Paid after expiration of year 2.00

## Avoidable or Unavoidable Losses in Railroad Operation.

Ralph A. Smith, president of the Centre county Conservation Association, has sent us for publication the following discussion of one of the great sources of loss in the operation of railroads. Mr. Smith has made a long and very thorough study of forest fires and the sources of their origin. In fact he might be accepted as an authority on that subject in Central Pennsylvania. His opinion is certainly worth consideration, though having no intimate knowledge of the questions he raises we make no attempt to support or refute them.

"In the discussion of the railroad question that is now taking place and which is so vital to our every activity, the question of apportioning losses that are occasioned by proven dishonest, careless and inefficient practices that are costing the public so dearly, should not be lost sight of. If some legislation were enacted charging losses of this kind against dividends, it would not take many dividend periods until we would have an efficient administration. So long as the stockholders get a good dividend, administration is considered good, but let dividends shrink and employees, shippers and the public are immediately called to bat."

"Using the Tyrone & Clearfield and Moshannon Branches of the Tyrone (Pa.) Division of the Pennsylvania Railroad as an illustration, the length of which is given by the Official Railway Guide as 74 miles, a decision of the Supreme court of Pennsylvania just handed down, gives the S. B. Stine Co., of Ocoeca Mills, Pa., a verdict against the Pennsylvania Railroad Co., which with interest and costs of prosecution will amount to \$175,000.00, for loss occasioned by sparks from a carelessly equipped and operated locomotive. The trial of this case showed gross carelessness and inefficiency on the part of the company. In the past few years verdicts have been awarded James H. Minds, of Ramey, Pa., for well on to a million dollars for discrimination in the placing of coal cars. During the past ten years carelessness in the operation and equipment of locomotives and right of way conditions has resulted in the burning of 38,000 acres of woodland (at the rate of 50 acres per mile per year) and with other verdicts awarded, losses, claims or suits brought or pending, with interest and costs, during the last ten years it has cost \$2,220,000.00 or \$222,000.00 per year or \$300,000.00 per mile per year, which the railroad have been called on to pay or which is lost to the public."

"If it costs as much on the other railroads of the country it is costing the nation \$770,000,000.00 per year, for needless acts of administration, not to mention other losses or losses from employees of the minor class, which more or less properly may be charged into operating costs."

"Taking the population served by these two branches and dividing transportation among other railroads, street car lines, automobiles, etc., and the per capita cost is \$11.00 per year for dishonest, careless and inefficient administration."

"High officials resort to practices that are very questionable, causing losses that have to be settled in courts, with great additional costs and it is all charged against operating costs and passed on to employees, shippers and the public, whereas if in the case of proven questionable practices, the loss were charged against the dividend account, the stockholders would purge themselves of these officials, benefitting all."

"If the piece work principle of 'No Work No Pay' that is to put the labor question in better shape, were coupled up with 'Questionable Expenses Charged Against Dividends' it would inspire more faith in the much advertised efficiency campaigns and result in some real efficiency."

## Monster Trout Caught Last Friday.

Al Smith, who lives on Lamb street opposite the old electric light station, caught the biggest trout in Spring creek last Friday ever taken in Centre county. He had a day off from his work at the lime kilns and went down the creek to the old abutments that formerly carried the Central Railroad of Pennsylvania viaduct across the stream. Using bait he had been fishing but a short time when he hooked the fish. He had some difficulty in landing him but finally succeeded and when pulled out the trout resembled a monster shad. It measured 27 inches in length and weighed 9 pounds. It was 31 inches wide across the back and 61 inches deep through the body while the under fin was two inches wide. In circumference the fish measured 151 inches. While the trout was of the brown variety it also had very decided markings of the brook species and was probably a cross between the two. This was probably the largest trout caught in the State this year and Mr. Smith is undoubtedly entitled to the standing reward of twenty-five dollars offered by the State Sportsmen's association for the largest trout caught in the State during the season. The trout will be mounted for exhibition purposes.

E. F. Brouse, of Boalsburg, is a member of the class of thirteen young men to be graduated at the Mont Alto forest academy on Thursday of next week.

MANN.—Mrs. Emma Elizabeth Mann, widow of the late J. Fearon Mann, passed away at her home in Lewistown last Friday morning. She had been an invalid for years and had been confined to bed the past year.

