The Wyoming quintette is one of the strongest prep teams in the State, being the champions of northeastern Pennsylvania. The Misses Virginia and Grace McCurdy were hostesses at the March meeting of the Bellefonte Chapter of the D. A. R., held Tuesday evening, March 6th. A delightful musical program, furnished by Ben Witkoff, leader of the Penn State orchestra with his violin and Mrs. H. H. Havener, as his accompanist, was a feature of the evening; the speaker being Charles M. McCurdy, who read a paper on "The Last Crusade," an account of the taking of Jerusalem by the British under General Allenby in 1917.

The old fashioned gripe has laid siege to Bellefonte and many persons have been victims of the disease. Of course there have been no deaths and so far as known at present no cases are critical, but industries have been affected through illness of their employees. The silk mill last week was short in the neighborhood of thirty people. The Pennsylvania Match company and the shirt factory also were short of help. A number of students at the Academy were also afflicted and many people throughout the town are likewise sufferers.

TRAFFIC ORDINANCE TO BE ENFORCED AGAIN.

Tag System to be Adopted to Punish Willful Violators of the Automobile Laws.

Burgess W. Harrison Walker was present at the regular meeting of borough council on Monday evening and reported that he had sworn into office chief fire marshal Robert Kline as well as John J. Bower, chief of the Logan fire company, and Charles Anderson, chief of the Undines. The burgess stated that so far only four or five jitney operators and draymen in Bellefonte had lifted their borough license, according to the ordinance, all the others simply ignoring the matter, and he requested authority to consult with the borough solicitor and take action compelling the lifting of the licenses. Council empowered him to go ahead.

Burgess Walker also complained of the utter disregard of the traffic ordinance on the part of some drivers of automobiles, some of the persistent offenders being drivers of delivery cars, and stated that some means would have to be taken to enforce the ordinance. He called attention to the danger to children of fast driving past the school grounds and also cited the fact that automobilists pay no attention to the requirement not to park cars at fireplugs or in front of the fire houses. The burgess suggested making extra policemen of the fire patrol of the Logan and Undine companies or else calling into service a plain clothes man. President Walker stated that council could not make special policemen of the fire patrol without putting them on the pay roll, and Mr. Cunningham called the burgess' attention to the fact that at his request two years ago council paid out over a hundred dollars for a plain clothes man and notwithstanding the fact that he had a book full of names of traffic law violators not a single individual was called to account and fined. Mr. Cunningham suggested the introduction of the tag system, whereby the police and members of the Fire and Police committee are furnished with tags similar to baggage checks used by the railroads and when a car is discovered parked contrary to the provisions of the traffic ordinance put a tag on the steering wheel notifying the owner to appear before the burgess. The number of the car is placed on the other end of the tag which is turned in to the burgess. It was finally decided to try out the tag system, so all drivers should take due notice.

Mr. Waite asked if there is any ordinance permitting boys to ride bicycles on pavements, as he knew of several instances where it was not only a nuisance but dangerous to pedestrians. He was informed that there is an ordinance prohibiting it and the Fire and Police committee were instructed to have the police enforce the ordinance.

The Water committee reported the collection of \$49.50 on the 1920 water duplicate by the borough manager. Mr. Cunningham, chairman of the committee, stated that the reservoir is badly in need of repairs. That much of the cement has scaled off of the inside of the wall which eventually will result in leakage. He also stated that some ten or twelve residents out near the Jewish cemetery would like to have the borough water. That they will lay the pipe and make all connections without a cent of expense to the borough and then pay the regular yearly rate charged users outside the borough limits. Both the above were referred to the Water committee and borough manager with power. Report was also made that residents of Coleville would like the borough water and will bear all the expense of laying the pipe, etc., and that the people on Halfmoon hill also want the water. These requests were referred back to the Water committee for further investigation.

Mr. Cunningham further reported that the borough manager and himself had been investigating the water pumping system at the Phoenix mill station and found it very inefficient, which accounts for the heavy demand on the electric pump. He stated that a modern wheel could be installed which would pump 270,000 more gallons in twenty hours than the present pump is doing and he felt certain that such a wheel would pay for itself in less than a year in the reduction of the bills for the electric pump. The committee was instructed to ascertain the cost of such a wheel and all data in connection therewith and report at next meeting.

