HOOD'S SARSAPARILLA.

Aches and Pains Of Rheumatism

Sometimes They Are Unbearable. There are weather conditions that make rheumatism worse. They are not the same in the cases of all persons. Some rheumatics suffer more in dry, warm weather than in moist, cold weather, but all suffer more or less all the time.

The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints, causing aches and pains. Hence the blood must have attention for permanent results in the treatment of this disease.

Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to try it.

BANK ACCOUNT FOR BABY

Recommended as the Surest Foundation That Can Be Laid for a Happy Future.

What are you doing for your baby's future happiness? Have you thought of opening a bank account for your baby?

These are questions that should be given a thought by every parent, writes Cecelia Anthony in Thrift Magazine.

Many newly born babes are presented with gifts in the form of money. Why not start an account for the baby with this money and watch it grow by making regular weekly contributions, instead of using the money to buy clothes or some other articles?

The weekly deposit of \$1 at 4 per cent interest for ten years will amount to \$638.04; in fifteen years, \$1,075.75, and in twenty years, \$1,601.86. If a deposit of \$3 is made regularly every week for ten years the child will have in its favor the sum of \$1,914; in fifteen years the amount will be \$3,227.25 and in twenty years \$5,378.75.

Of course, as the child grows older he or she will save the pennies, nickels and dimes, and help toward the regular weekly deposit, which will lessen the drain on the parents' pocketbook. In time to come the child will be the sole depositor.

Trade Routes Through Lhasa.

By the trade routes that pass through Lhasa, caravans of sheep, mules, ponies or yaks, laden with wool, hides, cloth, tea-bricks or salt, come and go, arriving generally in December and departing in March before the spring floods.

Better caravan animals than these hardy mules and the small, tough, shaggy horses that also serve as beasts of burden are the yaks. For they can live, if they care, on coarse, stiff pasture, they carry heavy loads, are sure-footed on frozen surfaces and seem not to mind the cold, even when icicles cling to their long black coats and bushy white tails. Then, too, yaks are blessed with horns, on which especially devout Tibetans cut the sacred "Om" formula. As another precaution against attack, the caravan is provided with prayer-wheels and accompanied by nomad dogs. But the owners of the mastiffs are not unfriendly to a stranger of good intent. When they meet one, they pull out their caps, push forward their left ears, put out their tongues and bow politely.—Marietta Neff, in Asia Magazine.

Happy Butterflies.

Upon meeting one of their own species, the tiger swallowtail butterflies will execute a kind of aerial waltz as they flit above, below and around each other in their play on the wing.

Coming out into the open fields, their giddy flight leads them here and there in varied course as they visit the flowerpots of thistles, golden rod and other attractive plants.

Growing thirsty, down they come to some low, flat bank of a sluggish stream, attracted by the presence of others of their kind, and sip away to their heart's content, pausing only now and then for a brief frolic in the sunlight with some other big black and yellow vagabond of their own sort with no more in its bit of a brain to worry it.—American Forestry Magazine.
