

ALL ABOUT TOWN AND COUNTY.

William and Edgar Burnside have moved from Newcomers on Curtin street to the Brockerhoff house.

A big moving van from Lewis-town moved Dr. Caldwell's furniture and dental equipment to that city on Tuesday.

A very neat iron picket fence was put up this week on the concrete base wall along the Howard street side of the Humes property.

Tuesday afternoon's rain was pretty general over Centre county and was just what was needed for the corn and potatoes, as well as gardens.

A new passenger carrying automobile has been put into service between Bellefonte and Snow Shoe, making two round trips each day.

County Commissioner George H. Yarnell was taken suddenly ill on Monday and has been confined to bed at his home at Hecla Park all week.

An infant daughter born to Mr. and Mrs. Cyril Moerschbacher on Sunday died on Wednesday. Burial was made in the Catholic cemetery yesterday afternoon.

At the Tuesday night dances at Hecla music will be furnished by the very popular Ernie Wells and his six college boys. Dancing from 9 to 1, the subscription price being \$1.10 a couple.

At a special election held last Thursday residents of Philipsburg voted to increase the borough indebtedness \$42,000 for highway construction, street repair work and the installation of a fire alarm system. The vote was 626 votes for the increase to 119 against.

On Friday, August 5th, bids will be opened by the State Highway Department at Harrisburg for approximately sixty miles of new state highway. Included in the list is 5,804 feet on R-107 through Philipsburg borough, which is to be one course reinforced concrete.

Any person in the market for the purchase of a good, second hand automobile should consult the advertisement of the Cadillac Sales Co. in this issue of the "Watchman." Various makes and styles of cars will be sold at the company's headquarters in Altoona during the ensuing ten days.

The concert by the boys' band from the Loyville orphan's home, in front of the High school building on Monday evening, drew a crowd estimated at from fifteen hundred to two thousand people, and proved a musical treat to all. The collection lifted for the benefit of the home amounted to \$201.00. The band went from here to Philipsburg, where it gave a concert on Tuesday night.

The hot and dry weather has played havoc with the berry crops and blackberries and huckleberries which gave such great promise early in the season are unusually scarce. Last Friday four men spent a half day on the Allegheny mountains in search of huckleberries and were successful in getting but a quart each. Blackberries are not only few in number but small in size and bitter to the taste.

While Bellefonte does not have a public park with various amusements for the entertainment of the public the town is fortunate in having one of the best motion picture shows in the State, in the Scenic. Of course, everybody in Bellefonte knows this fact and strangers in town for the night cannot find any better place of entertainment than at the Scenic, watching the motion pictures. Big programs every night.

A competitive civil service examination will be held at State College on Wednesday, August 3rd, for coal inspector and passer. The position pays from \$1,200 to \$1,800 a year, with a provisional increase of \$20 a month. Both men and women who are citizens of the United States may take this examination and are eligible to appointment. Blanks and other information may be secured at the postoffice at State College.

Two inspectors from the State Department of Fisheries were in Bellefonte yesterday inspecting Spring creek for any impurities which might be dangerous to fish life. They discovered that the stream is being made a dumping place for various liquids that are not good for the fish and will so report the matter to fish commissioner N. R. Buller with the result that official action will be taken to keep the water in the stream as pure as possible.

Frank M. Derstine, a son of Mr. and Mrs. W. H. Derstine, of Bellefonte, and who has made his home in Juniata for some years past, is in the field as a candidate for tax collector of that borough. Frank has served several years as borough councilman, which is a thankless job at its best, and is now after one that will afford a fair remuneration for the services rendered. The citizens of Juniata, we'll wager, cannot find a better man for such an important office than Mr. Derstine.

The state police in Bellefonte received a call last Friday to be on the lookout for a small band of gypsies who stole ten dollars from a Mr. Woomer at Vall Station then beat it down Bald Eagle valley. They were traveling in autos and the police went out as far as Snow Shoe intersection where they intercepted the caravan. They were held there until the arrival of Earl Woomer and were then taken back to Vall, where they restored the money and decided to leave for other parts of the State.

RECOMMEND WHITE PUMPERS.

Borough Council Undecided as to Best Method of Paying for Same.

At Monday evening's session of borough council the Fire and Police committee, through chairman Flack, recommended the purchase of two White triple pumpers, which in the committee's opinion are the most adaptable fire fighting machines for a town like Bellefonte, but action was deferred until next meeting pending further inquiries into exact terms of sale and method of payment.

