THE Z. R-2 BUCKLES AND EXPLODES IN MID-AIR.

Many Lives Lost When the Big Blimp Burns Up.

Hull, England, August 24.—Seventeen officers and twenty-seven officers and men of the British navy met death today in the collapse of the great dirigible Z. R-2 over the city of Hull.

The dirigible had been bought by the United States government for \$2,000,000 and was on its final test flight before starting to fly to its new home across the Atlantic.

Only five men of the 49 who were making the trial trip in the dirigible prior to the vessel's being turned over to the United States navy are known to have been saved.

The British losses include the famous air veteran Brigadier General E. M. Maitland and all the other officers on board, except Lieutenant Wann, the commander of the Z. R-2.

Starting from Howden Tuesday morning on a test flight, to Pulham, the big air craft had been aloft for 34 hours, at times in bad weather, and was returning to the Pulham airfield at the time of the disaster, which constitutes the most terrible of its kind in peace times.

While flying at about 1,000 feet over Hull, spectators saw the Z. R-2 suddenly seem to buckle amidships and plunge downward over the city and into the Humber river.

One theory of the cause of the disaster is that while the ship's rudders were being tested the giant craft took a sharp turn, which caused her framework to buckle and that the explosion of a gasoline tank completed the tragedy of the air.

The actual cause, however, may never be known. A rumor had been afloat for some days that the Z. R-2 was structurally weak, but this was stoutly denied by all in authority.

Charles Nighthart Hurt in Automobile Accident.

On Tuesday Roland Ickoff gave Charles Nighthart his Ford car for the purpose of meeting some one at the train who wanted to go to State College. Now it just happened that the party failed to come on the train and Nighthart and Oscar Ostrander decided to take a little ride.

They drove to Snow Shoe and were on their way to Clarence when they had a blowout, the car swerved, struck a culvert and turned upside down, Nighthart being pinned beneath it. He was soon rescued from his perilous position and after being given first aid treatment was brought to the Bellefonte hospital by John Confer in his ambulance-hearse. He was unconscious most of Tuesday night and while no bones are broken he is badly cut about the face and neck, and at this writing it is impossible to tell just how serious his injuries are. Ostrander was not hurt in the least.

Herbert's Minstrels September 5th.

Joseph Herbert's big colored minstrels will be the attraction at the Garman opera house, Labor day evening, September 5th, and according to all reports Mr. Herbert has a much better show than last year, and every one seemed to enjoy it then; so you can expect a real colored minstrel show. Watch for particulars in next week's paper.

Many Children's Eyes Need Help

Now is the time when the child with weak eyes or defective vision should be brought here for a careful eye examination. School starts next month and for hours every day and often under artificial light during the evenings they will have to pore over their studies.

The child with defective vision is under a severe handicap in school work. The constant strain is particularly telling and makes the child nervous, cross and irritable. Even a slight weakness of the eyes develops rapidly under strain into something far more serious.

Such children need glasses. You may not like the idea, but think of the child's future. Properly fitted glasses will take care of the over-load. If cared for now the weakness may be overcome by the time the children are full grown. If not, the time will soon come when glasses will be absolutely necessary and doubtless have to be worn for life.

It is only fair to children to make an effort to save them from this if possible. If your child was backward at school last year, or now complains of frequent headaches or smarting and stinging sensations of the eyes, the time to have an eye examination made is now—before school opens. Don't delay. It's of too much importance.