The Finance committee presented the borough treasurer's request for the renewal of notes for \$3,000, \$2,000, \$1,000, \$1,000, \$18,000, \$7,000, \$2,000 and \$2,000, a total of \$36,000, which was authorized.

Borough manager Seibert announced that the motor on the fire alarm is burned out. The motor can probably be re-wound and repaired for approximately \$75.00, while a new motor will cost \$125.00. The matter was referred to the Fire and Police committee with instructions to ascertain if a brake can be put on the motor so as to enable the blowing of signals, and report at next meeting.

Bills to the amount of \$2632.35 were approved and council adjourned.

Geiss' bazaar will be held Saturday, March 11th, at 10 o'clock. Horses, mules, furniture and many other articles not known of now. Be on hand, there may be something you will want. S. H. Hoy, auctioneer.

The seeds are at this office and will be cheerfully given to all who call for them with the good intention of planting the same. Parent Teachers' Meeting.

The regular monthly meeting of the Parent Teachers' association will be held at the public school building, Allegheny and Linn streets, next Monday evening, March 13th, at eight o'clock. Among other things there will be a very instructive talk by professor N. D. Hubbell, of the Pennsylvania State College, on "Intelligence Tests." This is a very important subject and is now being studied by our teachers under the guidance of Professor A. L. Rhotan, of the Pennsylvania State College; and it should be brought to the attention of the parents as well. It is hoped that there will be a large attendance of both parents and teachers and all persons interested in education. Refreshments.

The annual meeting of the Centre County Conservation Association to be held at State College March 16th, at the University Club, will be an important meeting. Camp Sites for Junior Organizations.

The Department of Forestry has started plans to encourage wider use of the State forests this summer by the junior outdoor organizations of Pennsylvania. Efforts will be made to have them take up permanent camp sites in the forests, and the district foresters will co-operate with the leaders of the organizations in the selection of desirable camping grounds. For the benefit of the boys and girls of the State, the department is preparing a guide to forestry, which will be published and issued early this summer. Copies will be distributed free to all applicants.

Some of the leading boys' and girls' organizations to be reached by the department are the Woodcraft League, Knights of St. George cadets, the Boy Scouts of America, campfire girls, girl guides, American forestry guides, and kindred groups.

COME TO THE AUTO SHOW.

Will be Held in Bellefonte Armory Next Week, March 14th to 18th.

Prospective buyers of new cars this year cannot afford to miss the big automobile show to be held in the armory, Bellefonte, Wednesday to Saturday of next week inclusive. Practically every available foot of space has been taken and the exhibit will include all the new models with all the new prices. There will be touring cars, sedans, coupes, roadsters, trucks and tractors. These, with various automobile accessories, will make up a display equal to that of any inland show in Pennsylvania.

In addition to the auto exhibit there will be plenty of side entertainment to occupy the time of all visitors. There will be music by a full orchestra, a male quartette, vocal and instrumental solos, and light refreshments. Prizes will be awarded daily and all paid admissions will have a chance at these. Only a nominal admission of twenty-five cents will be charged, and this small sum need not keep anybody away. Remember the show will open Wednesday morning and continue until Saturday evening. It will be held under the auspices of the recently organized Centre County Automobile Dealers' Association.

Bryan to Talk on Politics.

The fascinating game of politics, which he has played with perhaps more variation than any other living American, will be the subject of the talk to be given by William Jennings Bryan in the auditorium at State College next Wednesday night, March 15th. No other of the many subjects Mr. Bryan speaks upon would be more interesting to a Centre county audience than this, in the opinion of many who plan to hear him. He will appear at State College under the auspices of the Phi Kappa Phi honorary society, the sale of tickets being in charge of professor I. L. Foster, at the College.

Indications are that many people from Bellefonte, Centre Hall, Millheim and Philipsburg, as well as the outlying districts, will attend the lecture, for it is not often that the opportunity to hear the silver tongued orator is presented in this section. The lecture will start at 8 o'clock in the evening and be over in time for motor trips home the same evening.