Notwithstanding the fact that there had not been a meeting of council in six weeks only six members were present at Monday evening's meeting, the absentees being Messrs. Beezer, Harris and Richard. A petition was received from twenty residents of the South ward asking that a curb and gutter be built along the south side of Bishop street from Blanchard street to the Catholic cemetery to care for the surface water in time of heavy storms. The matter was referred to the Street committee.

Mrs. Martha Thomas asked to be exonerated of \$3.00 water tax assessed against her coal yard on the grounds that she had no water facilities. Referred to the Water committee.

Chief fire marshal John J. Bower submitted a report of the fire department for the first six months of 1921 in which he stated that during that time the department had responded to eighteen alarms of fire within the borough and one outside. Forty per cent. of the alarms were major fires. The property loss in the borough as the result of the fires was \$75,400 and the loss on the one fire outside the borough (the Titan Metal company) was given as \$175,000. The department now has on hand 1850 feet of serviceable hose of which amount 600 feet has been purchased within six months and 600 feet is only about three years old. The chief further recommended the formulating and passing of an ordinance for the regulation and control of the department during fires and also prescribing fire limits for the public at large. The matter was referred to the Fire and Police committee.

The Street committee presented the report of the borough manager showing the work done since the last meeting of borough council, and also the receipt of \$30.00 for sewer permits.

The Water committee reported the breaking of the pump at the Phoenix mill pumping plant and that new parts, which will cost \$360, have been ordered and should be here soon. The committee also reported the collection of \$37.50 on the 1919 water tax duplicate and that the water meter bills for the quarter ending July first, amounting to \$1162.68, are ready for collection. The committee also requested that an early date be set for the 1921 water appeal.

The Fire and Police committee reported the burgess' check for \$41.50 for fines and licenses collected.

The Finance committee asked for the renewal of notes for \$500, \$2,500, \$2,000, \$1,100, \$1,000, \$600, \$500 and \$2,000, and a new note for \$1,000, all of which were authorized. The committee also recommended that the millage for the year 1921 be fixed the same as last year, 10 mills for street purposes, 5 for borough and 5 for interest. President Walker questioned the fact that the millage would be sufficient to meet all the financial obligations of the borough in view of the contemplated purchase of two triple pumpers, and was of the opinion that the borough tax ought to be increased to 10 mills. Mr. Fauble, of the Finance committee, stated that he didn't believe it would be necessary. He stated that while up to the present time there had been no very great influx of delinquent taxes as the result of the resolution passed at the last meeting of council he considered that the resolution was not intended as a joke and the Finance committee expected to take the necessary steps when the time limit expires to enforce payment of all delinquent taxes by the collector. He also called attention to the fact that there is in the neighborhood of \$14,000 due the borough from property owners for the building of the state road on Bishop, Spring and Pine streets, and he made a motion that the borough manager be instructed to proceed at once to secure the necessary data from which to make out the bills for same and that they be turned over to the borough treasurer for collection. The motion passed, but the question of fixing the millage for 1921 was held over until the next meeting.

President Walker inquired as to the condition of the two steamers of the fire department and the Fire and Police committee reported the Undine steamer in good shape and the Logan's all right with the exception of one leaky flue. The committee was instructed to see that the flue was repaired at once.

The borough manager stated that Mr. Stackpole, of the State Highway Department, had made complaint about the way residents along the recently oiled streets sprinkle said streets. They literally soak them with water and that has a tendency to decompose the oil and will take the life out of it in a short time. The borough manager also complained about the people on High street soaking that street to such an extent that unless it is stopped the street will be full of holes before the oil is secured for the top dressing. Mr. Cunningham, of the Water committee, advocated the passing of an ordinance governing the sprinkling of streets, and the matter was referred to the Street committee.

It was at this juncture that Mr. Flack, of the Fire and Police committee, recommended the purchase of two 600 gallon White triple pumpers, the price of which is \$9,800 each, or \$19,600 for two. He also presented a written agreement of the terms of sale but as there were some things in it that were not entirely plain the matter was referred back to the committee and action deferred until next meeting night.

With the approval of the bills council adjourned.

