All the good ones will be shown at the Scenic.
The Last Resort tea room, which was opened so auspiciously, on Armistice day, has since that time continued its success. With a unique housing, a clever hostess, excellent food and reasonable charges for the food, there can be nothing but a bright outlook for the future of this undertaking. Miss Valentine, whose tea room is located directly above the Brant house, on Allegheny street, is very glad for local patronage, but will cater especially to tourists.
William R. Cooke, of Llanerch, has been elected president of the board of commissioners of Haverford township at the meeting of that body early this month. Mr. Cooke is an old Bellefonte boy, a brother of E. C. Cooke, of this place. The office is quite an important one, for in the thickly populated suburbs of Philadelphia, township business is as varied and voluminous as that of many of our cities. Mr. Cooke has been a member of the board for six years.
Last Thursday afternoon the compressed air tank in the basement of J. O. Heverley's auto supply store exploded with sufficient force to shake the whole building. In fact it broke one joint and cracked the glass in two of the windows. The tank stood on end, the top of it being against the joint. It was being filled with air at the time and although the automat was set for 180 pounds pressure the explosion occurred at 145 pounds. The entire bottom of the tank, which was brazed on, blew off, and thus the most of the force was downward. While the noise of the explosion was considerable, fortunately no one was in the basement at the time of the explosion.

MILK ORDINANCE ON TAP.

Considerable Business Before Council on Monday Evening.

Eight members were present at the regular meeting of borough council on Monday evening. A written communication was received from James C. Furst Esq., requesting exoneration of water tax on the Mrs. Hiller property, on High street, from October 11, 1921, to date, and thence until the property is again occupied. Mr. Cunningham called attention to the fact that a resolution passed two years ago provides that no exoneration be granted on water tax. The matter was referred to the Water committee.
Regarding the State Board of Health's request for a bacteriological analysis of the water in the big spring secretary Kelly reported that the borough manager had communicated with the department of chemistry, at State College, and the officials there agree to collect their own samples and make the analysis for five dollars, and the borough manager was instructed to have them do so.
Ambrose Ray, of east Howard street, requested council to fix the water hydrant at his place so it will not freeze up during the winter. Referred to the Water committee.
An application was received from Edward W. Kane for appointment on the police force. On recommendation of the Fire and Police committee he was elected to continue on the force as long as his services are deemed satisfactory.
Secretary Kelly reported that an adjustment had finally been made with the State Highway Department for the borough's share of the cost of repairs on Allegheny and other streets, the amount being \$958.41, and he was instructed to send an order for that amount.
At this juncture in the proceedings L. A. Schaeffer made his appearance and complained about the lack of a decent crossing between the properties of Mrs. M. B. Garman and Frank Crawford, on east Curtin street. The borough manager was instructed to fix it, at least temporarily, before winter sets in.
Mrs. Harry Haag asked that a light be placed near her home at the corner of Penn street and alley. Referred to the Street committee.
At this juncture in the proceedings attention Council to the fact that State College, along with all surrounding towns, is about to pass an ordinance governing the sale of milk within the borough and he advised that Bellefonte council do likewise. He presented the draft of an ordinance recommended by the State Board of Health, which, however, can be changed or modified to meet local conditions, and urged council to give it serious consideration. On motion the matter was referred to the Sanitary committee and borough solicitor to prepare an ordinance applicable to Bellefonte and submit it for consideration.
The Street committee reported the receipt of \$72.58 from the State Highway Department for the use of road roller.
The Water committee reported the collection of \$150.85 on the 1921 duplicate and that old scrap iron to the amount of \$100.61 had been sold to the Sutton-Abramsen Engineering company.
The Fire and Police committee reported a contribution of \$33.00 from residents of Hublersburg as an appreciation for the good work done by the Logan fire company on the occasion of a recent fire in that place. The committee also suggested that the borough manager make a test of all fire-plugs before cold weather sets in.

