CHRISTMAS SEAL SALE TO BEGIN TODAY, NOVEMBER 25th.

The fourteenth annual tuberculosis Christmas Seal sale will begin today, November 25th, and continue until Christmas day. A house-to-house sale will be made and seals can be purchased any time at Runkle's drug store, Miss Kate Hoover's shop on south Allegheny street, the "Watchman" office and from any member of the committee—Miss Helen Overton, chairman; Miss Heleine Williams, treasurer; Miss Daise Keichline, Miss Mary Linn, Mrs. Melvin Locke, Elizabeth Meek, Mrs. John Shugert, Mrs. Robert Walker. The seals cost one cent and seventy-five per cent. of all sales goes to the local committee to be expended in our own community in health education or material aid to tuberculosis patients. Money from the seal sale of the past two years has furnished over four hundred tooth brushes to children needing them in the public and parochial schools, purchased a set of scales for one school building, a screen and electrical attachments for a lantern in the other school building, made possible free movies, instructive lantern slide lectures, most attractive posters and literature for the schools, not to mention the performances of the health clown, which have so delighted the children. Give the subject your careful consideration before refusing to buy and use on your mail these little Christmas seals.

Brief Meeting of Borough Council.

Six members of borough council, Messrs. Beezer, Brouse, Cunningham, Fauble, Flack and Richard, were present at Monday evening's regular meeting. In the absence of president Walker Mr. Cunningham was chosen to preside. There were no verbal communications. Secretary W. T. Kelly presented a permit from the Public Service Commission authorizing C. S. Yearick to put down a gasoline tank at the Big Spring garage, subject to the regulations of the borough ordinance.

The Street committee reported a check of \$6.00 turned in by the borough manager for work done on private property.

The Fire and Police committee reported that the fire hydrants had been tested, two repaired and one yet to repair. The committee also reported the collection of \$116.10 on the 1919 water duplicate and recommended that the uncollected portion of the 1920 duplicate be turned over to the borough manager for collection, which was authorized. The committee further reported the collection of \$20.00 for sewer permits.

Mr. Flack, of the Fire and Police committee, submitted a list of articles selected by each fire company to be purchased out of the fund contributed by citizens for new fire fighting equipment, and which is to be turned over to council by the Citizens committee. The list was approved by council and the Fire and Police committee authorized to make the purchase. The committee also recommended the purchase of a new uniform for policeman Yergler, and the same was authorized. Mr. Brouse, of the Sanitary committee, called attention to the unsightly and unsanitary appearance of a number of ash barrels and boxes in front of the Haupt apartments on north Thomas street, and also called attention to the accumulation of rubbish on the falls in Spring creek, and inquired whether it was up to the borough to keep the stream clean, or to Mr. Gamble. The secretary was instructed to notify Mr. Haupt to remove his ash depositories from the street and also request Mr. Gamble to clean the logs and rubbish from the falls.

The Finance committee presented the borough treasurer's request for the renewal of notes for \$1,500, \$2,000 and \$7,000, which was authorized.

Mr. Richard, of the Special committee, presented an ordinance for the regulation and control of the fire department of the borough which was read for the first time by secretary Kelly. It provides for the election of the chief fire marshal by the borough council instead of by the fire companies. One or two additions were suggested and with these included the ordinance will come up at the next regular meeting for final reading and action.

Mr. Fauble suggested that inasmuch as the borough treasurer had not made much headway in the collection of the money due the borough from abutting property owners for the construction of the state highway on Bishop, Spring and Pine streets, he recommended that the bills be turned over to the borough manager for collection, and council so ordered.

Bills to the amount of \$3,051.67 were approved for payment after which council adjourned.

Come here for your job work.

KLING.—Harry H. Kling, who for the past twelve or fifteen years has been a well known character around Belleville, died at the Belleville hospital on Monday night after a brief illness with pneumonia. For several years past he has been night watchman in Montgomery & Co's store, which of course necessitated his sleeping there. He was taken sick early last week but his condition did not become alarming until Monday, when he was taken to the hospital, his death occurring during the night.

