Fabric-Named

EVERY Eagle Shirt is labeled, not only with the name of the make, but with the Eagle name of the shirting as well. These makers were the first to devise this novel scheme of helping men to distinguish fabrics, of giving them something definite to ask for again and again, of putting control into shirt buying where chance ruled before.

Buy Eagle Shirts by the fabric name in the label. It's easy, convenient, helpful, profitable.

100 R. R. CARS CARRY GIANT CIRCUS.

Ringling Bros. and Barnum & Bailey
Add Entire Shipment of Big, New European Features.

Arriving aboard 100 double-length railroad cars forming trains more than one and one-third miles long, and made even greater than in 1922 by the addition of many big, new foreign acts, Ringling Brothers and Barnum & Bailey combined will exhibit at Altoona, Thursday, May 24th.

Those who read the daily papers or who keep in touch with the movie news-reels need not be reminded of the shipment of acts and animals recently imported by the Greatest Show on Earth. The remarkable cargo included two companies of baby elephants are now joined with the forty adults of the mammoth herd. There were also 100 more performing horses accompanied by Europe's greatest trainer, Ernest Schumann, and many wild animals, some of which have been added to the scores upon scores of trained jungle beasts, while others have become part of the marvelous menagerie.

More than a million persons saw the mammoth new circus of 1923 during the weeks that it exhibited in Madison Square Garden, New York. Now this marvelous exhibition is touring the country aboard five great trains. It is a third bigger than the Ringling Brothers and Barnum & Bailey show of last season. It is ten times larger than any other circus now on tour.

Big as this wonder circus of 1923—with its more than thirty trained wild animal displays in steel arenas, fully 200 wonderfully schooled horses, 700 men and women performers, 100 clowns, and scores of features—the price of admission is no more than before. And though the trained animal numbers and the immense horse show were circuses in themselves while touring Europe, they are not offered as separate attractions by the Ringling Brothers and Barnum & Bailey combined shows. Instead all are on one gigantic program. Everything is in one mammoth main tent. One ticket admits to all these and to the tremendous double menagerie. There are more than a thousand animals in the zoo of this circus and these include entire families of hippopotami and giraffes. Another remarkable zoological feature is an armored rhinoceros, the only one known to exist and alone worth \$50,000.