She was a daughter of Robert and Sibella Bell Kinsloe, was born at Lewistown and was 79 years and 4 days old. Her girlhood life was spent at Lewistown, Milroy and Reedsville and it was at the latter place she was united in marriage over fifty years ago to Mr. Mann. The latter was connected with Mann's axe works at Reedsville and in 1875, following the death of Harvey Mann, the family moved from Reedsville to Axe Mann, where Mr. Mann took charge of the axe plant at that place. The following year they moved to Bellefonte and for twenty-three years were residents of this place. While living here Mrs. Mann was a member of the Bellefonte Presbyterian church and was quite active in church affairs. In 1898 the family moved to Lewistown and in 1905 Mr. Mann passed away. Mrs. Mann was the mother of six children, only two of whom survive, namely: Misses Anna H. and Harriet P. Mann, both at home. One daughter, Bella K., died at the age of two years; Ralph passed away ten years ago and W. Harris on April 18th, 1920, and Harvey Jr. in infancy. One brother and a sister, H. C. and Miss Belle J. Kinsloe, of Newton Hamilton, also survive.

Funeral services were held at her late home in Lewistown at 10:30 o'clock on Monday morning by Rev. S. Dickson, after which burial was made in the Church Hill cemetery at Reedsville.

FOSTER.—Thompson B. Foster, second son of Robert M. and Mary Snyder Foster, of State College, died at the Bellefonte hospital on Monday following a two week's illness with lobular pneumonia. His condition from the first was considered very grave and he was brought to the hospital for treatment ten days prior to his death.

He was born at State College on July 27th, 1898, making his age 22 years, 11 months and 27 days. He was an exceptionally bright young man and in June graduated at the College as an industrial engineer. In addition to his parents he is survived by one brother and a sister, Robert M. Foster Jr., of Philadelphia, and Miss Harriet, at home.

Rev. Samuel Martin had charge of the funeral services which were held at the Foster home at six o'clock on Wednesday evening, burial being made in the Branch cemetery.

McDEVITT.—William J. McDevitt died at the home of Mrs. Anna Carson, at Axe Mann, on Thursday of last week following a long and painful illness with sarcoma on the face. He was a son of Gutan and Elizabeth Garrett McDevitt and was born at Stormstown on August 30th, 1858, making his age almost sixty-three years. He was a laborer by occupation and an honest, industrious man until stricken by illness. The remains were taken to Gray's cemetery where burial was made on Saturday.

## Episcopal Church Picnic.

The combined picnic of St. Paul's parish, Lock Haven, and St. John's, Bellefonte, held at Hecla park on July 21st, was largely attended and was one of the most successful of such events in many years. The perfect weather together with the effective carrying out of an extended program, covering the entire day, made the occasion one long to be remembered. Bellefonte won the silver loving cup as having registered the most points in the various athletic contests, while Jim Shope, a member of St. John's boys' club, was awarded a gold medal for being the highest individual scorer, a boy from Lock Haven receiving a silver medal for the second highest score.

About 500 sat down to the picnic dinner served from noon until 1:30, many more going down during the afternoon. Orchestra music for dancing crowded the park pavilion until the serving of ice cream and cake at five o'clock was the signal that the day was drawing to a close, the departure for home being made at about six o'clock.

## Two Prisoners Escape.

Two of the prisoners recently brought to Rockview from the eastern penitentiary made their escape from the new western penitentiary about two o'clock on Tuesday afternoon. They are No. 11597—John McKinney, of Chester county, serving a term of from three to five years, and No. 11374—Robert Riley, of Cumberland county, in on a term of from two to three years.

The men were members of a gang working in an oats field and the guard had been called away to look after some trouble with the wagon hauling a load of oats to the barn. The prisoners took advantage of his absence to dodge into an adjoining corn field and make their escape. The same evening they were seen in the neighborhood of Houserville. One of the men would have gotten out in December and the other had but six months to serve.

A mid-summer electrocution at the Rockview penitentiary took place on Monday morning when Joseph Dubois was put to death for the murder of his wife early in 1920. Dubois was taken to the chair at 7:10 and after three contacts was pronounced dead at 7:17 by Dr. C. J. Newcombe, resident physician at Rockview. The remains were claimed and were shipped to Tunkhannock for burial.

## WEIGHTY VAULT EQUIPMENT

Now on Way to Bellefonte for Bellefonte Trust Company.

When the Bellefonte Trust company building, now being remodeled, is completed and the banking institution back at its old stand burglars, if any should feel so inclined, would be up against all kinds of insurmountable obstacles if they should ever attempt to tap the bank's treasure chest. Practically everybody in Bellefonte saw the pouring of the concrete for the massive walls of the big double vault in the building. And the concrete is reinforced with a net work of inch steel bars. Last week workmen completed the wiring for the burglar alarm system, which consists of a network of wires set against the concrete in the interior of the vault, so that if one wire is broken or crossed the alarm sounds.