Mr. Kling was born in the Russian province of Finland on May 15th, 1863, hence was 58 years, 6 months and 6 days old. His parents were of Jewish descent and very poor. His father died when he was two and a half years old, and at the age of eleven years he took a stock of notions and started forth as a peddler. It took him five years to accumulate five hundred dollars, then he purchased a horse and wagon, laid in a good stock of dry goods and started on his rounds. A few weeks later his entire outfit was stolen from a country tavern leaving him with but five dollars. Friends contributed money to purchase a new stock of goods and again he started out with his pack on his back. At the end of a year, or in 1880, he had saved \$205, when he was compelled to enter the Russian military service. He served five years and on being discharged decided to come to America.

He landed in New York in March, 1885, and for a time made his home with his brother Julius, a fish merchant. In June of the same year he left New York with a pack on his back and made his way to Kantz, in Snyder county, and from there traveled into Centre county. In the spring of 1886 he was housed up at Madisonburg with a serious illness and when he recovered friends again came to his aid and assisted him in the purchase of a horse and wagon. He traveled the county until the spring of 1894 when he opened a general store in Madisonburg. In October, 1897, he married Miss Rachel Paris, of Altoona, and some time later moved his store from Madisonburg to South Fork.

Again hard luck stalked in his pathway and the next time he was seen in Belleville it was with a pack on his back. He peddled notions, etc., a few years but during the past eight years had been with Montgomery & Co. His survivors include his wife and daughter Fannie, living in Altoona, one son, Samuel, in Hollidaysburg, and a sister, Mrs. Jacob Goldstein, of New York city.

The funeral will be held at ten o'clock this (Friday) morning, burial to be made in the Jewish cemetery in Belleville.

WETZEL.—Mrs. Emma Jane Wetzel passed away last Saturday evening at the home of her daughter, Mrs. W. P. Seig, on east Linn street, following a brief illness. She was taken sick on Wednesday and her condition grew rapidly worse until the end.

Her maiden name was Emma Jane Roush and she was born at Freeburg, Snyder county, on July 27th, 1847, hence was 74 years, 3 months and 23 days old. She had made her home with the Seig family for twenty-two years, coming with them to Belleville eight years ago. She was a life-long member of the Presbyterian church and a good christian woman. Her husband died some years ago but surviving her are two children, Mrs. Annie Wetzel Seig, of Belleville, and Charles A. Wetzel. She also leaves one sister and a brother, Malinda Roush and Daniel Roush.

Funeral services were held at the Seig home on east Linn street at 7:30 o'clock on Monday evening by Dr. A. M. Schmidt, and on Tuesday morning the remains were taken to Harrisburg for interment in the Paxtang cemetery, final services being held at that place by Rev. Segleton, of the First Presbyterian church at Steelton.

FRIEZE.—Mrs. Deborah Jane Frieze, wife of Israel Frieze, died last Friday afternoon at the home of her daughter, Mrs. J. B. Sliker, in Juniata, following two months' illness with intestinal nephritis. She had gone to visit her daughter, was taken sick and her condition prevented her removal home.

Her maiden name was Deborah Shilling and she was born at Nitany on October 31st, 1846, hence was 75 years and 18 days old. Most of her married life was spent at Snow Shoe and Milesburg. She was a member of the Evangelical church at Snow Shoe. Surviving her are her husband and the following children: Fred and Allison Frieze, of Turtle Creek; Mrs. John Wetzler and Mrs. Harry Charles, of Milesburg; Mrs. B. F. Brady, of Allentown, and Mrs. J. B. Sliker, of Juniata. She also leaves one brother and three sisters, James Shilling, Mrs. William Cox, Miss Amelia Shilling and Mrs. Robb, of Belleville.

