Resolutions of the County W. C. T. U. **Convention.**

The Centre County W. C. T. U. convention held in Philipsburg, September 14th and 15th, was well attended and very helpful. Much good work was reported and done the past year and much outlined for the coming year.

The prominent speakers were Mrs. Culla J. Vayingher, national W. C. T. frozen north, promenading down the U. director, Americanization and expresident of the Indiana State W. C. T. U.; Dr. Arthur Holmes, ex-president of Drake University, Iowa, and now dean of men at the University of Pennsylvania, and prohibition director Davis, of Philadelphia. All the general officers were re-elected for the coming year, as published in the "Watchman" two weeks ago, and the key note of the convention was "more spirituality and the return to the family altar and increased study of the Bible." The following resolutions were adopted and the convention closed with all standing in a huge circle the Tie that Binds," ending with a prayer by Mrs. Vayingher.

Resolved, That in this day of mad seeking after pleasure and decline in spiritual life manifest on every hand, we urge that persisent effort be made to se cure a deeper study of the Bible and a revival of the old-time family altar and that our motto for the year be "Back to the Bible, back to the family altar."

That since the standard of excellence is a good way to bring up the work and gain recognition, we urge that all locals plan, early in the year, to reach all points and thus secure the prize awarded.

There never was a period when our gov ernment so needed the intelligent support of every citizen as today; we urge organization of classes on christian citizenship in every local union.

Realizing that the help of the young people is needed if the temperance work is to grow, we pledge our hearty support and co-operation to the county secretary of the Y. P. B. and put forth special effort to enlist the young people of Centre county in temperance work.

We wish to emphasize the fact which has been scientifically demonstrated, that alcohol is a poison and urge anew the

With thirty-two organizations working to repeal the Eighteenth amendment, every woman should be alert, demanding efficient enforcement and upholding the efforts of honest officials in their work for civic righteousness

That our members attend faithfully to their political duties, both on primary and election days.

That they seek enlightenment through every agency that they may meet the violators of the law intelligently and teach them that the law is the schoolmaster that brings them to God.

That we stand for peace and are opposed to war and pledge our support to every effort that is made to bring about world

That we urge our local unions to hold live, wide-awake meetings with programs that will challenge every woman to a worth-while effort to increase the membership of the Centre County Woman's Christian Temperance Union.

That we are grateful to the white ribboners of Philipsburg, to the press, to the speakers, to those who sang so beautifully, to all who have aided in the success of this convention. We thank them heartily for every courtesy shown and pray the blessing of the Heavenly Father on all.

Warning Against Typhoid During Low Water.

From the State Health Department. Pennsylvania has escaped severe outbreaks of typhoid fever in the last two years largely because wide knowledge of the ways to prevent the disease has been scattered broadcast. The prolonged drought is giving health authorities and water companies throughout the State much con-cern, and the State Health Commissioner has issued a warning against the use of water from untested sources without first boiling it. He said:

"Wells and springs noted as never failing sources of water supply are going dry. This means that many families are forced to use water from untested sources, which may be pol-luted with typhoid fever or dysentery

germs. "Where this has happened, boil for 10 minutes all water used for drinking purposes; for cleansing the teeth or rinsing the mouth; for washing fruits or vegetables which are eaten raw. The flat taste can be removed from the drinking water by pouring it back and forth from one open vessel to another after it has cooled.

"When the rains arrive they may wash accumulated impurities into wells and springs, so do not stop boiling the water as soon as the regular supply is replenished. Pump the well until the water in the pit has been changed two or three times. Clean out the spring and see that the walls and cover are tight, and allow the water to run off for at least twentyfour hours before using it for drink-ing purposes."
