—Dr. Herbert Bryson, who early in the summer killed Mrs. Helen Irene Haines at their "love nest" at Cassville, Huntingdon county, was convicted of murder in the second degree after several days' trial in court at Huntingdon last week. The evidence in the case disclosed the fact that the doctor and Mrs. Haines were not married but simply living together as man and wife. The doctor was sentenced while in service during the world war and alienists and many others testified that he was not responsible for his actions. An appeal has been taken for a new trial.

—The Penn State football team opened the season on Saturday by defeating St. Bonaventure 54 to 0. ### Farming is our basic industry

Prices of food-stuffs are determined by foreign markets, for our surplus stock is sold abroad. We cannot sell abroad unless we buy—there must be an exchange of goods. Hence legislation that tends to lessen foreign trade operates directly against the farmer.

Swift means of communication have brought the world so close together that no nation can rely on itself alone.

Poverty in Europe means dull times here. We must buy abroad if we hope to sell.