The remains were taken to her old home in Milesburg on Sunday afternoon and funeral services held at two o'clock on Monday afternoon, burial being made in the soldier's lot in the Treziyulny cemetery.

SHAWLEY.—Esther Shawley, the eleven years old daughter of Mr. and Mrs. Harry Shawley, of Yarnell, died at the Belleville hospital on Tuesday morning following an operation for appendicitis. She was brought to the hospital on Monday in a very serious condition and an operation performed the same afternoon. Her parents, one brother, William, and a sister, Beulah, at home, survive. Burial was made yesterday afternoon in the Advent cemetery.

VAN VALIN.—Mrs. Anna VanValin, wife of Dr. C. A. VanValin, of Williamsport, but formerly of Unionville, died at the Williamsport hospital last Friday evening following a prolonged illness with degeneration of the heart muscles. She was a daughter of Mr. and Mrs. William G. Smith and was born at Unionville fifty-four years ago. She was married at that place to Dr. VanValin in 1895 and that was her home until a few months ago when they moved to Williamsport. In addition to her husband she is survived by the following children: Frances, Helen, Carolyn, Ernest, Howard, Forrest, Alice, Myra and Florence, all at home. She also leaves one brother and a sister, Frank Smith, of Unionville, and Mrs. Myra Lewis, of Tyrone. Burial was made in Williamsport on Monday.

LOCKARD.—Benjamin Franklin Lockard, for many years a well known drayman in Belleville, died on Tuesday afternoon at the home of his daughter, Mrs. Seneca Walker, of Belleville, as the result of a stroke of paralysis sustained three years ago. He was a son of John and Nancy Lockard and was born at Monroe Furnace, in Huntingdon county, about seventy years ago. He was married to Miss Margaret J. McClellan in 1873 and she survives with one daughter, Mrs. Walker. He also leaves three sisters, Mrs. William Reed, of Belleville; Mrs. George Marks, of Lewisport, and Mrs. Harry Turner, of Belleville. Rev. C. C. Shuey will have charge of the funeral services which will be held at two o'clock this afternoon, burial to be made in the Union cemetery.

BELL.—Mrs. Julia Bell died at her home in Clearfield last Thursday evening of general debility, aged seventy-nine years. She is survived by one son and a daughter, John Bell and Mrs. Mary Shaffner, both of Clearfield; also a brother, Henry Armagast, of Fillmore, and a sister, Mrs. Geo. W. Rumberger, of Unionville. The remains were brought to Centre county on Saturday and taken to the Meyers cemetery for interment.

A Large White Oak.

Forest Ranger McKinney, of the Penn State forest, has discovered one of the largest white oaks in Centre county, according to a report sent to the Pennsylvania Department of Forestry by district forester Bartschat, of Milroy. The large specimen stands as a corner tree between the Edward Boal, Clifford Thomas and Aaron Detweiler farms, southeast of Colyer. Its measurements are: Diameter at ground, 7 feet, 4 inches; diameter 18 inches above ground, 6 feet 3 inches; diameter breast-high, 5 feet, 6 inches; height, 90 feet; spread, 87 feet. Forester Bartschat says the tree is solid and apparently in excellent condition.

William J. Musser recently purchased two single houses on east Lamb street from Mrs. Christ Decker. The price paid was \$2,000.

The butcher shop of John J. Meyers, at State College, was robbed at noon last Saturday of approximately \$200.00. So far the thief or thieves have not been apprehended.

We would appreciate it if any one hearing of any deer being killed next Thursday, the opening day, would telephone the fact to this office at once.

Since the one cent a gallon gasoline tax went into effect dealers in Centre county have turned \$1,689.72 into the State Treasury, which would indicate the sale of 16,897,200 gallons of gasoline.

The State Highway Department has issued a call for the road supervisors of Centre county to meet in the court house, in Belleville, on February 8th, 1922, for a conference on road building and maintenance.

