George R. Mock, et ux, to Philipsburg Community League, tract in Philipsburg; \$1.

Jonathan Auman's heirs to Catherine R. Minnich, tract in Miles township; \$300.

10,000,000 Autos Registered in 1922.

On January 1, 1921, data compiled from all States of the Union showed the country's total automobile and truck registration to be 8,932,458. This figure represented a gain over the preceding year's registration of 1,335,955, or a percentage increase of 17. It is also of equal, if not greater, interest to learn that auto and truck production in 1921 has approximated 1,700,000, which conservatively will place the country's complete registration at 10,000,000 passenger cars and trucks for 1922. While this makes allowance for a discard of only 632,458 cars and trucks for the year 1921, which ordinarily would be larger, it is thought this figure nearly represents the elimination that took place last year.

The famous firm of R. H. Ingersoll & Bro., has been declared bankrupt, with liabilities of \$3,000,000 and assets of \$2,000,000. The Ingersoll "dollar watch" was the first practical cheap watch, superceding the original "Waterbury." Nearly 100,000,000 have been sold, and their tick was so loud that it could be heard the world around. High costs during the war led to increases in the retail prices; the people stopped buying and the company could not meet its debts. A reorganization will try to save the business.

How Tires Wear Out in the Garage.

An inspection of crippled tires in the collection of any repair man will reveal the fact that a larger percentage of the trouble comes from neglect in the garage at home. If stones, ruts and road roughness were the only things that wore out tires, repair bills would be cut in half.

Water, oil, grease and light, rubber's worst enemies, work in a garage more actively than on the road. In washing the car the rims are liable to become rusty and eat away the tire. A coat of graphite or common stove polish will prevent this and keep the tire from creeping.

Oil or grease should never be allowed to stand on a garage floor. Small cuts or bruises on the tire surface, say tire men, should be repaired at once. If a tire has been smeared with grease, it should be washed thoroughly with cold water and a little soap.

The spare tire is often forgotten while the other tires are giving good service and neglect sometimes causes it to deteriorate rapidly. Always it should be protected from rain, sun and dirt by a cover. Once in a while change it with one of the tires on the car so that the rubber will not harden from disuse.

The weight of the car should never be left on a deflated tire. Such treatment is as bad as running on a flat tire and is certain to crack the carcass. Jack up the wheel or take off the tire entirely.

United Telephone Company Reduces Toll Rates.

The rates for long distance calls over the lines of the United Telephone and Telegraph company, and its connecting companies, have been reduced to a pre-war schedule, effective December 21st, 1921.

This means that all messages will be based on a five-minute period instead of a three-minute period as heretofore.

No extra charge will be made for a particular party on calls for which the rate exceeds ten cents. No report charge will be made for information. Special night rates will apply on long distance calls between 6 p. m. and 6 a. m.

Coupon books will be placed on sale in the near future at a discount of ten per cent. for cash. Coupons cannot be used in payment of war tax.

TWENTY-NINE HUNTERS DIE.

Fatal hunting accidents in Pennsylvania in 1921 were exactly what they were in 1915, the first year the State Game Commission began to keep records. The number was twenty-nine and it is an odd circumstance that while non-fatal accidents in 1915 were 199 those last year numbered but 132. The year 1920 was the worst for fatal accidents, the total being forty-three; but the number of the non-fatal accidents was eighty-five, unusually small. In 1918 the fatal accidents were but nineteen, then thirty-five the next year. Eighteen of the accidents with a fatal ending last year were found to have been due to the hunter, while forty-five of non-fatal accidents were classed as likewise killed through being mistaken for game, four slightly hurt through the same error, while nine were killed and eighty-three hurt through carelessness or accidental discharge of firearms by others.

Pound Loaf Bread for Nickel Again, Chain Stores Say.

For the first time since 1916 the pound loaf of bread last week was ordered sold for five cents by one of the largest nation-wide store organizations.

During the last five years, the pound loaf was sold as high as ten cents. Last May it was reduced to seven cents and this was followed by a cut of another cent last September. Since then, officials of the organizations decided, the prices of ingredients and overhead expenses have been sufficiently reduced to warrant the re-establishment of the nickel loaf.

MANY TRUTHS ARE UTTERED IN JEST.

Whether or not the Ouija Board has power to forecast events that may make or mar your future matters little. You are made of the same material as others and you can do what they have done if you so desire, providing you are a hundred per cent. perfect. Take stock of yourself. If you have any deficiencies correct them at once if possible, and you will win.

I Guarantee 100 per cent. Eye Service.

BELLEFONTE.

Every Saturday, 9 a. m. to 4:30 p. m.

STATE COLLEGE

Every Day except Saturday.
