tained her bible class, having a membership of twenty-eight young women of the Methodist church, with a chicken and waffle supper at the Nittany Tea Room, Tuesday night. The guests were taken to and from Nittany in busses, the drive and evening there making it one of the most enjoyable social features of the church during the year.

-William Fredericks, one of the most faithful employees of the bor- reduction of the valuation on his propough and who has done most of the erty on west Linn street for the year work in the water department for 1921, owing to the house having been some years, was stricken with paraly- practically destroyed by fire, was sis on Monday morning and the same afternoon was taken to the Bellefonte hospital for treatment. His left side is almost entirely paralyzed and efforts will be made to clear up the trouble by electrical treatment.

-Who would have thought last fall that within a year the price of bushel, but that is just what the But there is no great rush of farmers fact quite a number of farmers in the county have their last season's crop fall when they could have had anywhere from two dollars down.

SMOKESTACK A NUISANCE. Miscellaneous Business Transacted by Borough Council.

Only five members were present at the regular meeting of borough council on Monday evening. Louis Hill appeared in person and requested permission to place a gasoline tank and pump on the street in front of his home on the corner of Bishop and Wilson streets. One of the council stated that he was under an impression that a law had been passed recently forbidding the placing of gasoline tanks under the street or pavement, but Mr. Hill stated that he had received permission from the State Highway Department in Harrisburg. The matter was finally referred to the borough manager and Street committee for investigation and with power.

A delegation of residents of Spring street, with Walter Cohen as spokesman, was present and made complaint about the smoke and soot from the smokestack on the Kern laundry, board almost thirty thousand dollars, which they declared was a persistent nuisance. Mr. Cohen stated that the smokestack is about on a level with the lower rooms of the houses on Spring street and the result is the smoke and soot pollutes the rooms at all times, being at its worst when there is a high wind. He suggested nor offense the officer will punch the as a remedy the raising of the stack card and administer a warning, but a about twenty feet which would clear the tops of the houses. President Walker asked him if he meant by that that the smoke and soot would be carried across the houses on the west side of the street and passed on to the residents on the east side. Mr. Cohen stated that it would probably carry it over all the houses, but in any event he asked council to declare the present situation a nuisance and have the Nuisance committee for investigation and report.