Governor Sprout on Tuesday appointed Miss Rebecca N. Rhoads, of Belleville, one of the thirty-eight delegates from Pennsylvania to the national law enforcement conference to be held in Washington December 6th to 8th.

Plans were completed early in the week by Miss Mary Cooney's sisters for taking her to Philadelphia, where she could be under the observation of specialists, but her condition became suddenly so critical that the trip was delayed. She now will be taken as soon as able and a room can be secured at the University hospital.

Belleville was well represented at the State-Pitt game in Pittsburgh yesterday. A few people went out on Tuesday, more on Wednesday and about seventy-five took advantage of the special train yesterday morning which conveyed the State College students to the Smoky city. There were twelve cars on the special but they were not all filled when the train left Belleville. It was quite likely, however, that the train was well filled by the time it reached Pittsburgh.

Marriage Licenses.

H. Chester Thompson, Belleville, and Marion C. Hoover, Port Matilda.

Charles E. Miller, Everett, and Louise R. Pendleton, Belleville.

Vincent P. Flynn, Williamsport, and Monica G. Morgan, Snow Shoe.

The "Watchman" gives all the news while it is news.

Two Centre Countians Killed in Auto Accident.

Six people met instant death in an automobile accident at Johnstown at an early hour last Thursday morning, among them being John C. and Arthur L. McKinley, sons of Mr. and Mrs. Harry McKinley, formerly of Milesburg. The six young people were returning home from a party and a young man by the name of Fred Stolle Jr., was driving the car. He had only recently moved to Johnstown and was not thoroughly familiar with the roads and streets. It is generally believed that he lost control of the car as he approached the Woodvale bridge spanning the Pennsylvania railroad, as the car crashed through the guard rail on the bridge and fell thirty feet to the railroad tracks. The six young people, five men and a woman, were buried beneath the ruins of the car.

Two men on their way home from work heard the crash and ran to the scene of the accident but were unable to lift the car. They quickly summoned help and the car was removed, but all the occupants were dead. John McKinley was 28 years old and Arthur 22. They were both born at Milesburg, the family moving to Johnstown some fourteen or fifteen years ago. An elder brother of the two boys and two sisters had also intended attending the party but something turned up Thursday to prevent their going. Had they gone they would have been in the same car. The McKinley boys are survived by their parents, one brother, Frank, a tailor in Johnstown, and four sisters, Ethel, Vada, Irene and Edith, all at home.

The bodies were brought to Milesburg on Saturday where funeral services were held at 2:30 o'clock on Sunday afternoon and both were buried in the same grave in the Treziyulny cemetery.

The Hi Henry Minstrels have just returned from a triumphal tour of the east, including the province of Nova Scotia, New Brunswick, and Quebec, Canada, where they scored the biggest success of any minstrel show on the road. They just recently played at Syracuse, New York, for three days to wonderful business. This popular attraction comes to Belleville this (Friday) evening as a guaranteed minstrel show. Never in the history of local theatricals has such an array of minstrel stars been seen under one management, featuring eight big vaudeville acts; some of them Keith's headliners. Secure your seats in advance.

The "Watchman" has been requested to again call attention to the Elks memorial service which will be held on the afternoon of December 4th. In addition to having secured deputy Attorney General W. I. Swoope, of Clearfield, to deliver the address the committee in charge is arranging for a splendid musical program, really something very good, and it will be well worth hearing. These exercises will not be for members alone, but the public generally is invited and urged to attend.

CENTRE HALL.

Rev. W. R. Picken preached in Tyrone last Sunday.

The schools had a one-day vacation on Thursday, Thanksgiving day. A wee one arrived at the home of W. E. Barges, one day last week. They expect to keep it.

One of our Ladies' Circles gave a poverty social in the old furniture store on Tuesday evening.

The Horner sale in Greensvalley, which was held on Tuesday, was a goo one, amounting to about \$1200.00.

