

From Pattern to Packing

EAGLE SHIRTS are made in the only factory in the country where shirts are made under one roof, from the designing of the pattern to the packing of the shirt.

Fabrics are patterned, yarns dyed, cloth is woven and finished, shirts are cut, stitched, laundered and packed under close, daily executive supervision. That's why Eagle Shirts are exclusive, better, more economical.

The spring styles are here to prove it.

Ford Truck Delivery Makes Record.

Sales of 41,681 Ford trucks during the first quarter setting a new high record, beat out predictions made earlier that the use of the one-ton truck in hauling and delivery systems will be greater this year than ever before.

Not only is the Ford truck rapidly coming into more general use in the commercial field, where its dependability, ease of operation and adaptability to all requirements make it the most popular, but throughout the agricultural sections of the country it is fast being adopted by the farmer as the best means of solving his problem for quicker and cheaper transportation of his products from the farm to the city.

March sales of Ford trucks, which reached the new high mark, of 18,717, exceeded by more than 1,000 the sales for the first three months of 1922, totalling 17,856 and were 50 per cent. higher than the sales in February of this year.

Woodsland Owners

Are you realizing from your land all that it can produce? Close utilization and new uses of forest products and forest land have revolutionized values. Freight cost on lumber brought into the State is now double the price paid for lumber a few years ago. Scientific methods applied to forests, protection, manufacture, utilization, marketing, transportation rates and methods, timber estimating, damage appraisal, etc., will do for you what it has done for other industries. It will cost you nothing to talk this over with an organization specializing on these subjects. Give full particulars.
