early times it has been the custom among christians to keep such a yearly festival in celebration of the solemn services at which the Bishop set apart the local church to be the House of God and the Gate of Heaven. Next year it is planned to observe this occasion in St. John's with services and festivities befitting the fiftieth anniversary. The parish itself is considerably older than its present church, dating from 1837. Rifemen's Meeting. John Curtin, of Bellefonte, chairman of the Benner and Spring township rifemen who will compete in the shoot to be held in Bellefonte on June 17th under the auspices of the Centre County Conservation Association, requests all rifemen desiring to participate in the shoot to assemble at the Bellefonte armory tomorrow (Saturday) afternoon at two o'clock. They must bring their rifles and ammunition as it is intended to select the best shots in Benner and Spring to represent these townships in the county shoot on June 17th. Ladies, don't miss the great clearing sale of coats, suits and dresses, on Saturday, June 14th, at Cohen & Co's. 23-1t

Shaffer, was united in marriage to George W. Mulberger, of Pleasant Gap. The ceremony was performed by Rev. Reed O. Stealy, of the United Evangelical church, and the only guests present outside the immediate members of the family were two cousins of the bride, Miss Barker and Miss Shaffer, of State College. The bridegroom is employed as stock clerk at the Bellefonte aviation field and owing to his limited leave of absence the customary wedding trip was deferred for the present, the young couple going direct to their already furnished apartment in Crider's Exchange. Musser—Watkins.—Claude E. Musser and Miss Irene Watkins, both of Millheim, were married at noon on Monday by justice of the peace C. Irwin Lewis, at his office in Hollidaysburg. Immediately following the ceremony the young couple left on a wedding trip to Atlantic City and other points east and upon their return will take up their residence at Millheim where Mr. Musser is employed as a book-keeper. Col. Theodore Davis Boal, with his customary generosity and kind feeling for the old soldiers, entertained the members of the G. A. R. at his residence in Boalsburg last Friday evening, serving very appetizing refreshments and winding up with a smoker. The Colonel is widely known for his liberal hospitality under all circumstances and on this occasion he almost excelled himself. Delicious ice cream, rich in quality and delicately flavored.