The Thanksgiving sermon was preached by Rev. Kirkpatrick in the Presbyterian church on Wednesday evening.

Mrs. Sara Brungart Getschell, of Youngstown, Ohio, spent a week at the home of her parents, ex-Sheriff and Mrs. Cyrus Brungart, coming home for the annual butchering.

Rev. William Robbins, of Williamsport, preached a most excellent temperance sermon in the Methodist church on Sunday evening. He represented the Anti-Saloon League.

Last Monday about twenty brother Odd Fellows gathered at the home of J. D. Moore and hauled in his corn fodder and raised his potatoes. Mr. Moore has been quite ill with grippe, but is now slightly improved.

The local institute held in Grange Arcadia on Friday was well attended. The evening talk given by principal Drumm, of Lock Haven Normal, was full of practical and helpful suggestions. It was voted to hold another institute in Millheim some time in January.

Essentials.

What do "successful" men think made them succeed? What qualities in other men would they think promised an important and useful future? Perhaps the opinions of no group of persons on such matters could be more valuable than that of the membership of the American Society of Engineers. Fifteen hundred of these key-men of industry answered a questionnaire on "The Eight Qualities Essential for Success." The voting on a dozen or more qualities, worked out in order of the relative frequency of their selection, resulted in this list being preferred by the engineers: character, judgment, initiative, resourcefulness, ability to handle men, enthusiasm, industry, technical training. From this piece of testimony it would seem to be a question of the "man" first, the "engineer" second.

HAD IDEA OF STEAM POWER

Ancients Believed to Have Thought of Its Possibilities—Unfortunate French Inventor.

It is written that the elder Hero of Alexandria, Egypt, recognized steam to be kneaded by the fingers into devices to illustrate its action as early as 130 B. C. It also was believed by some of the engineering experts of the Nile valley that the vocal Memnon, famous throughout the Mediterranean countries, really had its marvel from a simple steam arrangement, by which it fairly whistled its way to fame.

Numerous indications that steam had begun to engage the vagrant thoughts of inventive brains before the Christian era are to be found, but it appears that no one ever made a model of a steam-driven machine, to run on wheels, until 1763, when a Frenchman named Cugnot made such a model. His little engine, with a vertical shaft forward for guiding, looked oddly prophetic of the chassis of a modern automobile. Cugnot's engine was put in motion by the impulsion of two single-acting cylinders, the pistons of which alternately acted on the front wheels. The thing had one virtue outstripping beauty, with which it was not endowed—it ran. It made four or five miles an hour, sometimes. It probably was making five, on a certain day, when it turned a sharp corner in Paris, upset and injured a few of the many who had poured out to see the miracle.

At once the Paris authorities became sure of what they had suspected for weeks, that the devil was in it, and they locked it up in the arsenal, and its history was at an end.

SUCCESS MUST BE PAID FOR

Hard Work and Sacrifice of Many Unnecessary Wants Are Part of the Purchase Price.

The mind is the only force in nature that doesn't wear out with use. Your mind makes your work and your work makes your mind. The more your mind is exercised the greater it grows.

Therefore the business in which you would succeed is unimportant. The one thing to realize is that your mind is a machine which once set in motion along the right lines will make success a certainty.

You want success. It will be yours if you are willing to pay the price for it. And the price is hard work and the sacrifice of all your other wants.

All your habits have been formed by your mind. Most of these habits are waste habits which will never carry you anywhere. Your hard job will be to scrap them and form new habits.

It will be a task of severe discipline to get your mind to "work." But if you have the grit to tackle the job you will in a very short time be conscious of a sense of efficiency which will make easy the doing of the hardest things.—Chicago Herald and Examiner.

Peculiarities of Human Body.

