Centre Over the Top in State College Drive.

The Centre county quota in the State College drive for \$2,000,000 for student health and welfare buildings, a total of \$75,000, has been pledged, according to an announcement from the campaign headquarters at the College. However, there will be no cessation in the efforts of the county committee to obtain more funds, for State College borough and Snow Shoe are the only towns in the county that have gone over the top with their quotas. Little more than half of the \$10,000 quota for Bellefonte has been pledged, while the committee feels that there is much to be done in Philipsburg, Boalsburg, Millheim, Centre Hall, Port Matilda and Unionville.

The county quota has been met almost entirely through pledges from faculty members, college employees and the residents of State College borough, and the several thousand dollars secured from residents of Snow Shoe. The campaign is still on in the other towns of the county in an effort to make the total subscriptions from this county go farther over the top than those of any other county. Professors White, Keller and Malin of the faculty, and Mrs. M. Elizabeth Olewine, of Bellefonte, have been the outside of the college town.

Centre is the fourth county in the State to reach its quota in the drive. Its last official total at headquarters was \$75,589, and this figure represents the largest total for any county thus far in the campaign.

In this connection it is of special interest to note that more than one-third of the campaign total to date has come from pledges gathered on the the ball rolling with almost \$45,000. Then State College boron ign came through with almost \$19,000. The men students pledged \$227,467 for Old Main reconstruction as a big student union, or activities headquarters, and the girl students pledged almost \$15,-000 for a starter on a woman's activities building. Towns outside of State College pledged enough to make up the county quota over the college faculty and town subscriptions to put the county well over the \$300,000 mark. The campaign total is now around the \$900,000 mark, and is expected to go up during the holidays with upwards of 1000 students working in its interest in their home towns.

Adams, Cambria, Centre and Sullivan counties are now in the select group and still raising more money, and others are coming fast.

Hugo Bezdek, the popular director of athletics at the college, said at a mass meeting for the football team which left Tuesday on the trip to the Pacific coast, that when he comes back he is going to take off his coat and jump into the work for the campaign. He plans some work in Centre county as a starter and all who know him predict that he will bring in the pledges by the thousands of dollars.
