Boys Enjoy Pictures and Talk on China.

A large crowd of boys enjoyed the pictures shown by Donald Carruthers, of State College, and his description of them from his personal experience. Most of the pictures were taken during his stay there of 47 months. The boys showed a deep interest in his talk. The secretary announced the plan of the International committee regarding the organization of a \$50,-000 club whose purpose it is to enlist 50,000 boys of the Y, each earning and contributing \$1.00 towards the promotion of the Y. work among boys in foreign lands. A plan of the club was organized in Bellefonte and the boys assisted in ways and means of earning and contributing.

THE GRAVES OF THE ANCIENT PHAROAHS CONFIRMING

HISTORY. Exploitation of the Tomb of King Tutenkhamun Revealing Secrets of Centuries Before the

Birth of Christ.

For weeks the dispatches form Luxor, Egypt, have been freighted with J. G. Miller attended the farmer's more interest to the world. Seven years ago archeologists began digging in the Valley of the Kings for the A little son was born to Mr. and grave of Tutenkhamun. While the rest of the world was pressing on with thoughts only of the future this little band of scientists plugged steadily away in the stifling heat of Egypt, what for: They had no thought of financial advancement. Like all men Farmers are cautioned not to forget who give their lives to science they were merely hoping to check up on some of the beliefs we have of what and where the race came from and and son Richard spent the Sabbath at thereby make our theories of the the Grandpa Coble home near Lemont. foundations of civilization facts upon

which we can stand firmly. The revelations that have come from the actual discovery of the tomb searched for may have far greater results than the searchers even hoped for, for now that they have found it, hieroglyphics on the walls of the tomb, when deciphered, may reveal much that will everlastingly silence those who question the accuracy of

Search for Tutenkhamun's tomb which it has been agreed by Egyptol-Miller Bros., of Tyrone, loaded several carloads of corn last week for burial place in the Valley of the Kings, was begun seven years ago by Howard Carter, famous Egyptologist, who was financed by Lord Car-

Starting at the mouth of the barren, desolate valley, Mr. Carter began the slow and uninspiring work of re-moving every bit of fallen limestone and debris from the narrow valley. He set up a little tram road, hauling all the debris out, so that in moving George Woods and wife, with their it from one spot it would not cover up a possible tomb.

Month after month he worked with his little crew of natives, utterly un-D. F. Kapp, cashier of the First rewarded. More than once Lord Carnarvon was on the point of abandoning the expedition, but Mr. Carter induced him to keep on.

The search was finally successful and on February 16th the actual mortuary chamber of a Pharoah who was buried 3300 years ago was entered by explorers. It is by far the richest trove ever uncovered in the necropolis of ancient Thebes, and in all likelihood is the richest that ever will be discovered, Ambrose Lansing, acting curator of the Egyptian section of the Metropolitan Museum of Art, declar-

ed recently.

Tombs of virtually all the early rulers of Egypt have been accounted for, most of them thoroughly looted by native grave robbers, said Mr. Lansing, who has spent much time with Burnham. Metropolitan expeditions delving in the old burial places.

"There are only two or three royal tombs left to look for," he said, "and tombs left to look for," he said, "and and as yet there seems to be no end they are those of lesser kings—for inof it in sight. Some families have all stance those of Semenkhare, who been down at one time. reigned for a few months before Tutenkhamun, and Ay, who reigned for an equally short time after Tutenkha-

"All the others have been opened, a few by archeologists, but the most of them by vandals, who left nothing of importance behind them."

TREASURES WORTH MILLIONS. Royal furniture, garments, chariots ornaments and works of art, of rare beauty and exquisite workmanship, already have been found in unprecedented quantities in the outer chamber of Tutenkhamun's tomb. The funeralry equipment, much of it heavily encrusted with gold and semi-precious stones, is valued at millions of dollars.

But treasures of greater value in the eyes of the Egyptologists-bits of historical data of the era antedating Christ by thirteen and a half centuries,—are hoped for when the hieroglyphic inscriptions within the tomb itself have been translated.

One of the most fascinating theories, the records in the tomb may confirm or explode, is that advanced by eral of antiquities to the Egyptian government, and one of the best known Egyptologists, that Tutenkha-mun was the Pharaoh who oppressed cial gatherings. A few evenings ago the children of Israel and whose army, while Mr. and Mrs. Daniel Irvin were pursuing the Israelites at the time of the exodus, is declared in Biblical accounts to have been swallowed up in the Red Sea.

