PLEASANT GAP.

By actual count on Sunday there were 1800 automobiles passed through our town.

Mr. and Mrs. Henry Noll and Mrs. J. Abner Noll are visiting this week with friends in Philadelphia.

Mrs. Robb and daughter, Mrs. Harry Barr, of Altoona, are visiting at the home of Harry McClincy.

Miss Clara Smoyer, who has been at the Cresson sanatorium for the past year, is home on a short vacation and we are glad to say very much improved in health.

"Come in and rest a bit-Tea House" is the sign for the Mrs. Gough's new restaurant just established. Lunches of every description are served. We bespeak success for the new venture as Mrs. Gough is a scrupulously cleanly, tidy woman and is an expert caterer.

Collins Baumgardner continues to be chief cook and bottle-washer at his home. A week ago he took Mrs. Baumgardner to Tyrone to spend a week with her daughter's family. Sunday morning he left bright and early to bring her home, but found her rather ill to return, so she decided to stay another week.

If a man's wife is quick-tempered, irritable or cranky, he ought to make due allowance for it, remembering that she, like himself, is but human. She may be an angel in spirit, but there are times in the lives of all when the flesh steals a march on the spirit. He probably makes allowance for this when dealing with others, but when he comes home it is forgotten. How many there are who leave their amiability at their office or place of business, when they go home at night.

The farmers are surely a highly favored class. They can now borrow from \$500 to \$25,000 from the Federal Land bank, of Baltimore, at 5 1/2 per cent. per annum and by paying 1 per cent. on a loan of \$1000 per annum additional they have 33 years to pay off loan, principal and interest. I was just thinking that now, as usual, on the approach of a Presidential election the farmers are in evidence, since they are a powerful factor in politics. However, the proposition is a commendable one and should aid materially in advancing the interest of the tillers of the soil.

The automobile industry is surely making wonderful progress. We have two well equipped garages, and it is astounding the work they turn out daily. Sommers and Jodon are located at the forks of the road leading to State College; the firm was established two years ago; in addition to their auto repair work they turned in and wired our residences for electric light. The auto repair work crowded them so hard they finally had to abandon the wiring of houses. The firm is practical and capable hence have all the work they can handle. Henry Noll is the possessor of the extensive up-to-date garage adjacent to the hotel and postoffice. Henry's progress is agreeably surprising all his friends; he handles every machine on the market but is a Ford enthusiast; what he don't know about the Ford is not worth knowing. Mr. Noll, very wisely, before embarking in business on his own account procured a position in a large Philadelphia auto establishment; when through there he served quite a while in an extensive factory in Indiana; his final apprenticeship found him in an up-to-date factory in Michigan. A year ago he opened his garage and owing to his close attention to business, he is quite proficient, hence it is that he is over-taxed with patronage and is often obliged to remain at his work until after midnight. His success is assured.

C. W. Wolfe was taken to the Geisinger hospital, in Danville, during the past week. Mrs. Wolfe reports his condition no better. As yet there has been no operation. Their friends hope he may find relief and finally a permanent cure.

Henry Mowery recently spent a few days in Altoona with Mr. and Mrs. Charles McVey. Mrs. Mowery had been with her daughter, Mrs. McVey, for several weeks. She returned home with her husband. They motored down in Mr. McVey's sedan. Mrs. Mowery returned home somewhat improved in health.

"An Ounce of Prevention is Worth a Pound of Cure."

A disturbance of the even balance of health, which often occurs in these trying days of reconstruction may cause serious trouble. Nobody can be too careful to keep the balance up.

When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic that many people recommend is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that "a stitch in time saves nine."

Preventive treatment now and then calls for the use of a good cathartic or laxative, like Hood's Pills, which are purely vegetable and act quickly and thoroughly.

Russian Refugee Aids Penn State Campaign.

One of the most striking cases of college loyalty and sacrifice has just come to light in connection with the Pennsylvania State College \$2,000,000 building fund campaign, with the arrival at headquarters of a pledge for \$200 from "Tommy" Srednik, graduate of the college in the class of 1912.

Srednik endured untold hardships and privation as a Russian refugee following the outbreak of the world war, and broken in mind and body, with his money gone, he was finally returned to America through the Red Cross. Arriving in this country, he found that his wife and child had both died the previous year of influenza.

Weak and penniless, he began the battle for recovery and it is only recently that he has been able to be about, and it is said that he is still out of regular employment. Yet he has not only pledged generously to the college campaign, but he is spending three nights or more a week canvassing alumni in Philadelphia and has already secured many pledges.

Self-Fed Pigs Gain Better Than Hand-Fed.

The self-feeding of pigs is preferable to hand-feeding, with respect to weight gained and the low cost of gain, according to a feeding experiment conducted at The Pennsylvania State College agricultural experiment station. Two lots of fifteen pigs each were fed for ninety-nine days, a ration of corn meal, buckwheat middlings and tankage, self-fed to one lot and hand-fed to the other. The self-fed lot gained 1.3 pounds per day at a cost per hundred-weight gain of \$5.74 and returned above feed cost \$7.41 per pig, as against .88 pounds, \$7.78 and \$3.18 for the hand-fed lot. The pigs in the self-fed lot showed a decided advantage in thrift and quality during the last half of the experiment.

Then He Traveled.

For hours they had been together on her front porch. The moon cast its tender gleam down on the young and handsome couple who sat strangely apart. He sighed. She sighed. Finally:

"I wish I had money, dear," he said. "I'd travel."

Impulsively she slipped her hand into his; then, rising swiftly, she sped in the house.

Aghast, he looked at his hand. In his palm lay a nickel.—Lampoon.

MEDICAL.

Some Good Advice

Strengthened by Bellefonte Experiences.

Kidney disease is too dangerous to neglect. At the first sign of backache, headache, dizziness or urinary disorders, you should give the weakened kidneys prompt attention. Eat little meat, take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Bellefonte people rely on them. Here's one of the many statements from Bellefonte people.

Mrs. Boyd Vonada, E. Bishop St., says: "Some time ago my kidneys were in a weak condition. I could hardly rest at night and during the day when I was on my feet doing my housework my back gave out and ached so I often had to stop and rest. I frequently had dizzy nervous headaches and my kidneys acted too often. I used Doan's Kidney Pills purchased at the Mott Drug Co., and they just suited my case. They rid me of the backaches, headaches and dizziness. My kidneys were regulated and I felt fine."
