PLEASANT GAP.

Mr. and Mrs. Paul Keller and daughter are guests at the W. H. Noll

Mrs. Philip Seaman and daughter Mary Elizabeth, of Asbury Park, were visitors at the Hugh Crumlish home the past week. Mrs. Seaman is a sister of Mrs. Crumlish.

A surprise party was tendered Mrs. Ammon Kerstetter last Friday evening, at the Kerstetter residence. It proved a genuine surprise. Twenty guests enjoyed the interesting occasion. Mrs. Kerstetter thinks Mr. Ammon was the sly instigator.

Mr. and Mrs. Ammon Kerstetter, accompanied by Mr. and Mrs. William Kerstetter, drove over to the Seven mountains with a view of inspecting their hunting camp and to have every-thing in an inviting shape for the opening of the hunting season Decem-

ber 1st. Last Saturday evening twelve guests were present at the H. J. Griffith home, to celebrate the 8th birthday of their daughter Betty. White and yellow was the color scheme; one dozen each, of white and yellow chrysanthemums was the table centre piece. Betty was the recipient of many lovely and useful presents, and was highly elated over the most agreeable events of the evening.

Pleasant Gap is surely highly favored in a business point of view. We have three milk dealers supplying the public with milk daily. We have two butchers, two garages, not side-shows but legitimate garages. They will sell you a machine or repair the same any day of the week, Sunday not excepted. We also have two good general stores, both succeeding admirably well. The only thing we are deficient in is a blacksmith. We have a well equipped blacksmith shop but no blacksmith to operate it.

A lady propounded the following question to me. Why do people smoke? Because they want to. This smoke? is probably as satisfactory an answer as can be given to this oft repeated question. Why did they ever begin to smoke? It would be more interesting to trace the habit to its origin, but unfortunately there are no very reliable records from which to gather the desired information. Will they ever quit? No fellow can find out. However, the strong probabilities are that man will smoke as long as tobacco grows on the face of the earth, or until semathing better can be discounted. ed. Tobacco is a queer sort of weed anyway. The excessive use of tobacco in any form cannot help being more or less harmful. About all that can be said in its favor is that it affords a great deal of satisfaction to these atmosphere of a room, and entails unfilthy than smoking, but not as ex-pensive. Physicians differ in their opinions as to which is the more

wise as it may be, and one of these is why women are not humorous. They enjoy fun to its fullest extent, and are the best patrons and friends of funny men; yet, when they come to write, Kyle Osman at the wheel, motored they are almost universally sentimental, prosy, and heavy. Probably more than half the books written by women are negative in character; that is, they are devoted to finding fault with the existing state of affairs rather than to pointing out and advocating a better The remainder of their books are made up of poetry, fiction, cookery and such like. To say the man who put in a temporary that women are not witty, is to offend the entire sisterhood; therefore, it were better left unsaid. Indeed, it miles while the new county bridge is would not be strictly true if it were said, although there is but little on record to show that any of them have ever distinguished themselves in that way.
