—Tomorrow, October 8th, is the day for the civil service examination of all applicants for the appointment of postmaster at Millheim.

—A big motor bus loaded with thirty-five passengers was struck by a New York Central train on a grade crossing near Philipsburg last Thursday afternoon and turned over on its side. Only two passengers were injured and those not seriously.

—A large sales barn owned by Johiah Pritchard, in Philipsburg, was burned to the ground last Wednesday night. Fifteen head of horses were in the barn but they were all taken out of the burning building. Everything else went up in smoke. Mr. Pritchard estimates his loss at five thousand dollars.

—There was a total eclipse of the sun last Saturday but as it was invisible here the astronomical phenomenon did not attract attention. On Sunday evening, October 16th, there will be a partial eclipse of the moon, visible here, but it will occur early in the evening as the moon sets shortly after eight o'clock.

—Do not forget that the greatest DeMille production, "The Affairs of Anatol," will be shown at the Pastime theatre, State College, today and tomorrow. A matinee will be given today at 2:15 with evening presentations starting at 5:50. Besides featuring twelve of the most popular and prominent stars in the one picture—a new ovation up to this time in picture making, the film is unique from the point of view of story, treatment and magnificence.

"Strong" Eye Sight

is not always proof of GOOD eyesight, in fact strong vision is sometimes due to a form of EYESTRAIN which, if allowed to go unchecked may develop into a serious case of poor vision.

Eyestrain comes on slowly and often exists long before it is markedly noticeable.

Don't take chances with your eyes! YOU SHOULD BE SURE they are rendering the right service. The only wise course, if you are in doubt about your eyes, is to have them examined now.

You may or may not need glasses, but surely the satisfaction of being absolutely certain about the matter is worth something to you.

Your success or failure—in later years may depend largely upon what care you may take of your eyes now.

—While Thanksgiving is still some distance away the average family might be interested in knowing that there is every probability that turkeys will be more plentiful and cheaper this year than they have been in several years. The weather during the spring and summer was favorable for raising turkeys and the result is many nice flocks are in evidence throughout Nittany and Penna valleys, as well as other portions of the county.