Mr. Cunningham reported that the new water wheel is now in place at the Phoenix mill pumping station and its efficiency is approximately twenty-five per cent. greater than the old wheel, which should result in a considerable reduction of the electric pump bills.
Regarding the request of the Krader Motor company for permission to close up the rear of their building on Howard street with a temporary structure and construct a driveway into the same, the Special committee recommended that the same be granted, and it was so ordered.
President Walker called attention to the fact that the trustees of the Pruner orphanage have recommended that the balance in the hands of the treasurer received from the sale of lands, amounting to \$3650.00, be invested in Liberty bonds, and that instead of having the bonds now owned by the orphanage and those to be purchased registered, that the treasurer be required to give bond with a reliable bonding company to the full amount of all bonds in his possession. The recommendation was approved by council.
Mr. Hazel called attention to what he considered a dangerous condition in the rear of the Bellefonte Hardware company's store where there is an accumulation of rubbish, empty oil barrels, etc. The matter was referred to the Fire and Police and Sanitary committees.

Deer Hunting Season Will Open a Week from Today.

Just one week from today, or on Friday, December 1st, the deer hunting season will open in Pennsylvania and several days prior thereto there will be a general exodus of Centre county hunters to their favorite camps in the mountains, and likewise a steady influx of hunters from every section of the State. Most of the hunting clubs have their regular camps and occupy them year after year. The parties include practically the same men and they know every trail and every hiding place of the deer, so that a buck with a visible rack of horns stands very little chance of escape if it gets out from under cover within gunshot of the watchers. Many deer have been seen in all the mountainous sections of the county during the summer and there is every reason to believe that the two weeks season will yield good results to the energetic hunters. Bear are also reported more plentiful this year, but they are a wily animal and hard to shoot.
HUNTING NOTES.
C. A. Dunlop and F. L. Kendig, of Pittsburgh, spent last week down Nittany valley hunting small game. They were successful in bagging quite a number of pheasants and rabbits and engaged a man to bring them, their game and equipment to Bellefonte. Motoring along in the neighborhood of Hecla park, on Thursday evening, a tire came off the machine with the result that it ran into the ditch. Mr. Dunlop was thrown out and the ligaments in one of his legs were torn loose. He was brought to Bellefonte and after spending the night here was taken to Pittsburgh on Friday morning.
Some ten days or two weeks ago four hunters from Pittsburgh, in a new Chevrolet car, arrived in Bellefonte and after filling up with gas and oil started down Bald Eagle valley. They carried a full complement of camp equipage and almost a week's supply of food, and as they were motoring along the Lingle place below Milesburg their car caught fire. In fact flames seemed to envelop the entire car and the men were compelled to jump and run to save themselves. Without any means of fighting the fire they were compelled to stand by and see their car and all it contained go up in smoke. This included their guns and ammunition, and there was a regular fusillade of discharging cartridges while the machine burned.
During the latter part of the week both Collins and Philip Shoemaker were successful in bagging wild turkeys with the result that a wild turkey dinner was served at the Shoemaker home on west High street on Sunday.
On Saturday Lester Sheffer, of Millroy, superintendent of the National limestone quarries, at Naginny, walked into the woods above the quarries and shot a wild turkey in less than half an hour and the Sheffer family had turkey for dinner on Sunday.
The Bellefonte Business Men's Association will hold a live stock sale on Nov. 29, and you will be guaranteed satisfaction.
Posting Lands with Trespass Notices.
It is reported on good authority that many farmers and land owners in Pennsylvally, especially the lower end, are posting up "no trespass" notices as a warning to hunters to "keep off the grass." It is also reported that this action upon the part of the land owners was precipitated by an incident which occurred during the deer hunting season last year. A certain gentleman, of Millheim, owns some four or five hundred acres of woodland on Brush mountain and early in the hunting season last year he took his gun and went up on the mountain in the hope of getting a deer. While tramping along an old road he came upon a strange hunter watching on a deer crossing. The stranger proceeded to call down the Millheim man for what he termed "encroachment upon their territory," and it then developed that he was a member of a hunting party from the western part of the State which had gone onto the mountain and made camp without asking permission of any one.
When the Millheim man told him that he was the owner of the land and had a legal right there the stranger became very abusive. Other instances have been reported where hunters from other sections disregarded most every rule of sportsmen's etiquette and it is because of these facts that land owners are posting trespass notices.
The Bellefonte merchants will hold a Dollar day sale November 29.