Last Thursday the vault equipment was shipped from the plant of the Mosler Safe company, at Hamilton, Ohio, and should reach Bellefonte this week. It consists of two vault doors, the steel lining for the vaults, which is one inch thick, safety deposit boxes and currency and security chests, and some idea may be had of the magnitude of this equipment by the fact that it weighs 49,060, almost twenty-five tons, and fills one car. Just as soon as the car arrives workmen from the Safe company will come to Bellefonte and put the equipment in place. The door of the old vault will be used on the storage vault in the basement, and when everything is in place the vaults of the Bellefonte Trust company will be as absolutely burglar proof as it is possible to make them. This effort on the part of the Bellefonte Trust company to safeguard all money and valuables entrusted to it should appeal to its hundreds of patrons and the public at large.

## How to Peel Onions.

Housewives who intend to exhibit mixed pickles at the coming Mifflin county fair, Lewistown, Pa., August 23 to 26, will shed no tears from peeling onions this year. Many women have declared that they don't like to prepare any fair exhibits that contain onions in them, because the onions make them cry when they peel them. That is because most women do not know how to peel onions. Any one beginning at the roots of an onion and peeling upwards can peel it without a tear. Those in charge of the canning exhibit have tried it out and found it worked like a charm.

A break-all-records display of canned fruits and vegetables and jellies and jams, is expected at the fair. There will be large exhibits of all kinds of women's work, farm products, and live stock. Premiums totalling \$3500 are offered for educational exhibits by the fair.

The entertainment attractions have been obtained from all over the country. They include horse racing, \$5,200 in purses, aviation, fireworks, vaudeville, music, a midway and lesser attractions. It is the most elaborate program of the kind ever put on by the fair.

A premium list telling all about the prizes to be won by exhibitors or educational products at the fair may be obtained by writing to Secretary Russell, and asking for one.

## Close of Trout Fishing Season.

The trout fishing season will legally and officially close at twilight tomorrow evening and any man catching trout after that will be amenable to the law. Fishermen lose the last day of the season this year, July 31st, because it falls on Sunday and the law makes it illegal to fish on the Sabbath day.

Taken as a whole, the season has not appealed to fishermen as a very successful one, not because of the scarcity of trout but because of the fact that for three-fourths of the time, at least, the streams have been so muddy owing to the succession of hard rain storms that fly fishing was out of the question and fishing with bait met with poor results. During the days when the streams were fit some good catches were made, which is evidence that the trout are there if conditions had been right to get them.

But like everything else the season has come to an end and the rod and line will be put away until 1922 rolls around. In due time guns will be brought forth and the man who seeks his recreation in the great outdoors will go on the trail for game instead of patrolling the banks of trout streams.

## Poultry Culling.

Realizing the importance of culling the poultry flock, county agent J. N. Robinson has secured the services of H. D. Monroe, poultry specialist from The Pennsylvania State College, to conduct a campaign to have poultry keepers sell the poor, low-producing hens and keep only the hens that will return a profit.

During the week of August 11th fifteen demonstrations will be given. Every one attending will be given the opportunity to handle the birds and thus get actual experience in culling poultry. In teaching culling the best results are obtained when the farmers actually handle the birds under the direction of the poultry specialist. All those attending the meetings should prepare to handle the hens.

The Centre county teachers' institute will be held in Bellefonte the week of September 5th to 9th, inclusive. This will be the week of the annual Grange encampment at Centre Hall, and Pennsylvania teachers are at a loss as to how they can attend both.

## The History of a Porch.

The removal of the porch from the property on Allegheny street, late the home of Mrs. Mary Wilson Linn, has met with a great difference of opinion; but, as suggested by Prof. A. L. Koehler, head of the architectural department at State College, the present owners thought it would be better to restore it to the original, and the presentation by Miss Mira Humes of the large stone that at one time lay in front of the Humes residence made this possible.

From the history of Centre county it is learned that in April, 1806, Judge Walker, having been appointed to preside over the Fourth district, moved to Bellefonte. After he had been here some years Governor Snyder offered to transfer him to the Northumberland district, but he had proven so popular here the people offered him every inducement to stay. The grand jury in a body asked him to decline Governor Snyder's proposition, and Gen. Philip Benne offered him the money to build any kind of a home he liked, and a lot to build it on. He accepted the General's offer and built the stone building, (the more recent home of the late Mrs. John B. Linn, General Benner's grand-daughter) which he occupied until his removal to Bedford in 1814.