> ABANDONED MENOTHEISM. Tutenkhamun, previously discovered records, show, took the name "Tutenkhaton" when he first acceded to the throne, thus indicating his sympathy with the so-called "heretical" monotheistic worship of Aton, the "All Loving Father of All Creation," which had been introduced into France worship of East Name a guest of her daughter, Mrs. Maude White, at the Roberts home, last week. had been introduced into Egypt under his predecessor, Akhnaton. In the midst of his eight-year reign,

however, he changed his name to Tutenkhamun, indicating a return to the polytheistic Ammon worship of his

Mr. Weigall's theory is that the "Aton" worship was in reality the Jehovah, initiated in Egypt by Moses, and that when Tutenkhamun returned to the worship of Ammon he began the oppression of the Israelites, including the enforced brickmaking without straw, which resulted in the exodus.

A comparison of the biblical record with records giving the Egyptian side of the story long has been awaited by critical students of the Bible with keen interest.

Mr. Lansing exhibited a series of photographs of the Valley of Kings, one showing the exact location of Tutenkhamun's tomb. Tucked away in a sandstone cliff, it is but a stone's throw from the looted tomb of Merneptah, previously believed by Egyptologists to have been the "Pharoah of

RAMESES' TOMB NEARBY. The tomb of Rameses VI is immediately above it, and somewhat higher up the side of the cliff and a little to the left is the tomb of Amenhotep, opened by the French explorer Loret twenty years ago.

The Valley of the Kings is a desolate waste and almost wholly made up of limestone, burned brown by ages of blazing suns, and is utterly devoid of vegetation. The roads and pathways made by Egyptologists show chalky white, however, where the "burn" has been worn from the white

rock. The valley is about five miles from the Nile, across the river from the site of ancient Thebes. It was selected for a burial place because of its remote location, which the royal Egyptians of the seventeenth and eighteenth dynasties hoped would save them from desecration by tomb robbers.

Their hopes were vain, however, for ghouls found the spot and looted almost all of the tombs. During the opening of Tutenkhamun's tomb it was discovered that vandals had looted it at least once, and many of the more valuable funeralry articles, made of gold, were carried off.

State Grange May Build State College Dormitory.

A special committee appointed by the Pennsylvania State Grange is to consider in the near future a proposal that the organization provide a residence hall for students at The Pennsylvania State College as a share in the college emergency building fund campaign for \$2,000,000.

At least a dozen county Grange organizations have already given financial aid to the State College fund. At the last State Grange convention at Williamsport the appointment of a committee was authorized for the purpose of investigating the proposal that was brought out at that time.

P. H. Dewey, of Gaines, is chairman of this committee which he expects to get together at the college early in March. Others on the committee are Mr. B. Orr, Mercer; Mrs. Howard Van-Kirk, Washington, Pa.; Mrs. Louis Piollet, Wysox, and Professor R. G. Bressler, of the State Grange agricultural school faculty.

Clarion and Crawford Pomona Granges were among the first to suggest and recommend this plan. The Crawford organization adopted resolutions favoring more adequate financial support for State College and advocated Grange interest in the "erection of a Grange hall at State College which shall take the form of a dormitory for agricultural students.

AARONSBURG.

Paul Krape, a student in Albright College, Meyerstown, Pa., has been home for more than a week, owing to having had an attack of grip.

Andrew Stover and Paul Beaver, employed in Burnham, spent Sunday with their parents in this place. These young men are each holding good positions in one of the public works in

A regular old-time epidemic of grip has been prevailing throughout the community for a number of weeks

Thursday, the 8th inst., that busy old bird, the stork, paid a visit to the C. E. Musser home and left their sonin-law and daughter, Mr. and Mrs. Raymond Wingard, a bright little daughter, Hester Hannah. Sunday, the 18th, Rev. J. S. Hollen-

back filled some of the appointments on the Centre Hall charge. They are considering a new pastor at this time. We would wish them success, such as the Aaronsburg Reformed charge has met with in having procured such a splendid minister. Stover Durst came down from Belle-

fonte and spent Sunday with his parents, Mr. and Mrs. John Durst. Mrs. Durst has been sorely afflicted with rheumatism and lumbago for some time. She is slowly growing better and her friends and neighbors hope she may soon be quite well again.

BOALSBURG.
