Community Playground Now Practically Assured.

playground association has progressed so far that success is now practically assured. As stated two weeks ago the Bellefonte school board cheerfully granted the use of the High school grounds for the summer vacaand material for the playground equipment have been very generous so far, although the fund is not up to the desired amount. But the playground seems to have struck such a popular chord that those in charge of the movement feel confident that all

the money needed will be contributed. It was the original intention to have the grounds in shape by next week, when the public schools will close, but for very good reasons the opening has been postponed until a week later. By that time it is hoped to complete the organization of the Association, which will include a board of directors and all necessary officers, and have all the equipment on the ground. The purpose is to furnish a play ground where children under the age of fourteen years can engage in good, wholesome play and be under the constant care of a competent directress. Complete details of the scheme, with hours, etc., will probably be at hand for publication next week.
