Exceptional Musical Program Coming

There is no class of music more beautiful, more helpful, more inspiring, more uplifting, and con-tributed to more bountifully by the world's greatest music masters, than that which is composed to be sung during services of divine worship.

Considering that the opportunity to hear these wonderful composi-tions rendered by a body of trained singers is far too rare in most communities, the Dunbar Philharmonic Choir is presented at the Chautaucua, not only as a company of artists to entertain, but as a suggestion of a choir ideal; such an organization as might appropriately adorn any sacred portal. In presenting these artists it is hoped that wherever they appear, they may inspire a desire for more beautiful music in the worship of God

The repertoire of the Philhar-monic Choir includes a number of the short, modern oratorios by such composers as Buck, Stainer and Schnecker, one of which is rendered at each performance, this being the first company in the his-tory of the Chautauqua to offer such works in their entirety. The programs also include a number of old hymns, the interpretation of which is a special feature. As a fitting contrast to the sacred music, and by way of furnishing a striking climax and finish, the company is heard in a number of secular solos, duets, quartets and choruses of a very high order, finally closing with a grand finale, "Cavalleria Rusticana.

BIRTHS.

Musser-On July 3, to Mr. and Mrs. Lester Musser, of Bellefonte, a son, William Jacob.

Wm. Penn Highway Celebration.

The stretch of the William Penn highway between Tyrone and Huntingdon has been completed and a formal opening will be held at the Pemberton bridge, five miles east of Tyrone, on Thursday afternoon, July 27th. Gov. William C. Sproul will be the principal speaker and addresses will be made by representatives of the State Highway Department, the Pennsylvania Railroad, and the county commissioners of Huntingdon and Blair counties.

The completion of the bridge, which is one of the most beautiful on the William Penn highway, opens to the public a scenic route unsurpassed by any in the central part of the State.

The celebration will be in charge of committees representing the communities of Tyrone, Huntingdon and Altoona and will be the largest and most interesting road opening ever held in Central Pennsylvania.

LEMONT.

Sara Lenker and Beatrice Shuey are on the sick list.

Orin Grove's family are visiting at the home of his father, William E. Grove.

The farmers are almost through harvesting their bumper wheat and hay crops.

The fine rains Monday and Tuesday will help the growing crops. The corn and oats are looking fine and promise to be big crops.

James I. Thompson has a crew of men working at the old Center Fur-nice mill, changing it into an ice plant and cold storage.

A gang of men started in this week in earnest to build the new piece of road from Center Furnace to State College, which will take the big curve out at that place.

The school board of College town-ship has elected the following teachers for the ensuing term: Dale—Helen Bathgate.

Houserville-G. W. R. Williams. Lemont Grammar-Miss Johnston. Lemont Primary-Margaret Glenn. Oak Hall-Nellie Peters. Branch—To be supplied. Center Furnace—Ethel Houtz. Pleasant View—Helen Emenhizer.

Worm wheels or gears of a new material are a recent development, says the Scientific American. Such wheels Mrs. James C. Rimmey, of Pleasant have mainly been made of steel or iron or bronze, but now, for certain purposes and under certain conditions, they are being made of duralumin. This alloy has never before been used

Wheels or Gears.

as gears. Duralumin is an alloy of aluminum, magnesium, manganese and a little copper, and its strength and toughness can be made equal to mild steel, and for a given section the weight is onethird that of the continental bronze. Superior strength in the teeth is assured by the alloy's tensile strength and elastic limit.

The same properties that make duralumin a suitable and desirable material for worm wheels also make it valuable for spur gears and other gearing.

Where duralumin can be run with steel rather than against itself the best results are obtained. For example, in the timing gear trains of automobile motors, where both long life and quietness are essential, helical cut spur gears of duralumin alternated with steel gears have been in successful service.

London's Infamous Slums.

The slums of London, especially in Shoreditch and Bethnal Green, have scores of householders who have not had to pay any rent for two or three years and have not the remotest idea of who their landlords are. The landlords dare not come forward and admit that they own these houses, which are in a shocking state of repair. The property is now a liability rather than an asset. These tumbledown houses have mostly fallen into the hands of foreigners and change hands so frequently that track is lost of the former owners. The queen was shown some of the worst of these places by the mayor when she visited Shoreditch recently. She had expressed a wish that nothing should be "tidied up" beforehand. In two rooms of one ramshackle dwelling in Wilmer gardens lives a man with no less than nine children.

His Affliction.

A new disease has been discovered -at least so one of the workers of the Pittsburgh chapter of the American Red Cross reports. It developed the other day when a veteran called for aid. "What can we do for you?" anx-

lously inquired the worker as she looked into the rather dejected countenance of the World war soldier. "I need some assistance."

"What does your doctor say is the matter?

"I dunno just what it is, but he says formation of the diagnosis." An effort is being made to ascertain the nature of this new ailment .-- Med-
