Interesting Items of Bellefonte Y.

The Y. M. C. A. junior group contests for boys from 10 to 13 years has been organized with some forty members. These have been divided into four groups named for universities, as Penn, captained by Alan Katz; State, by Mallory Knisely; Harvard, by Norris Larimer, and Yale, by Donald Conrad. These teams will have contests twice a week for eight weeks, at the close of each physical educational class period, in such sports as relay races, basket ball, baseball, volleyball, high and low jumping. The standing of the teams to date is as follows: Penn, 15 points; Yale, 10; State, 10; Harvard, 5.

The Y basket ball team has begun a

season of hard training under director Mentzer. The squad includes Clemson, Thompson, Herman, Kline, Lyons, McClure and Noll, all old players and most of whom were captains on college and school teams. Efforts are now being made to arrange a schedule which will include games with teams in the leading towns in the central part of the State. Junior and student teams have also begun practice and

basket ball promises to be the leading winter sport.

The bowling committee is busy lining up the different teams for the bowling league. The alleys have been entirely overhauled by experts at an expense of over \$400, and are now in good shape. The schedule of league games will be made up next week and the season will open on or about November 15th.

ACCURACY in ACCOUNTING

Every month nearly 700 telephone bills are rendered from the Accounting Department of the Bell Telephone Company to Bellefonte subscribers.

Within the memory of persons still living the word "accounting" brought up a picture of a man on a high stool writing with a quill pen and using sand instead of blotting paper. But the telephone belongs to a newer era, and telephone accounting is as modern and as accurate as is humanly possible.

The men and women who do the accounting work are careful and take every precaution to avoid mistakes.

For they know that errors sometimes cause misunderstandings.

When mistakes do occur—and they are bound to occur once in a while—every effort is made to adjust them.

To adjust them courteously.

For in the accounting, as in every branch of the telephone organization, the Bell people work with the idea constantly before them that *courtesy pays*.