There will also be a paper on the influence of the early English settlers on American music.

A FRENZIED FINANCIER.

Bellefonte Young Man Attempted to Pass Many Forged Checks Last Saturday.

At this writing (Wednesday afternoon) the sheriff of Centre county and police officials are looking for Thomas Woolford, a young man of Bellefonte, who last Saturday started on a career of frenzied finance through the medium of forged checks. Some time during the forenoon he went to the First National bank and presented a check for \$500.00 drawn to his order and signed by Elizabeth Green, requesting the cash for same. The bank officials saw at once that the signature was not genuine and naturally refused to cash the check.
Later he went to Montgomery and Co's and wanted to buy some clothing, tendering as payment a check for \$150.00 drawn to his order and signed by J. D. Neidigh. The salesman at Montgomery's declined to accept the check and Woolford left the store. Nothing daunted, however, he went to Sim, the Clothier, and purchased a suit of clothes, an overcoat and other articles amounting to \$52.00. In payment therefore he presented a check for \$250.00, drawn to his order and signed by J. D. Neidigh. The check was marked "for wiring," and Woolford explained that he had wired Mr. Neidigh's buildings for electricity and had received the check in payment therefore. Mr. Baum finally accepted the check and gave him the change, \$198.00. Later he got in communication with Mr. Neidigh and learned the check was a forgery. Securing the services of sheriff Dukeman he started on a hunt for the young man. He was finally found in the Bon Mot, where he was nonchalantly taking a drink. When confronted by Mr. Baum and the sheriff he confessed to having forged the check, but as he willingly surrendered the clothing and the money given him by Mr. Baum he was allowed to go free.
Later in the evening, however, it developed that he had also tried to get a check for \$50.00 cashed at Hazel's grocery, and did succeed in passing a check for \$75.00 on a Bellefonte meat dealer and one for a smaller amount on another merchant. The \$75.00 check was drawn to his order and signed J. M. Corl.
Woolford claims to be an electrician and has done wiring in Bellefonte and at places throughout the county, and all the checks being marked "for wiring" probably aided him in successfully cashing some of them. One of the men victimized, as soon as he learned that the check he cashed was a forgery, went before Squire J. M. Keichline and swore out a warrant for Woolford's arrest, but up to this writing he has successfully evaded the officers of the law.

Interesting Talk on Hawaiian Islands.
The lecture given in the Methodist church on Friday night by Miss Lottie L. Tillotson, on the Hawaiian Islands, the habits and customs of the natives, proved a rare treat to those who attended. The entertainment was intensely interesting, as Miss Tillotson is possessed of a charming personality and gave her lecture with unspoiled naturalness. She has visited nearly every known country and not only has something to say but knows how to say it.
She told of the characteristics of the natives and described the people, saying that the average height of the men of the original Hawaiians was six feet and their weight 200 pounds. That was in the ancient times before the race had intermarried with natives of other countries. The original Hawaiians were the tallest and largest people in the world. She also told of the beautiful scenery and said that the island has twenty-six of the world's highest waterfalls. The temperature throughout the year varies only about ten degrees but during the winter months there are severe storms, after which the small streams become swollen rivers and traffic is blocked for some time. There are many exquisite flowers and shrubs throughout the islands. The principal products are sugar, fruits and coffee.
The Bellefonte merchants are going to give some real bargains on Dollar day, Nov. 29.