A curious instance of the care and minuteness with which the human body is now studied, in the effort better to understand its powers and functions, is noted in a paper read at a meeting of the Royal Society in London on "The Rapidity of the Nervous Impulse in Tall and Short Individuals." Even the difference in time required for a "nerve telegram" to traverse the bodies of different persons is regarded as a matter of scientific importance. A series of observations has shown that the length of the nerves does affect the velocity with which an impulse passes between the brain and the extremities, and consequently that more time is needed if the path is long than if it is short. It follows that a short man should feel a step on his corns quicker than a tall man, but the difference is so slight that the offender has no better chance to escape in one case than in the other.

Lava Curious.

The largest volcano in the world is that at Kilauea, in the Hawaii islands. It forms one of the principal attractions to tourists visiting the islands, and one of their desires is to procure a lava specimen as a memento of their visit.

All kinds of coins, pocket knives, brooches and other trinkets are thrown into the lava stream near the edge of the crater. These quickly become encased in the molten mass.

After remaining there for some minutes the guide recovers them with a long stick, when they are allowed to cool.

Through the lava the embedded article can be easily recognized, and such souvenirs are prized and carried away as a reminder of the visit to the world's greatest volcano.

Explains Cuckoo.

Can the cuckoo justly be accused of that lack of parental duty which leads her to deposit her eggs in other birds' nests? One is inclined to consider her less harshly when the circumstances are examined. Nature has ordained that to every hen cuckoo born there shall be five or six males. How is she to meet this dilemma, asks a writer in a contemporary? It would, he says, baffle the devices of the most domesticated wife to bring up a family while there are five or six husbands in the house. So she farms out her youngsters and, for the good of her race, philosophically adopts polyandry as her fate.—Chicago Journal.

ORVISTON.

Prof. Thomas Lucas has been visiting at the home of his brother, William Lucas.

Mrs. Mary Spangler and interesting little sons were Saturday visitors at the home of her parents, Mr. and Mrs. J. H. Slatterbeck.

Mrs. Kittie Kuhns, formerly of Gilestown, has been a very pleasant visitor at the home of Mr. and Mrs. William Lucas. She is visiting in Beech Creek this week.

Francis Poorman, who has been quite ill with laryngitis, is some better, but quite unfit for work, as he is still far from strong. We hope to report his entire recovery soon.

Mrs. George Walker is very ill following an operation at the Lock Haven hospital. However, she was reported as improving. Her many friends are hoping she will soon be restored to her little family quite well.

Two festivities for last week were the welcome home to Mrs. W. T. Merrick, and a wool pulling at the home of Mrs. James Heverly. At both places the folks had a fine time and general jollity was the order of the day. A fine lunch was spread at both places. One thing, the folks in Orviston are not in danger of starving, and all are always ready when the dinner bell rings. We Orvistonians are great eaters, believe me.

JACKSONVILLE.

Most of the sick in this community are improving at this writing.

The Misses Lillian and Ruth Fletcher were visitors in our village on Sunday.

Mrs. Resides, of Williamsport, is here helping her daughter, Mrs. Clyde Yearick, prepare for the annual butchering. Mrs. Yearick having been on the sick list for some time.

Mrs. George Hoy and daughters, Kathryn and Edith, and son Samuel, of Howard; Mr. King, of Lyontown, and Miss Mary Mechtley, of upper Marion, were visitors here on Sunday.

WHEN DOWN IN THE MOUTH THINK OF JONAH, HE CAME OUT ALL RIGHT.

Some folks are never comfortable unless they are miserable; they are always down in the mouth and only feel good when telling their troubles to their friends.

Pessimism is a habit of seeing only the gloomy side of life. It is just as easy to see the right side if your vision is perfect. Let me fit you with glasses that will remove the cloud.

DR. EVA B. ROAN, Optometrist, Both Phones.

BELEFONTE. Every Saturday, 9 a. m. to 4:30 p. m.

STATE COLLEGE. Every Day except Saturday. 66-42

NEW ADVERTISEMENTS.
