POLITICS AND THE LIQUOR INTERESTS.

By Margaret H. Barnett.

During the campaign which preceded the recent primary election, a re-port was circulated that large quantities of liquor were to be used in some of our large cities, to furnish political arguments.

In commenting on this report, prominent daily used the phrase, "Recalling the part which liquor and liquor money have played in past elections.

This phrase, which is used in a very matter-of-course way, is a serious arraignment of the voters of the Keystone State. But little evidence is required, however, to prove its truth.

One need not be the "oldest inhabitant" to remember the days when a "free bar" in a town, was a recognized campaign measure.

Those not yet of legal age to cas

mately five dollars for every dollar of revenue received from the liquor traffic; and that 90 per cent. of the inmates of the almshouse were there because of strong drink. The Board of Public Charities of the State in one of its reports made a similar statement. The Legislature of 1913 appropriat-

toxicants cost the county approxi-

ed \$2000 for the purchase of a site for a home for inebriates, and the Legislature of 1917 appropriated an additional \$200,000 for the home. One of the dailies of the State in a recent issue made this significant statement: "Scarcely had the purchase of the land been completed when the prohibition amendment was added to the federal constitution, and plans for the insti-tution halted."

Inebriates are the natural and usual result of the licensed saloon; they are its finished product. Pennsylvania, left to herself, it seems, would have continued to make inebriates, and build homes in which to care for them. Such a course, considered only from the economic standpoint, is the extreme of folly, and the economic side is the least important phase of the liquor question.

These testimonials to the liquor traffic are all from Pennsylvania sources. In view of them it certainly cannot be a matter of State pride that Pennsylvania was one of liquor's last strongholds in the United States, continuing to license the saloon when twenty-six States had State-wide prohibition, even before national prohibition came, and all the rest but four were partly "dry" under local option laws, some of them 50 to 75 per cent.

It cannot be pointed to with pride that the Brooks High License law is still on the statute books of the State, and that the only prohibition enforce-ment act is the Woner Act, an amendment of the Brooks law. Attorney General Alter, who drafted the Woner Act, disclaimed responsibility for it, and Representative Woner, who introduced it in the House, made his campaign for re-nomination as a candidate for the Legislature on his repudiation of the Act which bears his name, and which a prominent daily calls "The most vicious piece of State legislation passed in our day." The results of the unholy alliance

between politics and the liquor interests have not been gratifying. Why should such an alliance be allowed to continue? It has been broken to a great extent by national prohibition. It remains for the voters of the State to end it altogether.

The Woner Act is but a legal camouflage behind which boot-legging flourishes. Let the voters of the State investigate carefully where candidates for the Legislature stand on prohibition enforcement, and vote according-

the matter up and naturally the news- christians! papers featured the story, charges being made that a large sum of money was spent to obtain Ginsberg's release. No reflection, however, was made upon the courts in connection with the expenditure of the money, but so intense was the feeling created that Judge Quigley was summoned to Philadelphia on Monday to preside at an inquiry as to whether Ginsberg was entitled to parole, and whether there was any big sum of money expended to secure his release.

Judge Quigley sat on the bench seven hours on Wednesday hearing evidence in the case and being satisfied that there had been misrepresentation in the petition for Izzie's release revoked the parole and sent him back to GARNER .- Samuel Garner died at the county prison to serve out his three year's sentence.