The farm implement dealers of Pennsylvania are planning to visit The Pennsylvania State College for an inspection trip of the entire plant on Thursday and Friday, July 28th and 29th. There are over 800 dealers in the State, members of the Eastern Farm Implement Dealers' association, and most of them are planning for the trip which will be made by auto from all parts of the State. The association officers suggested and will manage the trip.

Various reports have been circulated about Bellefonte during the week in effect that Frederic Schad had been very seriously injured in an automobile accident near Lock Haven on Wednesday evening of last week, some of the reports even crediting him with having both legs broken. As a matter of fact the young man was in an accident which occurred on the streets of Lock Haven, and sustained some slight cuts on the face, and body bruises, but nothing serious, as he is out and around as usual.

The engineering company in charge of the work of sinking the mine shaft at the old furnace quarry No. 2 of the American Lime & Stone company have reached a depth of sixty feet and are now engaged in concreting the hole. The shaft will be something like twenty feet square in the clear and will be sustained by solid concrete walls from top to bottom. After the shaft has been concreted to its present depth digging operations will be resumed until its maximum depth is reached. The company in charge of the work is pushing operations day and night, in three eight hour shifts, so as to get the shaft completed and drifts started at as early a date as possible.

A bad smashup occurred on the Snow Shoe mountain road on Sunday between the car of Oscar Johnson, of Winburne, and the Harris Cluster car of Lock Haven. The Johnson car was coming down the mountain and had just reached the narrow piece of road this side of the Reese Settlement when it met the Cluster car going up on a sharp curve. It was impossible for either driver to stop his car or get out of the way and as a result there was a head on collision. The Johnson car was so badly wrecked that it was hauled into the Wion garage on a big army truck. Two women were thrown out of the car but fortunately no one was seriously injured. The Cluster car was damaged to some extent, but not nearly so bad as the Johnson car.

Six people from the neighborhood of Unionville have been recent victims of typhoid fever and as most of the cases developed about two weeks or more ago the people of that locality became alarmed and sent in a call to the State Board of Health for the services of an inspector to determine the source of the infection in time to prevent the disease becoming epidemic. Fortunately the source was not hard to discover and proved to be at the Holt camp on Bald Eagle mountain where all the refuse from the kitchen had been dumped at a place that permitted it to drain into the water supply. Those who have been sick with the disease are Mr. and Mrs. Spotts, Mrs. Lucas, Mr. Holt, Mr. Tice and Mr. Stine. The source of the infection being cleaned out there is no further apprehension.

Residents of State College are up in arms against the cut in passenger service by the Bellefonte Central railroad company, as they consider it a distinct knock at the advancement of that town. The worst feature so far as the business men of the College is concerned is in the mail service. The railroad company has the contract for carrying the mail between Bellefonte and the College and now the latter town is facing only a three day a week service over this route. Of course the College postoffice sends out mail by way of the Lewisburg and Tyrone railroad but that mail closes at the College office at 3 o'clock p. m., whereas mail for Bellefonte over the Bellefonte Central does not close until 3:30. An effort has been made to secure permission of the Postoffice Department to send a pouch to Bellefonte on the six o'clock bus but so far no progress has been made in that direction.

Bellefonters recall the fact that late Saturday afternoon, July 2nd, six aeroplanes passed over Bellefonte on their way to western cities with pictures of the Dempsey-Carpenter fight, and one of the planes, driven by pilot Jack Knight, sat down in an oats field near Roaring Spring, Blair county. The plane was bound for Chicago and when the pilot attempted to take to the air he crashed into a fence and broke his propellers. He then abandoned the ship and took the pictures to Chicago by train, but he lost the \$1000 offered to the man who got the first pictures in the Windy city. When Knight returned to Roaring Spring to get his plane out the farmer soaked him \$100 for damage to his oats and for guarding the ship. He also had to pay for shipping the plane to the Bellefonte field for repairs, and as it was a government plane being used in a private enterprise he may have to pay the cost of repairs.

Reuben Walizer Instantly Killed in Auto Accident.

Reuben Walizer, a well known carpenter of Julian, was instantly killed about 6:45 o'clock on Monday evening when his automobile overturned on the Bald Eagle valley road a short distance east of Port Matilda. Mr. Walizer was working at his trade in Philipsburg for contractor Harry Fravil and every day went to that place in the morning and home in the evening, as he also has a little store at Julian which his family took care of during the day and he helped in it in the evening.