Gen. Benne never lived in the house. His home was always at Rock iron works, now part of the land of the western penitentiary. The General died in 1832 and left this house to his daughter, Mrs. Samuel Hunter Wilson, who occupied it from the death of her husband in 1841 until her death in 1850, and it was during this time that the porch was built which has now been torn away. The porch was of the style of what is known as the Greek revival period in architecture and did not correspond with the colonial architecture of the house.

This house, by the way, was the first in Bellefonte to have gas put through it, being rented at that time from the Wilson heirs by the late Jacob V. Thomas, secretary of the Bellefonte Gas company. Since the death of their father and mother the property has been the home of Miss Mary Hunter Linn and her brother, Henry S. Linn.

Corl-Breon.—Curtis L. Corl and Miss Elsie May Breon, both of State College, were united in marriage at the Reformed parsonage in Boalsburg, on Wednesday of last week, by the pastor, Rev. S. C. Stover. The bride has for some time past been one of the efficient operators in the Commercial telephone exchange at State College while the bridegroom is a son of Mr. and Mrs. Otis Corl and is already making a success as a progressive young farmer. Both parties are well known in their home locality and their many friends extend congratulations and best wishes.

Thomas—Davidson.—Ralph Thomas, son of Mr. and Mrs. D. W. Thomas, of the Branch, and Miss Mary Davidson, of Hickory, were married at Washington, Pa., on July 13th. The bridegroom is a graduate of State College, and is engaged in vocational school work at Hickory, Pa.

Last Friday evening Misses Margaret Cowher and Myrtle Beckwith, both of Bellefonte, accompanied Guy Moyer and James Bland, of Pleasant Gap, on a motor ride out the state highway towards Yarnell. Returning Bland, who was at the wheel, was driving rather fast and in making the turn onto the main road the car upset, throwing the occupants out. Both young ladies were badly cut and bruised and were picked up by a passing truck and brought to the Bellefonte hospital where it was found that their injuries were not critical and after being given proper attention they were taken to their homes. The young men were shaken up but not badly hurt. The car, however, had to be towed in for repairs.

Among the five thousand soldier dead brought last week from France to the United States were the remains of Jack Barry, who was killed in the fighting at Chateau Thierry on July 15th, 1918. The dead soldier is a son of Mrs. Matilda Barry, of Philadelphia, and enlisted for service in that city. He was born in Bellefonte, however, the family having lived here many years prior to moving to Philadelphia and the body, accompanied by the dead soldier's mother, will be brought to Bellefonte on the 8:10 train Sunday evening. The funeral will be held on Monday, and will likely be in charge of the American Legion. Burial will be made in the Union cemetery.

## Marriage Licenses.

Elmer O. Musick and Ruth Shawver, Coburn.

Henry H. Hinton, Howard, and Carrie M. Hoover, Pleasant Gap.

Raymond A. Zeigler, Rebersburg, and Marion V. Kremer, Millheim.

Curtis L. Corl and Elsie May Breon, State College.

Oscar C. Viehdorfer and Rhoda B. Casher, Snow Shoe.

Roy R. Zettle, Spring Mills, and Carrie A. Rote, Centre Hall.

Lloyd Weaver and Amber Crane, Tyrone.

Albert F. Henry, Altoona, and Margaret B. Bell, State College.

Spurgeon M. McCauley and Clara C. Shaffer, Punxsutawney.

The 'Watchman' is in a class by itself—high class.

## Academy Swimming Pool to be Opened August 4th.

Now that the time is rapidly approaching for the opening of the big swimming pool on Hughes athletic field, which will be at one o'clock Thursday afternoon, August 4th, it may interest the public to have certain facts and regulations called to their attention. In the first place, a very great expense has been incurred in the erection of this wonderful pool of concrete, 326 feet long, with a width varying from 90 to 54 feet, and a depth varying from 31 to 54 feet, and the circumstances require. Certain regulations will be rigidly enforced to keep the pond in a condition that will appeal to the scores of good people that will desire to enjoy it.

No one will be permitted to swim in the pool unless an admission fee of twenty-five cents is paid, and that will buy the privilege of swimming during the morning hours or afternoon hours or evening hours. Any one detected in the act of trying to "beat" his way into the pool will not only be dealt with according to law but be barred from the pool for the remainder of the season.

Tickets must be secured at the bath house whence concrete steps will lead to the bottom of the pond. A celluloid disc will be provided that bathers must wear, indicating the day and period of the day which their ticket has provided for bathing. Each day will have a special color and the figure on the disc will indicate the period, 1—morning; 2—afternoon; 3—evening. This disc must be returned to the man in charge when the bath is ended.

The pool will not be open on Sundays.

The morning hours for bathing will be 9-12.

The afternoon hours will be 2-5.

The evening hours will be 7-10.

Every one must take a shower in the bath houses before entering the pool.

Persons throwing stones, mud or other things into the pond will be dealt with in accordance with the law and any one in any way destroying the property about the pool will be punished.

Proper bathing suits must be used. Terms strictly cash, no reductions when several enter from one family, twenty-five cents is the one price. Please leave all valuables at home.

A man will be in charge of the pool who will not only guard the bathers but will give swimming lessons during the spare hours. He will have full police power. Price for a half hour lesson is 50 cents.

Persons detected in trying to use the pool outside of the hours mentioned will be arrested for trespass.

Admission to the athletic field will be free except when athletic contests are in progress.

The Odd Fellows band will furnish the music on the opening day.

It is advisable that as many as possible put their bathing suits on at home because of the expected rush that day.

## Academy Road Improvement Fund.

The fund for the improvement of the driveway through the Academy grounds is not growing as fast as it should be, if the amount desired is to be raised on time. Friends of this old-time institution should send in their contributions at once, so the work can be done before the opening of the Academy. Make all checks payable to Miss Olive Mitchell, treasurer. The fund to date is as follows:

Amount previously acknowledged	\$250.00
Montgomery & Co., Bellefonte	25.00
Sidney Carman, Ravenna, O.	25.00
Kenneth N. Chambers, New York City	25.00
Wm. B. Rankin, Bellefonte	10.00
Conrad High, Reading	10.00
H. M. Bidwell, Bellefonte	10.00
W. Overton Hannan, Wadsworth, O.	5.00
O. C. Rector, Pittsburgh	10.00
Royd Parrish Jr., Washington, Pa.	10.00
Wade King, Oakmont	5.00
	\$375.00

—Have you tried a chicken dinner at the Bush house, every Sunday, \$1.00 per plate? 66-26-47

## CENTRE HALL.

J. Frederic Moore has been ill for a week or more but is now on the mend. Word came to Miss Gertrude Spangler on Monday, that her uncle, the Rev. Bolinger, of Kansas, had died of pneumonia.

Mr. and Mrs. Samuel Crabb and Mr. and Mrs. Thomas Brown motored to Centre Hall on Sunday where they spent the day at the home of C. D. Bartholomew.

Miss Ruth Rockey, daughter of Mr. and Mrs. W. F. Rockey, of Tasseryville, went to Cleveland, Ohio, on Thursday, expecting to be away for several months.

Two of our ministers are away on their vacation at the present time—Rev. C. F. Catherman, of the Methodist church, and Rev. M. C. Drumm, of the Lutheran church.

Miss Mary Kennedy and Mr. Hoy and niece motored to Altoona on Saturday and returned Sunday, bringing back with them Miss Kennedy's niece, Mary Helen Bartholomew.

Mrs. John Rowe, of Atlantic City, started on her homeward way on Monday, from the home of Mr. Rowe's parents, Mr. and Mrs. Samuel Rowe. She will make several stops on her way down.

Penn's Cave is a wonderful attraction prepared by Nature, and draws large crowds every week. Since motor-boats are used for conveying passengers into the interior, the trip is one of much greater safety and pleasure.

Mrs. L. W. Person, of Trenton, and Mrs. Ammon Burkholder, of Phillipsburg, N. J., arrived at the home of their mother, Mrs. E. E. Strohm, on Thursday. They were accompanied by Margaret, daughter of Mrs. Burkholder, and her little friend.

## PLEASANT GAP.

Mrs. Shutt, of Boalsburg, spent a few days with her sister, Mrs. Lesty Gill.

Barney Bilger and daughter, of Bellefonte, spent Sunday with grandmother Bilger.

Carl Griffith and son, of Pittsburgh, are spending their vacation at the George Gettig home.

Several of our men who have been employed at the Titan plant have been laid off for the present.

Misses Helen Glasgow and May McClellan, of Centre Hall, spent Sunday at the M. M. Keller home.

Mrs. Harry Brown and two interesting children, of Tyrone, are visiting with the C. C. Baumgardner family.

Rev. J. B. Durkee is visiting his son William and family, and incidentally having an enjoyable time among his former parishioners.

Miss Emeline Noll, of Philadelphia, spent Sunday at the Gap and had a most enjoyable time among her numerous friends here.

Harry Goodling left on Monday for Long Island, New York, having secured a lucrative position there with a large contracting company.

The P. O. S. of A. festival Saturday evening was largely patronized. It was a decided financial success, the net proceeds aggregating about \$200.

Our road contractors expect their brick for the completion of our state road about August 1st, and then the road should be completed in a very brief time.

Mrs. P. N. Shelly and little daughter, of Port Royal, were visiting among their old neighbors and friends here. The absence of the doctor was regretted on this occasion.

Both of our Sunday schools, the Methodist and Lutheran, will hold their annual picnic on Saturday next. If weather conditions are favorable an immense crowd should be in attendance and a most enjoyable time result.

The McNitt-Huyett Co. have suspended operations on their large lumbering plant in the vicinity of Potters Mills, but fortunately the good work on the Lonebarger tract continues unabated to the satisfaction of quite a bunch of employees at the Gap and vicinity.

Little Miss Margaret Houser, who is unfortunately a cripple, was very agreeably surprised on her birthday last week when about twenty of her young friends made a raid on her and presented her with many useful and valuable gifts. The birthday was quite commendable and highly appreciated by all participants.

The women of Spring township were very reluctant about paying their tax of 15 cents for the year 1920. They will now have to pay \$1.71, making it more worth while. Possibly they will be more expeditious in their liquidations in 1921. Our school board instead of levying a \$2.00 poll tax on the men have reduced one dollar on the men and added the amount on the women. It's about as broad as it's long, as the head of the family, as a rule, has to settle. The women now have a valuation of \$25.00, aggregating 15 cents for county tax, \$1.38 for school, 5 cents for poor, and 13 cents road, all of which they must pay same as men.

## Political Announcements.

### TAX COLLECTOR.

We are authorized to announce the name of T. R. Hamilton, of the North ward of Bellefonte, as a candidate for nomination for the office of Tax Collector of Bellefonte, subject to the decision of the voters as expressed at the Primaries to be held on Tuesday, September 20th, 1921.

We are authorized to announce the name of Herbert Amann, of the North ward, as a candidate for the nomination for Tax Collector of Bellefonte, subject to the decision of the voters as expressed at the Primaries to be held on Tuesday, September 20th, 1921.

## NEW ADVERTISEMENTS.

REAL ESTATE.—J. M. KEICHLINE, real estate operator in Centre county, buys and sells real estate. If you want to buy or sell real estate write to him or call at his office in Temple court, Bellefonte, Pa. 65-28-6m

CELERY PLANTS FOR SALE.—One million plants of the North varieties proven free from hollow stalks so often found in many strains of celery. 50 plants 30c, 100 plants 50c, 500 plants \$1.75, 1000 plants \$3.00. Call or mail your order. If wanted by parcel post add 10c per 100 plants or the person township. J. D. HOUSER, Pleasant Gap, Pa. P. O. address Bellefonte, R. F. D. 3. 66-25-1f

DISOLUTION NOTICE.—Notice is hereby given that the firm of John T. Harnish & Co., has been dissolved by mutual consent. All bills owing to them should be paid promptly to E. C. Miles, at the office of the Bellefonte Lumber company, and all obligations contracted by them will be paid at the same office.

JOHN T. HARNISH, E. C. MILES.

EXECUTOR'S NOTICE.—Letters testamentary on the estate of Nancy Glenn, late of Ferguson township, Centre county, Penna., deceased, having been granted to the undersigned all persons having claims against said estate are hereby notified to present the same, properly authenticated, for payment and those indebted thereto should make immediate payment.

JOHN G. MILLER, Executor, Pine Grove Mills, Pa. 66-26-6f

W. Harrison Walker, Attorney 66-26-6f

## Farmers. Take Notice

I will insure your crops against fire and lightning for six months. J. M. KEICHLINE, Bellefonte, Pa. 66-27-8f

Farmers and Others Take Notice. I will insure dwellings at \$1.00 a hundred and barns at \$1.50 a hundred on the cash plan, for three years, as against fire and lightning. J. M. KEICHLINE, Bellefonte, Pa. 66-16-6m

Ira D. Garman Diamonds, Watches, Jewelry "JEWELRY MADE OVER" 11th Street Below Chestnut, 63-34-6m. PHILADELPHIA, PA.