On Monday evening he left Philipsburg at his usual time, stopping at the garage at Port Matilda a few minutes. Intending to come to Bellefonte he was driving pretty fast after he left Port Matilda and going down a grade he ran into a bank to the side of the road and upset, the car falling upon him. A boy on a bicycle was just ahead of him and hearing the crash wheeled back to see what had happened. Finding the wrecked car he hastily summoned help and Mr. Walizer was removed from under the wreck, but he was dead when taken out. His neck was broken and he was cut on the head and face. Both wheels on the right side of the car were broken, but it is not known whether they were broken in the wreck or whether they collapsed before and were the cause of the wreck.

Walizer was about forty-five years old and is survived by his wife and seven children. The funeral was held yesterday afternoon, burial being made in the Fairview cemetery.

Bellefonte Young Man Still Going Up.

Effective July 15th, J. Harvey McClure, son of Mr. and Mrs. James I. McClure, of Bellefonte, was placed in supreme charge of the Indiana, Columbus and Eastern Traction company, with head offices at Cleveland, Ohio, and an advance in salary from \$10,000 to \$15,000 a year. He will have complete direction over the Dayton and Union City division, the Dayton and Columbus division, the Lima and Springfield division and the Lima and Defiance division of the above system, and will have operating control of the Columbus and Zanesville division, the Newark and Granville, the Zanesville City Railway company and the Zanesville Light and Power company.

It will be recalled by readers of the "Watchman" that two or three years ago Mr. McClure was transferred from Oil City to Lima, Ohio, where he was made general manager of a portion of the above system. About a year ago the entire system went into the hands of a receiver and Mr. McClure was made one of the receivers. He has evidently been able to untangle the financial difficulties of the company which no doubt led to his recent promotion. The young man is only thirty-eight years of age and the success he has attained in his chosen field of endeavor is really remarkable. May he continue going up as the years roll around.

Civil Service Examinations for Postmaster Aspirants.

The U. S. Civil Service Commission announces that an examination will be held in Bellefonte, Pa., on Saturday, August 13th, to fill the position of postmaster at all third class offices in Centre county. The examination will not be conducted under the civil service act and rules but in conformity to an executive order issued May 10th, 1921. The offices in Centre county coming under the above ruling and the salary of each one are as follows: Centre Hall, salary, \$1,500. Howard, salary, \$1,700. Snow Shoe, salary, \$1,100. Applicants must submit to the examiner on the day of their examination their photograph, taken within two years, securely pasted in the space provided on the admission cards sent them after their applications are filed. Application blanks may be obtained from any one of the above three offices.

Aspirants for the position of postmaster at any one or all of the above offices should get busy at once. The date of the examination is three weeks from tomorrow and the examiner will be on hand at that time.

Stover-Neidigh.—A quiet wedding at the Reformed parsonage, Boalsburg, on July 7th, was that of Daniel R. Stover, of State College, and Miss Helen M. Neidigh, of Struble, the ceremony being performed by the pastor, Rev. S. C. Stover. The bride is a daughter of Jacob Neidigh, farmer and grain dealer at Struble Station, while the bridegroom is employed on one of the experimental farms at State College. Their many friends wish them a long and happy married life.

Miller-Tubridy.—Mordecai Miller, of the Toll Gate, and Miss Nellie Tubridy, of Moshannon, but who has made her home in Bellefonte for some years, were married on Thursday of last week by justice of the peace S. Kline Woodring.

The exceedingly hot weather which prevailed during the last week in June and first half of July was hard on animal life and almost unendurable by sweltering humanity, but it was great corn weather. In fact the corn fields in Centre county never looked better than they do this year and with a favorable fall season the crop should be a bumper one.

I always buy my shoes at Cohen's—because I can get them for less money. 66-28-11

Academy Road Improvement Fund.

A number of subscriptions have already been received to the fund for constructing a concrete driveway from Bishop street around the curve to the Logan street entrance to the Academy grounds. Other persons have expressed an intention of contributing but have not yet sent in their checks. This project should receive the hearty support not only of the old students of the Academy but of all citizens and business men, many of whom derive financial benefit from the Academy, as it will be a fine public improvement. Its success is assured, but, if the work is to be completed the present season, it is important to begin it soon, and all who intend contributing are urged to do so without delay. A full list of names and amounts will be published, unless contributors request that their names be withheld.

Draw all checks to the order of Miss Olive B. Mitchell, treasurer Academy Road Improvement Fund.

The following subscriptions have been received to date:
